Development and Financial Reform in Emerging Economies Kobil Ruziev, 2015-10-06 Modern development strategy relies heavily on uncompromising orthodox economic theory and a dogmatic faith in market efficiency In contrast the essays in this volume aim to emphasize the importance of historic experiences to evolve a more realistic and dynamic view of how such development could be formalized

The Making of the British Isles Steven G. Ellis, Christopher Maginn, 2014-07-15 The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far sighted planning and vision as coincidence accident and failure It is a history of revolts and reversal familial bonds and enmity the study of which does much to explain the underlying tension between the nations of modern day Britain The Making of the British Isles recounts the development of the nations of England Scotland Wales and Ireland from the time of the Anglo French dual monarchy under Henry VI through the Wars of the Roses the Reformation crisis the reigns of Henry VIII and Elizabeth I the Anglo Scottish dynastic union the British multiple monarchy and the Cromwellian Republic ending with the acts of British Union and the Restoration of the Monarchy

The Ruins of Experience Matthew Wickman, 2013-04-23 There emerged during the latter half of the eighteenth century a reflexive relationship between shifting codes of legal evidence in British courtrooms and the growing fascination throughout Europe with the primitive Scottish Highlands New methods for determining

evidential truth linked with the growing prominence of lawyers and a formalized division of labor between witnesses and jurors combined to devalue the authority of witness testimony magnifying the rupture between experience and knowledge. Juries now pronounced verdicts based not upon the certainty of direct experience but rather upon abstractions of probability or reasonable likelihood. Yet even as these changes were occurring the Scottish Highlands and Hebridean Islands were attracting increased attention as a region where witness experience in sublime and communal forms had managed to trump enlightened progress and the probabilistic abstract and mediated mentality on which the Enlightenment was predicated. There in a remote corner of Britain natives and tourists beheld things that surpassed enlightened understanding. Experience was becoming all the more alluring to the extent that it signified something other than knowledge. Matthew Wickman examines this uncanny return of experiential authority at the very moment of its supposed decline and traces the alluring improbability of experience into our own time. Thematic in its focus and cross disciplinary in its approach, *The Ruins of Experience* situates the literary next to the nonliterary, the old beside the new. Wickman looks to poems, novels, philosophical texts, travel narratives, contemporary theory and evidential treatises and trial narratives to suggest an alternative historical view of the paradoxical tensions of the Enlightenment and Romantic eras.

As A' Bhraighe Allan the Ridge MacDonald, Effie Rankin, 2005 It has been said that the greatest Gaelic poets were from Lochaber in the Scottish Highlands. Those who emigrated to Nova Scotia in the 18th and 19th centuries were the living memory of clan history and tradition. Allan the Ridge MacDonald stands out as one poet who inherited and maintained an extraordinary wealth of vocabulary and a superior knowledge of clan and legendary history. In this first compilation and translation of the known Gaelic songs of Allan the Ridge in print, Effie Rankin gives all readers an insight into the life of the poet and the traditions that made him a highly regarded seanchaidh.
