whole trace the evolution of a highly successful small publisher something that is almost an oxymoron in these days of corporate buyouts and multinational book groups From the beginning Chelsea Green's books were nationally recognized garnering positive reviews accolades and awards We've published four New York Times bestsellers and our books have set the standard for in depth how to books that remain relevant years often decades beyond their original publication date Chelsea Green was born from a single seed the beauty of craft Craft in writing and editing in a story well told or a thesis superbly expressed writes cofounder and publisher emeritus Ian Baldwin in the book's foreword Today craft continues to inform all aspects of our work design illustration production sales promotion and beyond It has even informed our business model In 2012 Chelsea Green became an employee owned company With the rise of the Internet new media platforms and a constantly shifting bookselling landscape the future of publishing is anything but predictable But if Chelsea Green's books prove anything it is that despite these challenges there remains a hunger for new and important ideas and authors and for the permanence and craftsmanship of the printed word Today our ongoing mission is stronger than ever as we launch into our next thirty years of publishing excellence

Investing in Nature William Ginn, 2013-04-10 In 2004 U.S. consumers spent 5.2 billion purchasing bottled water while the government only invested 5 percent of that amount to purchase critical watersheds parks and wildlife refuges systems vital to clean water and healthy environments How can we reverse the direction of such powerful economic forces A group of dedicated business people turned environmental entrepreneurs is pioneering a new set of tools for land conservation deals and other market based strategies These pragmatic visionaries have already used these methods to protect millions of acres of land and to transform the practices of entire industries They are transforming the very nature of conservation by making it profitable Drawing on his vast experience in both business and land conservation at The Nature Conservancy TNC William Ginn offers a practical guide to these innovative methods and a road map to the most effective way to implement them From conservation investment banking to emerging markets for nature's goods and services to new tax incentives that encourage companies to do the right thing Ginn goes beyond the theories to present real world applications and strategies And just as importantly he looks at the lessons learned from what has not worked including his own failed efforts in Papua New Guinea and TNC's controversial compatible development approach in Virginia In an era of dwindling public resources and scarce charitable dollars these tools reveal a new and perhaps the only pathway to achieving biodiversity goals and protecting our lands Conservation professionals students of land conservation and entrepreneurs interested in green business will find Ginn's tales of high finance deals involving vast tracts of pristine land both informative and exciting More than just talk Investing in Nature will teach you how to think big about land conservation

The Left Handed Curriculum Morna M. McDermott, 2013-03-01 Teaching is not merely a technical process it is one that requires creative and inspirational thinking not only on the part of students but for teachers themselves as artful reflective beings The purpose of this book is to provide educators with creative experiences which

unlock their imaginative potential so they can re envision their curriculum to promote active learning culturally relevant pedagogy and differentiated instruction This book guides the reader through a series of experiences intended to tap into the right side of the brain and provide educators opportunities to re imagine their existing curriculum in new ways Through this re imaging or re envisioning of the creative potential within themselves teachers can redesign their curricula in ways that best meet the needs of their learners schools and communities This book emphasizes creativity in teaching as a collaborative effort The experiences and ideas presented in this book are intended to inspire small groups or whole communities including schools to work together and support each other in their creative efforts Creativity does not just exist for individuals in isolated contemplation but resides instead in the relational work that community members create together toward a shared vision In order to encourage imaginative students who will have the capacities to see the world not merely as it is but as it could be we need to encourage teachers to tap into their creative imaginative capacities to teach as well Such work cannot be performed in isolation Creative social change requires that we imagine together that which we cannot do alone

**Slowspoke** Mark Schimmoeller, 2014-07-30 Why a unicycle Why a cross country trip Why leave a prominent New York magazine and return to the simple life in Kentucky Reminiscent of classic literary travelogues Mark Schimmoeller's *Slowspoke A Unicyclist's Guide to America* takes readers on an inward emotional journey as he inches across landscapes and communities from North Carolina to Arizona Schimmoeller became inspired by his unicycle as an adolescent It taught him that rushing whether down the driveway or toward adulthood would cause a fall and so instead of accepting the speeding straight line that defines modern American life he adopted his single wheel's wayward rhythms Written with poise and humor *Slowspoke* is more than a cross country trip on a unicycle it's a meditation on a playful recalcitrant slowness that is increasingly rare in a culture obsessed with acceleration At times achingly sad and other times joyful Schimmoeller intersperses recollections of his journey with vignettes of his present day off the grid homesteading with his wife in Kentucky and their efforts to save an old growth forest Schimmoeller's personal journey will resonate with anyone who has slowed down to experience life at a unicycle's speed or who longs to do so who has fallen in love or searched for it or who has treasured tall trees or mourned their loss
