A History Of The English Speaking Peoples Since 1900:

A History of the English-Speaking Peoples since 1900 Andrew Roberts, 2010-12-16 Prize winning British historian tells the story of the English speaking peoples in the 20th century Winston Churchill's History of the English Speaking Peoples ended in 1900 Andrew Roberts Wolfson History prizewinner has been inspired by Churchill's example to write the story of the 20th century Churchill wrote Every nation or group of nations has its own tale to tell Knowledge of the trials and struggles is necessary to all who would comprehend the problems perils challenges and opportunities which confront us today It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English speaking peoples of today but also play some small part in uniting the whole world that I present this account As the greatest of all the trials and tribulations of the English speaking peoples took place in the twentieth century Roberts book covers the four world historical struggles in which the English speaking peoples have been engaged the wars against German Nationalism Axis Fascism Soviet Communism and now the War against Terror But just as Churchill did in his four volumes Roberts also deals with the cultural social and political history of the English global diaspora *A History of Modern Britain* Ellis Wasson, 2009-08-17 A History of Modern Britain 1714 to the Present presents a lively introduction to the history of the modern British Isles from the Hanoverian succession to the present day Develops themes of tradition and change the role of the four nations of the British Isles and Britain in a world context Complements the narrative with descriptions of fascinating personalities from Britain's past from the arsonist James Aitken and the female adventurer Jane Digby to the celebrity footballer George Best Includes features to help orientate the reader illustrations maps royal family genealogies chronology and glossary online supplements include preliminary chapter from 1688 An accompanying website containing additional support and materials for lecturers and students is available at www.wiley.com/go/wasson *Britain and European Integration Since 1945* David Gowland, Arthur Turner, Alex Wright, 2009-10-30 This book provides both a comprehensive introduction and a perceptive examination of Britain's relations with the European Community and the European Union since 1945 combining an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics Few issues in British politics since 1945 have generated such heated controversy as Britain's approach to the process of European integration associated with the European Union The long running debate on the subject has not only played a major part in the downfall of prime ministers and other leading political figures but has also exposed major fault lines within governments and caused deep and rancorous divisions within and between the major political parties This highly contested issue has given rise to bitter campaigning in the press and between pressure groups and it has bemused confused and divided the public at large Key questions addressed include Why has Europe had such an explosive impact on British politics What impelled British policymakers to join the European Community and to undertake one of the radical if not the most radical changes in modern British history What have been the perceived advantages and disadvantages of British

membership of the European Union Why has British membership of the European Union rarely attracted a national consensus Engaging with both academic and public debates about Britain and the European Union this volume is essential reading for all students of British history British politics and European politics **The Role of Ideology in the Origins of the Cold War** Nicolas Lewkowicz, 2018 This book argues that American Exceptionalism and Eurasianism engendered the ideological principles that propelled the geostrategic interests of the United States and the Soviet Union in the post World War Two period The correlation between ideology and the pursuit of certain geostrategic aims led to the creation of the interventionist mechanisms that established a sound management of the international order in the post World War Two era

Language Planning and Student Experiences Joseph Lo Bianco, Renata Aliani, 2013-06-28 This book is a timely comparison of the divergent worlds of policy implementation and policy ambition the messy often contradictory here and now reality of languages in schools and the sharp edged shiny future oriented representation of languages in policy Two deep rooted tendencies in Australian political and social life multiculturalism and Asian regionalism are represented as key phases in the country's experimentation with language education planning Presenting data from a five year ethnographic study combined with a 40 year span of policy analysis this volume is a rare book length treatment of the chasm between imagined policy and its experienced delivery and will provide insights that policymakers around the world can draw on

Eighteenth-Century British Literature and Postcolonial Studies Suvir Kaul, 2009-02-25 This book convincingly challenges both the extremely short historical memory of most postcolonial work and the all too insularly English world still conjured by period specialists Hogarthian whores and Grub Street hacks coffee houses and fashionable pastimes and the burgeoning of print culture all stand revealed as intimately bound to portents of plantation insurgency agitation for abolition and the vast fortunes produced by the labouring bodies of the poor the colonized and the enslaved Eighteenth century studies has never appeared in a more engaged and fascinating light Professor Donna Landry University of Kent In this volume Suvir Kaul addresses the relations between literary culture English commercial and colonial expansion and the making of Great Britain in the late seventeenth and eighteenth centuries He argues that literary writing played a crucial role in generating the vocabulary of British nationalism both in inter national terms and in attempts to realign political and cultural relations between England Scotland and Ireland The formal innovations and practices characteristic of eighteenth century English literature were often responses to the worlds brought into view by travel writers merchants and colonists Writers even those suspicious of mercantile and colonial expansion worked with a growing sense of a national literature whose achievements would provide the cultural capital adequate to global imperial power and would distinguish Great Britain for its twin success in arms and arts The book ranges from Davenant's theatre to Smollet's Roderick Random to Phillis Wheatley's poetry to trace the impact of empire on literary creativity Key Features An introduction to the impact of mercantilism and empire on the crafting of eighteenth century British literature Encourages students to examine the key formal innovations that define

eighteenth century British literary history as they were produced by writers who redefined

Building on a Common Foundation Brian R. Talbot, 2021-04-12 In the second half of the nineteenth century Scottish Baptists like other Evangelical Protestant denominations were focusing more on things they had in common such as a commitment to home evangelization and church planting providing a common fund to assist small and struggling congregations the provision of theological education for the training of prospective pastors together with the need to disseminate information between the churches concerning their progress in the work of the gospel From the start of this Baptist Union in 1869 the numbers of churches and members grew steadily until 1935 It was a remarkable story of dedicated Christian service Scottish Baptists came through two world wars the social revolution of the 1960s and the materialistic emphases of the 1980s with a significant degree of success in adapting their evangelistic activities to relate to their social context There is little doubt that from the late 1980s the growing secularization in this country ensured that mission strategies adopted by these Scottish Christians were less successful than in previous decades However a revitalization of its work in the early years of the twenty first century has given renewed grounds for hope for its work and witness in the coming years

What Is History For? Robert Gildea, 2024-03-26 Gildea suggests that the more people who really understand what good history entails the more likely history is to triumph over myth He sees positive signs in public history citizen historians and community projects debunking claims that you cannot rewrite history arguing that good history that is attuned to its times must be rewritten

Empire, Development & Colonialism Mark Duffield, Vernon Hewitt, 2013 This book makes a unique contribution to the renewed debate about empire and imperialism and will be of great interest to all those concerned with understanding the historical antecedents and wider implications of today's emergent liberal interventionism and the various logics of international development This collection explores the similarities differences and overlaps between the contemporary debates on international development and humanitarian intervention and the historical artefacts and strategies of Empire It includes views by historians and students of politics and development drawing on a range of methodologies and approaches The parallels between the language of nineteenth century liberal imperialism and the humanitarian interventionism of the post Cold War era are striking The American military both in Somalia in the early 1990s and in the aftermath the Iraq invasion used ethnographic information compiled by British colonial administrators Are these interconnections which are capable of endless multiplication accidental curiosities or more elemental The contributors to this book articulate the belief that these comparisons are not just anecdotal but are analytically revealing From the language of moral necessity and conviction the design of specific aid packages the devised forms of intervention and governmentality through to the life style design and location of NGO encampments the authors seek to account for the numerous and often striking parallels between contemporary international security development and humanitarian intervention and the logic of Empire MARK DUFFIELD is Professor of Development Politics at the University of Bristol VERNON HEWITT is Senior Lecturer in Politics at the University

of Bristol Southern Africa South Africa Botswana Lesotho Swaziland Zimbabwe and Namibia HSRC Press The 'Militant Democracy' Principle in Modern Democracies Markus Thiel, 2016-02-17 This collection provides an up to date analysis of key country approaches to Militant Democracy Featuring contributions from some of the key people working in this area including Mark Tushnet and Helen Irving each chapter presents a stocktaking of the legal measures to protect the democracy against its enemies within In addition to providing a description of the country's view of Militant Democracy and the current situation it also examines the legal and political provisions to defend the democratic structure against attacks The discussion also presents proposals for the development of the Militant Democracy principle or its alternatives in policy and legal practice In the final chapter the editor compares the different arrangements and formulates a minimum consensus as to what measures are indispensable to protect a democracy Highly topical this book is a valuable resource for students academics and policy makers concerned with democratic principles *The Interrelation between the Right to Identity of Minorities and their Socio-economic Participation* Kristin Henrard, 2013-01-08 This edited volume sets out to unravel various dimensions of a particular topical question pertaining to minorities and minority protection which has not been explored yet more particularly the socio economic participation of minorities in relation to their right to respect for identity This interrelation and interaction is studied from a multi disciplinary perspective spanning a broad range of disciplines while drawing on a rich variety of case studies covering various corners of the world This interrelation manifests itself in distinctive ways for religious minorities ethnic minorities and indigenous peoples As it is impossible to provide a comprehensive coverage this volume aims to offer a range of articles that reveal the breadth of the theme under review while combining theoretical analysis with fascinating case studies *The World of the Edwardian Child* Michael Tracy, 1998 Eurovision: Identity and the International Politics of the Eurovision Song Contest since 1956 Julie Kalman, Ben Wellings, Keshia Jacotene, 2019-11-19 This book uses the Eurovision Song Contest ESC as an analytical entry point to understand and illuminate post War Europe and the drive to create an identity that can legitimise the European project in its broadest sense The ESC presents an idealised vision of Europe and this has long existed in a strained relationship with reality While the trajectory of post war European integration is a high profile topic we believe that the ESC offers a unique and innovative way to think about the role of culture in the history of post War European integration and tensions between the ideal and reality of European unity Through the series of case studies that make up the chapters in this book analysis brings these interlinked tensions to light exploring the roles of culture and identity alongside and a productive conversation with the political and economic projects of post war European integration *Magic and Mayhem* Derek Leebaert, 2010-09-07 AFGHANISTAN AND IRAQ are the latest in a string of blunders that includes Vietnam and an unintended war with China from 1950 to 53 those four fiascoes being just the worst moments in nearly a lifetime of false urgencies intelligence failures grandiose designs and stereotyping of enemies and allies alike America brought down the Soviet empire at the cold war's most dangerous

juncture but even that victory was surrounded by myths such as the conviction that we can easily shape the destinies of other people Magic and Mayhem is a strikingly original closely informed investigation of two generations of America's avoidable failures In a perfectly timed narrative Derek Leebaert reveals the common threads in these serial letdowns and in the consequences that await He demonstrates why the most enterprising and innovative nation in history keeps mishandling its gravest politico military dealings abroad and why well credentialed men and women deemed brilliant when they arrive in Washington consistently end up leading the country into folly Misjudgments of this scale arise from a pattern of self deception best described as magical thinking When we think magically we conjure up beliefs that everyone wants to be like us that America can accomplish anything out of sheer righteousness and that our own wizardly policymakers will enable gigantic desires like transforming the Middle East to happen fast Mantras of stability or democracy get substituted for reasoned reflection Faith is placed in high tech silver bullets whether drones over Pakistan or helicopters in Vietnam Leebaert exposes these magical notions by using new archival material exclusive interviews his own insider experiences and portraits of the men and women who have succumbed George Kennan Henry Kissinger Robert McNamara Donald Rumsfeld Dick Cheney and Presidents Kennedy Carter and George W Bush all appear differently in the light of magic as do wise men from Harvard Georgetown Stanford and think tanks such as RAND and Brookings as well as influential players from the media and occasionally the military including General David Petraeus as he personifies the nation's latest forays into counterinsurgency Magic and Mayhem offers vital insights as to how Americans imagine confront and even invite danger Only by understanding the power of illusion can we break the spell and then better apply America's enduring strengths in a world that will long need them

The Postcolonial Indian Novel in English Geetha Ganapathy-Doré, 2011-01-18 Indian writers of English such as G V Desani Salman Rushdie Amit Chaudhuri Amitav Ghosh Vikram Seth Allan Sealy Shashi Tharoor Arundhati Roy Vikram Chandra and Jhumpa Lahiri have taken the potentialities of the novel form to new heights Against the background of the genre's macro history this study attempts to explain the stunning vitality colourful diversity and the outstanding but sometimes controversial success of postcolonial Indian novels in the light of ongoing debates in postcolonial studies It analyses the warp and woof of the novelistic text through a cross sectional scrutiny of the issues of democracy the poetics of space the times of empire nation and globalization self writing in the auto meta docu fictional modes the musical pictorial cinematic and culinary intertextualities that run through this hyperpalimpsestic practice and the politics of gender caste and language that gives it an inimitable stamp This concise and readable survey gives us intimations of a truly world literature as imagined by Francophone writers because the postcolonial Indian novel is a concrete illustration of how language liberated from its exclusive pact with the nation can enter into a dialogue with a vast polyphonic ensemble

Queer Youth Histories Daniel Marshall, 2022-01-01 This pioneering collection provides for the first time an international and transdisciplinary reflection on youth history and queer sexualities and genders Since the 1970s there has been an

explosion in research focusing on LGBTQ history and on the lives of LGBTQ young people but these two research areas have seldom been brought together explicitly Bridging LGBTQ historical scholarship and contemporary queer youth cultural studies this book marks out pathways for thinking more about youth in LGBTQ history and more about history in contemporary understandings of LGBTQ youth Examining histories from the nineteenth century through to the recent past contributors examine queer youth histories in continental Europe Britain the United States of America New Zealand Australia Canada Ireland India Malaysia and Hong Kong

Global Rules James E. Cronin, 2014-10-28 Questions long perceived views of post World War II America and its position in the world especially after Vietnam The author details the challenges the economic transition of the 1970s and 1980s engendered as the US and Great Britain together actively pursued their shared ideal of an international assemblage of market based democratic states

Empires of the Mind Robert Gildea, 2019-02-28 Prize winning historian Robert Gildea dissects the legacy of empire for the former colonial powers and their subjects

Clio's Battles Jeremy Black, 2015-07-01 A survey of the variety of readings we have of the past and of how those readings are used in the present day to validate discredit unite or divide To write history is to consider how to explicate the past to weigh the myriad possible approaches to the past and to come to terms with how the past can be and has been used In this book prize winning historian Jeremy Black considers both popular and academic approaches to the past His focus is on the interaction between the presentation of the past and current circumstances on how history is used to validate one view of the present or to discredit another and on readings of the past that unite and those that divide Black opens with an account that underscores the differences and developments in traditions of writing history from the ancient world to the present Subsequent chapters take up more recent decades notably the post Cold War period discussing how different perspectives can fuel discussions of the past by individuals interested in shaping public opinion or public perceptions of the past Black then turns to the possible future uses of the then past as a way to gain perspective on how we use the past today

Clio's Battles is an ambitious account of the engagement with the past across world history and of the clash over the content and interpretation of history and its implications for the present and future Remarkable both for its geographical scope and historical scale and for its command of scholarship on a breathtaking range of subjects I can't imagine another historian who could attempt such an ambitious work or pull it off with such aplomb William Gibson Oxford Brookes University Refreshing Black eschews Eurocentricism and includes considerable material on other areas of the world that one does not usually find in such a work Typical of Black's writing there is much to learn in the numerous small asides throughout the text Taken together these form an impressive whole Spencer C Tucker VMI

From Wall Street to Bay Street Christopher Kobrak, Joe Martin, 2018-01-01 From Wall Street to Bay Street is the first book for a lay audience to tackle the similarities and differences between the financial systems of Canada and the United States Christopher Kobrak and Joe Martin reveal the different paths each system has taken since the early nineteenth century
