Imperfect Lee Kofman, 2019-01-08 By the time she was eleven and living in the Soviet Union Lee Kofman had undergone several major operations on both a defective heart and injuries sustained in a bus accident Her body harbours a constellation of disfiguring scars that have shaped her sense of self and her view of the world But it wasn t until she moved to

Israel and later to Australia that she came to think these markings weren't badges of honour to flaunt but were in fact imperfections that needed to be hidden away. In a captivating mix of memoir and cultural critique, Kofman casts a questioning eye on the myths surrounding our conception of physical perfection and what it's like to live in a body that deviates from the norm. She reveals the subtle ways we are all influenced by the bodies we inhabit, whether our differences are pronounced or noticeable only to ourselves. She talks to people of all shapes, sizes, and configurations and takes a hard look at the way media and culture tell us how bodies should and shouldn't be. Illuminating, confronting, and deeply personal, *Imperfect* challenges us all to consider how we exist in the world and how our bodies shape the people we become. **Good As You** Paul

Flynn, 2017-04-27 One of the most important books about gay culture in recent times. The *Quietus* Long listed for the Polari First Book Prize. In 1984, the pulsing electronics and soft vocals of *Smalltown Boy* would become an anthem uniting gay men. A month later, an aggressive virus, HIV, would be identified, and a climate of panic and fear would spread across the nation, marginalising an already ostracised community. Yet out of this terror would come tenderness, and 30 years later, the long road to gay equality would climax with the passing of same-sex marriage. Paul Flynn charts this astonishing pop-cultural and societal U-turn via the cultural milestones that effected change: from Manchester's self-selection as Britain's gay capital to the real-time romance of Elton John and David Furnish's eventual marriage. Including candid interviews from major protagonists such as Kylie Russell, T Davies, Will Young, Holly Johnson, and Lord Chris Smith, as well as the relative unknowns crucial to the gay community, we see how an unlikely group of bedfellows fought for equality both front of stage and in the wings. This is the story of Britain's brothers, cousins, and sons. Sometimes it is the story of their fathers and husbands. It is one of public outrage and personal loss, the not-always-legal highs and the desperate lows, and the final collective victory as gay men were finally recognised as *Good As You*. *Photography in and out of Africa* Kylie Thomas, Louise Green, 2018-02-02

This book offers a range of perspectives on photography in Africa, bringing research on South African photography into conversation with work from several other places on the continent, including Angola, the DRC, Kenya, Mali, Morocco, Nigeria, Ethiopia, and Eritrea. The collection engages with the history of photography and its role in colonial regulatory regimes, with social documentary photography, and practices of self-representation, and with the place of portraits in the production of subjectivities, as well as contemporary and experimental photographic practices. Through detailed analyses of particular photographs and photographic archives, the chapters in this book trace how photographs have been used both to affirm colonial worldviews and to disrupt and critique such forms of power. This book was originally published as a special issue of *Social Dynamics*. *Narratology Beyond the Human* David Herman, 2018 To what extent and in what manner do storytelling practices accommodate nonhuman subjects and their modalities of experience, and how can contemporary narrative study shed light on interspecies interactions and entanglements? In *Narratology beyond the Human*, David Herman addresses these questions through a cross-disciplinary approach to post-Darwinian narratives concerned with animals and human-animal

relationships Herman considers the enabling and constraining effects of different narrative media examining a range of fictional and nonfictional texts disseminated in print comics and graphic novels and film In focusing on techniques such as the use of animal narrators alternation between human and nonhuman perspectives the embedding of stories within stories and others the book explores how specific strategies for portraying nonhuman agents both emerge from and contribute to broader attitudes toward animal life Herman argues that existing frameworks for narrative inquiry must be modified to take into account how stories are interwoven with cultural ontologies or understandings of what sorts of beings populate the world and how they relate to humans Showing how questions of narrative bear on ideas of species difference and assumptions about animal minds Narratology beyond the Human underscores our inextricable interconnectedness with other forms of creaturely life and suggests that stories can be used to resituate imaginaries of human action in a more than human world

Conceptualisms Steve Tomasula, 2022-02-15 Anyone who looks beyond the bestseller lists can see that the literary landscape outside its commercial walls is just as varied as that of visual art just as wild just as conceptual novels in the form of dioramas narratives read through virtual reality glasses or told as a series of tweets stories told as recipes poems in skywriting genetic code pixels skin as well as print and sound The 100 prose works and poems that make up Conceptualisms all have the strangeness authors have always given ordinary speech in order to transform it into literature In fact this strangeness or unfamiliarity may be the very core of what makes writing literature and pushed to its boundaries what makes literature conceptual Experimental conceptual avant garde hybrid surfiction fusion radical slip stream avant pop postmodern self conscious innovative L A N G U A G E writing alternative anti or new literature Across the years a variety of names have been used to describe fiction poetry and hybrid writing that like conceptual visual art foregrounds its ideas explores new forms challenges mainstream writing traditions strives for ways to speak to the present Along with whatever else they do they ask Why isn't this also literature and keep the boundaries of literature flexible and unresolved Now for the first time here is an anthology that offers an overview of this other tradition as it lives in the early decades of the 21st century The first major anthology of this other tradition Conceptualisms presents writing by over 90 authors across three generations representing a plethora of aesthetics and approaches to their subjects Readers will recognize authors who have shaped the nature of contemporary writing such as Lydia Davis Charles Bernstein Nathaniel Mackey David Foster Wallace and Claudia Rankine They'll also find authors and responses to the canon that they haven't yet encountered Conceptualisms is a book of ideas for writers teachers and scholars as well as readers who wonder how many ways literature can live

The Darkness and the Deep Aline Templeton, 2009-11-26 The second book in the critically acclaimed DI Marjory Fleming series Loved it She has become the crime czar of the Scottish small town Val McDermid In fictional terms the combination of domesticity and detection is very appealing especially when it

comes with a detailed vivid portrayal of a complete society Literary Review The wreck of the Knockhaven lifeboat with the loss of all three of its crew is a hard blow for the small Scottish town But it s harder still when DS Tam MacNee discovers that it isn t simply a tragic accident Was it just the act of vandals bored in a fishing port stricken with unemployment Could it be linked to the drugs trade which has taken root in the locality Or is there someone who in their determination to kill one person is callous enough to take two innocent lives And if so who is the intended victim As DI Marjory Fleming and her team investigate multiple murders with a whole community hungry for justice the pressure professional and personal is on
