A Life Of Being Having And Doing Enough:

A Life of Being, Having, and Doing Enough Wayne Muller, 2010-04-13 From the moment we are born we are seekers Our culture obsessively promotes the pursuit of money success and self improvement At the end of each activity jammed day though we collapse into bed discouraged by everything we have not checked off on our to do lists in despair that whatever we have accomplished is never enough Worse still when our dreams become derailed by the inherent tragedies of life job loss financial peril sickness or the death of a loved one we feel devastated by the pain and injustice of it all Nationally renowned author therapist and minister Wayne Muller offers healing for the perpetually stressed in A Life of Being Having and Doing Enough By learning compassion and mercy for ourselves and by recognizing what is most profoundly true about who we are and what we need we can gain the self acceptance so that whatever we choose to do in this moment it is wholly enough Muller mixes the writings of great spiritual and political leaders with inspirational anecdotes from his own life inviting us to derive more satisfaction from less and pull gratitude out of the ashes of grief The answer to what he describes as authentic happiness lies not in seeing the glass as half full instead of half empty In reality he writes the glass is always half full and half empty The world is neither broken nor whole but eternally engaged in rhythms between joy and sorrow With Muller s guidance we may find ourselves on the most courageous spiritual pilgrimage of our lives

Corporate Social Responsibility is Not Public Relations Sangeeta Waldron, 2022-11-15 How to put Corporate Social Responsibility CSR at the heart of your company and maximise the business benefits Research shows that CSR improves longterm business performance and that consumers prefer to patronise organisations with strong histories of social responsibility Today's customers and employees are speaking with their values as well as their wallets Consumers are sensitive to empty promises and want brands to be committed to the planet sustainability and other social issues This book argues that trust is at stake for every organisation and is the reason why communications strategies must respond authentically If you can't be authentic about social initiatives then don't do it because CSR is not a publicity tool Yet some see the relationship as nothing but a marketing trick an organisation's blatant selfpromotion Inside these pages you will find invaluable insights from established companies like Tata Dabur and ITC alongside interviews with global business leaders and emerging social entrepreneurs responding to this shifting perspective of CSR worldwide and in India This book will define the real role of PR in CSR and what that relationship should be Sangeeta Waldron is an awardwinning public relations and media professional and is the author of The PR Knowledge Book She is often invited to global events where she speaks about the media CSR and diversity in business
