**Editions of the Bible and Parts Thereof in English, from the Year MDV. to MDCCCL.** Henry Cotton,1852     **The English Version of the Polyglott Bible, Etc** ,1837     [The Present in Linguistic Expressions of Temporality](#) Marie-Eve Ritz,2023-11-30 This book offers a comprehensive examination of Present Time Expressions PTEs illustrating how a more

informed understanding of their semantic and pragmatic representations can offer unique insights into the temporal systems of languages. The volume takes as its point of departure the notion that tenses, aspectual viewpoint markers and temporal expressions have a semantic meaning which is further pragmatically enriched and manipulated in use by speakers. Building on this foundation, the book introduces current theories on the linguistic expression of temporality, toward better highlighting the need for further understanding of PTEs encompassing tenses of the present and words such as now. The volume draws on data from Australian English and Indigenous Australian languages to support its goal of arriving at a theory of the flexibility of uses of PTEs and their centrality in language and highlight the implications for future research on pragmatic and semantic change. This book will be of particular interest to graduate students and researchers in semantics, pragmatics, discourse analysis and philosophy of language as well as those interested in research on Indigenous Australian Languages and Australian English.
