**Rachmones** Burt Alpert, 2010-05 You are not like those who live in the places from which you have fled he said addressing the vast throng that crowded around him You do not long to see the inside of palaces nor covet slaves to do your bidding You do not wag your tail for the master's bone trading him vows of servitude that you might fill your belly Fleeing from all the lands around the speaker continued you have sought refuge in free places where each has equal say and no man lords it over another In that free spirit held in common among brethren you have your home In this pivotal moment Moses was calling upon the habiru stateless citizens who had defected from every kingdom in the surrounding lands to transform their code of behavior into a body of law that would impact on the entire future of Western consciousness and indeed upon world history At its core was empathy Rachmones traces the passion of hebraic empathy its expression and defense from its roots in universal human awareness on into contemporary culture Utilizing a detailed examination of ancient documents and biblical sources with references to experiences of the author in his own family Rachmones introduces a perspective on human history long obscured behind the operative mindset of corporate society Brigands drop outs defectors sheep herders poor dirt farmers all played their role in defending the freedom of thought within which that precious emotion of human engagement might be preserved With empathy poised now to invigorate a new era in human survival this is their story

of how it funds its schools In New Hampshire taxpayers in the state's poorest communities pay the highest education taxes yet raise the lowest revenues for their kids schools As the lead lawyer in the Claremont New Hampshire school funding case Volinsky waged a twenty year battle to make access to education fairer for all children in the state not just the wealthy white and privileged Volinsky offers not just a history of how we got here at the state and national level but also how to find a better path forward Combining litigation with public engagement and direct political action including holding office is our best hope to change public policy on education and advance the public good Change can happen and The Last Bake Sale shows us how

In its long history the English language has had many lawmakers those who have tried to regulate or otherwise organize the way we speak Proper Words in Proper Places offers the first narrative history of these endeavors and shows clearly that what we now regard as the only correct way to speak emerged out of specific historical and social conditions over the course of centuries As historian Jack Lynch has discovered every rule has a human history and the characters peopling his narrative are as interesting for their obsession as for their erudition the sharp tongued satirist Jonathan Swift who called for a government sponsored academy to issue rulings on the language the polymath Samuel Johnson who put dictionaries on a new footing the eccentric Hebraist Robert Lowth the first modern to understand the workings of biblical poetry the crackpot linguist John Horne Tooke whose bizarre theories continue to baffle scholars the chemist and theologian Joseph Priestly whose political radicalism prompted violent riots the ever crotchety Noah Webster who worked to Americanize the English language the long bearded lexicographer James A H Murray who devoted his life to a survey of the entire language in the Oxford English Dictionary and the playwright George Bernard Shaw who worked without success to make English spelling rational Grammatical rules or laws are not like the law of gravity or even laws against murder and theft they re more like rules of etiquette made by fallible
