Storytelling in Early Childhood Teresa Cremin,Rosie

Flewitt, Ben Mardell, Joan Swann, 2016-12-08 *Storytelling in Early Childhood* is a captivating book which explores the multiple dimensions of storytelling and story acting and shows how they enrich language and literacy learning in the early years. Foregrounding the power of children's own stories in the early and primary years it provides evidence that storytelling and story acting a pedagogic approach first developed by Vivian Gussin Paley affords rich opportunities to foster learning within a play based and language rich curriculum. The book explores a number of themes and topics including the role of imaginary play and its dynamic relationship to narrative how socially situated symbolic actions enrich the emotional cognitive and social development of children how the interrelated practices of storytelling and dramatisation enhance language and literacy learning and contribute to an inclusive classroom culture the challenges practitioners face in aligning their understanding of child literacy and learning with a narrow mandated curriculum which focuses on measurable outcomes. Driven by an international approach and based on new empirical studies this volume further advances the field offering new theoretical and practical analyses of storytelling and story acting from complementary disciplinary perspectives. This book is a potent and engaging read for anyone intrigued by Paley's storytelling and story acting curriculum as well as those practitioners and students with a vested interest in early years literacy and language learning. With contributions from Vivian Gussin Paley Patricia Patsy Cooper Dorothy Faulkner Natalia Kucirkova Gillian Dowley McNamee and Ageliki Nicolopoulou.
