of Religions in the 20th century in countries such as the Czech Republic Poland Slovakia Hungary Estonia Latvia Ukraine and Russia Special attention is devoted to the ideological influences determining the interpretation of religion especially connected with the rise of Marxist Leninist criticism of religion The Development of Hinduism M. M. Ninan,2008-06-23 This book is a study of development of Hinduism from the ashes of Vedic religion under various influences of local and foreign religions and philosophies Under the strangle of atheistic sciences of Buddhism and Jainism the reeling Vedics found new resources from the monotheistic religion of Christianity brought in by St Thomas along with other local religions cults hero worship and occult practices It deals extensively on the formation of Vaisnavism of today and the real philosophy and purport of Krishna cults Lectures on the Science of Language Friedrich Max Müller,1865 Lectures on the Science of Language Delivered at the Royal Institution of Great Britain ... 1861 [and 1863]. but though since that time Vedic scholarship has advanced with giant steps I still hold exactly the same opinion which I held then with regard to the principles that ought to be followed by the first translators of the Veda I hold that they ought to be decipherers and that they are bound to justify every word of their translation in exactly the same manner in which the decipherers of hieroglyphic or cuneiform inscriptions justify every step they take I therefore called my translation the first traduction raisonnée I took as an example which I tried to follow though well aware of my inability to reach its excellence the Commentaire sur le Yasna by my friend and teacher Eugène Burnouf Burnouf considered a commentary of 940 pages quarto as by no means excessive for a thorough interpretation of the first chapter of the Zoroastrian Veda and only those unacquainted with the real difficulties of the Rig veda would venture to say that its ancient words and thoughts required a less painstaking elucidation than those of the Avesta In spite of all that has been said and written to the contrary and with every wish to learn from those who think that the difficulties of a translation of Vedic hymns have been unduly exaggerated by me I cannot in the least modify what I said twenty or rather forty years ago that a mere translation of the Veda however accurate intelligible poetical and even beautiful is of absolutely no value for the advancement of Vedic scholarship unless it is followed by precise justificatives that is unless the translator gives his reasons why he has translated every word about which there can be any doubt in his own way and not in any other It is well known that Professor von Roth one of our most eminent Vedic scholars holds the very opposite opinion He declares that a metrical translation is the best commentary and that if he could ever think of a translation of the Rig veda he would throw the chief weight not on the notes but on the translation of the text A translation he writes must speak for itself As a rule it only requires a commentary where it is not directly convincing and where the translator does not feel secure Between opinions so diametrically opposed no compromise seems possible and yet I feel convinced that when we come to discuss any controverted passage Professor von Roth will have to adopt exactly the same principles of translation which I have followed
