The Book of British Topography. A Classified Catalogue of the Topographical Works in the Library of the British Museum Relating to Great Britain and Ireland John Parker Anderson, 2024-04-26 Reprint of the original first published in 1881

Topographic Memory and Victorian Travellers in the Dolomite Mountains William Bainbridge, 2025-10-01 Guided by the romantic compass of Turner Byron and Ruskin Victorian travellers to the Dolomites sketched in the mountainous backdrop of Venice a cultural Petit Tour of global significance As they zigzagged across a debatable land between Italy and Austria Victorians discovered a unique geography characterized by untrodden peaks and unfrequented valleys The discovery of this landscape blended aesthetic scientific and cultural values utterly different from those engendered by the bombastic conquests of the Western Alps achieved during the Golden Age of Mountaineering Filtered through memories of the Venetian Grand Tour the Victorian encounter with the Dolomites is revealed through a series of distinct cultural practices that paradigmatically define a Silver Age of Mountaineering This book shows how these practices are more ethnographic than imperialistic more feminine than masculine more artistic than sportive rather than racing to summits the Silver Age is about rambling rather than conquering peaks it is about sketching them in an intimate interaction with the Dolomite landscape

The Harms of Hate for Gypsies and Travellers Zoë James, 2020-09-24 Gypsies and Travellers have often been overlooked as victims of hate crime and discrimination This book redresses that exclusion by shining a light on the harms of hate experienced by Gypsies and Travellers in the UK In doing so James explores how hate permeates all aspects of their lives and identifies the hate crimes incidents and speech that they are subject to It goes on to explore how hate against Gypsies and Travellers occurs as discrimination social exclusion and criminalisation and how that hate is embedded within the language and practice of neoliberal capitalism This book provides new insights to critical criminology and ways of understanding hate by using the critical hate studies perspective to gain a full appreciation of the harms of hate As a consequence of this the book is able to do justice to Gypsies and Travellers experiences of hate by extrapolating how harms manifest and the impact they have on Gypsies and Travellers social and

personal identities The book explains and acknowledges how hate harms imbue Gypsies and Travellers daily lives including common events of serious abuse and assault regular ill treatment in provision of services and everyday micro aggressions It argues hate experienced by Gypsies and Travellers can only be fully recognised through an analysis of the neoliberal capitalist context within which it occurs and the harmful subjective experience it engenders The author s expertise in this area having carried out research with Gypsies and Travellers for 25 years underpins the book with excellent empirical knowledge and research informed discussion

The Book of British Topography John Parker Anderson,1881

The Rise of Little Big Norway John F. L. Ross,2019-11-30 The Rise of Little Big Norway explores the unlikely rise of Norway from peripherality to today s global steward with an enviable work life balance influential oil fund and Arctic front row seat Drawing on wide ranging source material John Ross s original approach combines astute observation thoughtful analysis and a flowing essay style leavened with the comparative insight that only a seasoned observer of the region can bring The book examines the settings histories and niche elements that lend Norway its distinctiveness and differentiate it from its Nordic neighbors It gives special attention to the northern and Arctic dimensions of Norwegian life and elaborates a connecting thematic thread the mobility that once took Vikings across the Atlantic in open boats and makes today s Norwegians the most traveled people on the planet The result is a carefully crafted general study of Norway a country long overlooked in favor of its Nordic neighbors but now a quiet force in its own right and a touchstone for twenty first century issues ranging from identity politics to the Arctic melt This book fills a major gap in the literature on Norway and the Nordic region

Victorian Women Travellers in Meiji Japan Lorraine Sterry,2009-01-29 This volume complements other published works about travel by nineteenth century women writers by locating and creating space for Japan which is missing within recent critical discourses on travel writing It examines the narratives of women writers who travelled to Japan from the mid 1850s onwards when Japan was first opened to the West and became a highly desirable travel destination for decades thereafter Many women travelled in this period and although most left no record of their journeys enough did to form a discrete body of literature spanning more than fifty years from the end of the feudal Tokugawa era to the rise of Meiji Japan as a world power Their narratives about Japan occupy a culturally significant place not only in the genre of Victorian female travel writing but in Victorian travel writing per se The writers who are the subject of this book are divided into two groups those who were travellers by intent namely Anna D A Alice Frere Annie Brassey Isabella Bird and Marie Stopes and those who travelled by default as the wives of diplomats namely Mrs Pemberton Hodgson Mrs Hugh Fraser and Baroness Albert d Anethan

Ancient Turkey Seton Lloyd,1999 An archaeologist who has spent much of his life in the Near East attempts to share his profound interest in an antique land its

inhabitants and the surviving monuments that link the present to the past Illustrations *A Traveller's Guide to Royal Roads* Charles Kightly, 1985 *Americans in a Splintering Europe* Mark Strecker, 2018-11-21 World War I began in August 1914 the United States did not enter the conflict until April 1917 During those nearly three years of neutrality a small number of Americans did experience the horrors of the war zones of Europe Some ran for their lives as refugees while others like journalists and doctors headed toward the fighting Missionaries in Persia Iran and the Ottoman Empire became witnesses to both the Armenian genocide and the persecution of Assyrian Christians This history focuses on the war from the perspective of ordinary people who found themselves in the midst of what was then the most destructive and bloody war in history

The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl, Emily Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement *Beyond the Traveller's Gaze* Giorgia Alù, 2008 This book offers a stimulating analysis of three non canonical texts in different genres written by British women who lived in Sicily in the second half of the nineteenth and the beginning of the twentieth centuries These texts cover a series of crucial political events as well as social and cultural changes which affected the history of Sicily during the period in question all seen through the direct and indirect experiences of the authors The book offers a historical perspective on the late Victorian and Edwardian representations of post Unification Italy At the same time the author challenges current critical literature on travel writing which tends to analyse travel texts without making substantial distinction between works written during a brief visit to a foreign country and those produced during a long term or permanent residence The book adopts an interdisciplinary comparative approach The three texts are studied by looking at patterns of connection in other written and visual works produced during or after an experience in Italy By drawing on theories of travel writing genre and gender along with visual and cultural studies the author aims to verify how the three texts respond to being analysed as a distinct group and hence define the specific roles and functions of expatriate women's writing *Archaeologists in Print* Amara Thornton, 2018-06-25 *Archaeologists in Print* is a history of popular publishing in archaeology in the nineteenth and twentieth centuries a pivotal period of expansion and development in both archaeology and publishing It examines how British archaeologists produced books and popular periodical articles for a non scholarly audience and explores the rise in archaeologists public visibility Notably it analyses women's experiences in archaeology alongside better known male contemporaries as shown in their books and archives In the background of this narrative is the history of Britain's imperial expansion and contraction and the evolution of modern tourism in the Eastern Mediterranean and Middle East Archaeologists exploited these factors to gain public and financial support and interest and

build and maintain a reading public for their work supported by the seasonal nature of excavation and tourism Reinforcing these publishing activities through personal appearances in the lecture hall exhibition space and site tour and in new media film radio and television archaeologists shaped public understanding of archaeology It was spadework scripted The image of the archaeologist as adventurous explorer of foreign lands part spy part foreigner eternally alluring solidified during this period That legacy continues undimmed today Praise for Archaeologists in Print This beautifully written book will be valued by all kinds of readers you don't need to be an archaeologist to enjoy the contents which take you through different publishing histories of archaeological texts and the authors who wrote them From the productive partnership of travel guide with archaeological interest to the women who feature so often in the history of archaeological publishing via closer analysis of the impact of John Murray Macmillan and Co and Penguin this volume excavates layers of fascinating facts that reveal much of the wider culture of the late nineteenth and twentieth centuries The prose is clear and the stories compulsive Thornton brings to life a cast of people whose passion for their profession lives again in these pages Warning the final chapter on Archaeological Fictions will fill your to be read list with stacks of new titles to investigate This is a highly readable accessible exploration into the dynamic relationships between academic authors publishers and readers It is in addition an exemplar of how academic research can attract a wide general readership as well as a more specialised one a stellar combination of rigorous scholarship with lucid pacy prose Highly recommended Samantha Rayner Director of UCL Centre for Publishing Deputy Head of Department and Director of Studies Department of Information Studies UCL
