Witnessing the Witness of War Crimes, Mass Murder, and Genocide Manuela Consonni, Philip Galland Nord, 2023-07-24 Rethinking the concepts of witnessing and witness is highly relevant to the study of war crimes mass murder and genocide Through multiple readings the volume shows the meanings and functions of witnessing in a political and historical context marked by the emergence of multiculturalism The ultimate goal is the exploration of divergent and intersectional positions of the witness and witnessing as both concrete and hermeneutical categories As a result the mechanisms of social political and psychological oppression murder and genocide will become tangible and understandable with greater precision and finesse

for Ground Zero **The Cambridge History of Twentieth-Century English Literature** Laura Marcus, Peter Nicholls, 2004 Publisher Description **Writing War in the Twentieth Century** Margot Norris, 2000 The twentieth century will be remembered for great innovation in two particular areas art and culture and technological advancement Much of its prodigious technical inventiveness however was pressed into service in the conduct of warfare Why asks Margot Norris did violence and suffering on such an immense scale fail to arouse artistic and cultural expressions powerful enough to prevent the recurrence of these horrors Why was art not more successful through its use of dramatic emotionally charged material its ability to stir imagination and arouse empathy and outrage in producing an alternative to the military logic that legitimates war Military argument in the twentieth century has been fortified by the authority of the rationalism that we attribute to science Norris argues Warfare is therefore legitimized by powerful discourses that art's own arsenal of styles and genres has limited power to counter Art's difficulty in representing the violent death of entire generations or populations has been particularly acute Choosing works that have become representative of their historically violent moment Norris explores not only their aesthetic strategies and perspectives but also the nature of the power they wield and the ethical engagements they enable or impede She begins by mapping the altered ethical terrain of modern technological warfare with its increasing targeting of civilian populations for destruction She then proceeds historically with chapters on the trench poetry and modernist poetry of World War I Hemingway's *A Farewell to Arms* and Erich Maria Remarque's *All Quiet on the Western Front* both the book and the film of Schindler's List the conflicting historical stories of the Manhattan Project a comparison of American and Japanese accounts of Hiroshima Francis Ford Coppola's film *Apocalypse Now* and the effects of press censorship in the Persian Gulf War By looking at the whole span of the century's writing on war Norris provides a fascinating critique of art's ethical power and limitations along with its participation in as well as protest against the suffering that human beings have brought upon themselves *Silence Was Salvation* Cathy A. Frierson, 2015-01-27 Roughly ten million children were victims of political repression in the Soviet Union during the Stalinist era the sons and daughters of peasants workers scientists physicians and political leaders considered by the regime to be dangerous to the political order Ten grown victims who as children suffered banishment starvation disease anti-Semitism and trauma resulting from their parents' condemnation and arrest now freely share their stories The result is a powerful and moving oral history that will profoundly deepen the reader's understanding of life in the U S S R under the despotic reign of Joseph Stalin **Forthcoming Books** Rose Arny, 2003 **The Cambridge History of British Theatre** Jane Milling, Peter Thomson, Baz Kershaw, Joseph Walter Donohue (Jr.), 2004-12-09 Publisher Description *The Memory of Pain* Camila Loew, 2011 In this book Camila Loew analyzes four women's testimonial literary writings on the Holocaust to examine and question some of the tenets of the fields of Holocaust studies gender studies and testimony Through a close reading of the works of Charlotte Delbo Margarete Buber Neumann Ruth Kluger and Marguerite Duras Loew foregrounds these authors' search for a written form to engage with their

experiences of the extreme Although each chapter contains its individual focus and features the book possesses a unity in intention concerns and consequences In the theoretical introduction that unites the four chapters Loew eschews essentialism and revises the emergence of the field of Women and Holocaust studies from the early 1980s on and signals some of its shortcomings In response and in accordance with a recent turn in various disciplines of the Humanities Loew highlights the ethical dimension of testimony and its responsible commitment to the other In dealing with the texts as literary testimonies a complex genre between literature and history testimony is freed from the obligation to respond to the requirements of factual truth and becomes a privileged form to voice the traumatic event and to symbolically explore the role of excess **War**

beyond Words Jay Winter, 2017-07-06 This book presents a panoramic history of transformations in our global imaginings of war from 1914 to the present It charts a century's meditations on war from painting and sculpture to photography film and poetry and ultimately to silence as a language of memory in its own right **The Church of England and the Holocaust**

Tom Lawson, 2006 Explores the Church of England's understanding of the Third Reich and its impact on the reactions to and memory of the Holocaust in Britain Argues that the Anglican Church did not engage with the Third Reich through the prism of the persecution of the Jews English Christians commonly perceived Nazism as significant through its anti Christianity as an attack on Christian culture and not through its antisemitism In the 1930s the Church was opposed to war but when Nazi antisemitism became much more pronounced after 1938 the Church incorporated this persecution into its image of Nazism as anti Christian While there was some concern for Jewish victims especially on the part of George Bell and William Temple particular concern was expressed for the German Christian victims of totalitarianism This led the Anglican Church after the war to favor reconstruction of West Germany as a buffer against communism and anti Christianity The Church objected to war crimes trials as being opposed to Christian forgiveness vs the Jewish value of vengeance a view which sought to reduce the significance of Nazi antisemitism and the Holocaust **Nazism, the Second World War and the Holocaust in**

Contemporary Latin American Fiction Emily M. Baker, 2022-06-23 Addressing the question of why many Latin American fiction authors are writing about Nazism the Second World War and the Holocaust now this book charts the evolution of Latin American literary production from the 19th Century through the late 20th century Boom to the present day Containing texts from Mexico Colombia Brazil Argentina and Chile it analyses work by some of the most well known contemporary writers including Roberto Bolaño Juan Gabriel Vásquez Jorge Volpi Lucía Puenzo Patricio Pron and Michel Laub as well as notable precursors such as Jorge Luis Borges Carlos Fuentes and Ricardo Piglia Nazism the Second World War and the Holocaust in Contemporary Latin American Fiction argues that these authors find Nazism relevant to thinking through some of the most urgent contemporary challenges we face from racism to the unequal division of wealth and labour between the Global North and South and of course the general failure of democracy to eliminate fascism **The British National Bibliography**
