The Mercantile Ethical Tradition in Edo Period Japan Ichiro Horide,2019-07-04 This book demonstrates that during Japan s early modern Edo period 1603 1868 an ethical code existed among the merchant class comparable to that of the well known Bushido There is compelling evidence that contemporary merchants who were widely and openly despised as immoral by the samurai in fact acted in highly ethical ways in accordance with a well articulated moral code Japanese society was strictly stratified into four distinct and formally recognized classes warrior farmer craftsman and merchant From the warriors perspective the merchants at the base of the social order had no virtue and existed only to skim profits as middlemen between producers and consumers But were these accusations correct Were the merchants really unethical beings who engaged in unfair business practices There is ample evidence that negates the ubiquitous slanders of the warrior class and suggests that merchants no less than the warriors possessed and acted in accordance with a well developed ethical code a spirit that may be called shonindo or The Way of the Merchant This book examines whether a comparison of shonindo depicting the ethical point of view of the merchant class and Bushido embodying that of the warrior class reveals that shonindo may have in fact surpassed Bushido in some aspects Comparing contemporarily published historical documents concerning both shonindo and Bushido as well as Inazo Nitobe s classic work Bushido The Soul of Japan published in 1900 the author examines how Bushido surpassed shonindo in that warriors were willing to die for their strict ethical code Shonindo however may have surpassed Bushido in that merchants were liberal willing to expand and extend application of their ethical beliefs into all aspects of everyday life for the overall benefit of society This ethical code is compared with that of the conservative Bushido which demonstrably proved not up to the task for the modernization and improved well being of Japan Ichiro Horide is professor emeritus of Reitaku University Edward Yagi Reitaku University and Stanley J Ziobro II Trident Technical College collaborated in the translation of the original Japanese manuscript into English *ABA Journal* ,1992-06 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians

Idema,2025-03-04 Parrots and mynahs have played a unique role in Chinese literature for two millennia These birds that can talk and interact intelligently with their owners were treasured as pets both in the palace and in private homes The caged birds were pitied for their homesickness but praised for their eagerness to serve Over time they developed into exemplars of Confucian values such as filial piety and loyalty and they also featured prominently in tales of love and war Closely associated with Buddhism from early on the parrot proved itself an effective preacher of the Dharma and became the favorite bird of the bodhisattva Guanyin In this wide ranging thematic study Wilt L Idema traces the development of the parrot and the mynah as characters in many forms of poetry and prose of Chinese elite literature as well as in the long narrative ballads of traditional popular literature The book provides complete renditions of Mi Heng s 173 198 Rhapsody on the Parrot the anonymous Tale of the Parrot s Filial Piety of the fifteenth century and the anonymous Precious Scroll of the Parrot of late imperial times An epilogue discusses the disappearance of the parrot in modern Chinese literature
