

An artistic illustration in a watercolor style. It depicts three figures walking away from the viewer on a light-colored, textured path that leads into a dark, misty background. The figures are rendered in dark, almost black, silhouettes. Each figure holds a large, open umbrella. The umbrellas have different colors: the one in the foreground is dark brown, the middle one is black, and the one in the background is a warm, orange-brown. The overall mood is quiet and contemplative, suggesting a journey in a rainy or misty environment.

hoku sells his castle to become an agrarian colonist in Hokkaido. Decades later a man also from northeast Japan stows away on a boat to Canada and establishes a salmon roe business. By 1930 an investigative journalist travels to Brazil and writes a book that wins the first ever Akutagawa Prize. In the 1940s residents from the same area proclaim that they should lead Imperial Japan in colonizing all of Asia. Across decades and oceans these fractured narratives seem disparate but show how mobility is central to the history of Japan's Tohoku region, a place often stereotyped as a site of rural stasis and traditional immobility, thereby collapsing boundaries between local, national and global studies of Japan. This book examines how multiple mobilities converge in Japan's supposed hinterland. Drawing on research from three continents, this monograph demonstrates that Tohoku's regional identity is inextricably intertwined with Pacific migrations.

*Tokugawa Society* Takeshi Moriyama, 2013-03-27 Suzuki Bokushi 1770 1842 was an elite villager in Echigo a snowy province of Japan Crossing Boundaries in Tokugawa Society presents a vivid picture of the life and world of this rural commoner focusing on his interaction with the changing social and cultural environment of the late Tokugawa period 1603 1868 Bokushi's life and texts challenge notions of the rigidity of social boundaries between the urban and the rural between social statuses and between cultural and intellectual communities However his activities were still restrained by the external environment because of geographical remoteness infrastructural limitations political restrictions cultural norms and the complexities of human relationships His life exemplifies both the potentiality and the restraint of his historical moment for a well placed member of the rural elite Biography and Turning Points in Europe and America Karla B. Hackstaff, Feiwei Kupferberg, Catherine Négroni, 2012 This sociological collection advances the argument that the concept of a turning point expands our understanding of life experiences from a descriptive to a deeper and more abstract level of analysis It addresses the conceptual issue of what distinguishes turning points from life transitions in general and raises crucial questions about the application of turning points as a biographical research method Biography and turning points in Europe and America is all the more distinctive and significant due to its broad empirical database The anthology includes authors from ten different countries providing a number of contexts for thinking about how turning points relate to constructions of meaning shaped by globalization and by cultural and structural meanings unique to each country The book will be useful across a wide range of social sciences and particularly valuable for researchers needing a stronger theoretical base for biographical work

literary art form Bash and the Dao examines the haikai poets adaptation of Daoist classics particularly the Zhuangzi in the seventeenth century and the eventual transformation of haikai from frivolous verse to high poetry The author analyzes haikai s encounter with the Zhuangzi through its intertextual relations with the works of Bash and other major haikai poets and also the nature and characteristics of haikai that sustained the Zhuangzi s relevance to haikai poetic construction She demonstrates how the haikai poets interest in this Daoist work was rooted in the intersection of deconstructing and reconstructing the classical Japanese poetic tradition Well versed in both Chinese and Japanese scholarship Qiu explores the significance of Daoist ideas in Bash s and others conceptions of haikai Her method involves an extensive hermeneutic reading of haikai texts an in depth analysis of the connection between Chinese and Japanese poetic terminology and a comparison of Daoist traits in both traditions The result is a penetrating study of key ideas that have been instrumental in defining and rediscovering the poetic essence of haikai verse Bash and the Dao adds to an increasingly vibrant area of academic inquiry the complex literary and cultural relations between Japan and China in the early modern era Researchers and students of East Asian literature philosophy and cultural criticism will find this book a valuable contribution to cross cultural literary studies and comparative aesthetics

*The Many Faces of Coincidence* Laurence Browne, 2017-11-10 Although much has been said and written about coincidences there is a marked absence when it comes to the development of a comprehensive model that incorporates the many different ways in which they can be understood and explained One reason for this omission is undoubtedly the sharp divide that exists between those who find coincidences meaningful and those who do not with the result that the conclusions of the many books and articles on the subject have tended to fall into distinct camps The Many Faces of Coincidence attempts to remedy this impasse by proposing an inclusive categorisation for coincidences of all shapes and sizes At the same time some of the implications arising from the various explanations are explored including the possibility of an underlying unity of mind and matter constituting the ground of being
