"You Are Not Expected to Understand This" Torie Bosch, 2022-11-15 Leading technologists historians and journalists reveal the stories behind the computer coding that touches all aspects of life for better or worse Few of us give much thought to computer code or how it comes to be The very word code makes it sound immutable or even inevitable You Are Not Expected to Understand This demonstrates that far from being preordained computer code is the result of very human decisions ones we all live with when we use social media take photos drive our cars and engage in a host of other activities Everything from law enforcement to space exploration relies on code written by people who at the time made choices and assumptions that would have long lasting profound implications for society Torie Bosch brings together many of today's leading technology experts to provide new perspectives on the code that shapes our lives Contributors discuss a host of topics such as how university databases were programmed long ago to accept only two genders what the person who programmed the very first pop up ad was thinking at the time the first computer worm the Bitcoin white paper and perhaps the most famous seven words in Unix history You are not expected to understand this This compelling book tells the human stories behind programming enabling those of us who don't think much about code to recognize its importance and those who work with it every day to better understand the long term effects of the decisions they make With an introduction by Ellen Ullman and contributions by Mahsa Alimardani Elena Botella Meredith Broussard David Cassel Arthur Daemmrich Charles Duan Quinn DuPont Claire L Evans Hany Farid James Grimmelman Katie Hafner Susan C Herring Syeda Gulshan Ferdous Jana Lowen Liu John MacCormick Brian McCullough Charlton McIlwain Lily Hay Newman Margaret O Mara Will Oremus Nick Partridge Benjamin Pope Joy Lisi Rankin Afsaneh Rigot Ellen R Stofan Lee Vinsel Josephine Wolff and Ethan Zuckerman

The Industrial Revolution - Lost in Antiquity - Found in the Renaissance Cort MacLean Johns Ph.D. - HSG, 2021-03-15 Historians of

Technology have failed to include the larger contribution and influence of Ctesibius compressor driven Hydraulis with its pneumatic pumps keyboard and organ pipes in the path of critical preparatory events leading up to the Latent Industrial Revolution One should also realize that Ctesibius had all the parts and sub assemblies on hand to invent the first Steam Hydraulis or Calliope as illustrated on the front book cover of this work From the Fertile Crescent of the Persian Empire to the Hellenistic Library of Alexandria Vitruvius writing brought the Hydraulis to the Abbey of St Gall in 1414 during the Renaissance Its path then took it through Italy Germany and the Paris of Louis XIV along the Arch of Industrial Reawakening This was the Hydraulis 2 millennium path from Antiquity to its return reigniting the Latent Industrial Revolution The Industrial Dynamics of the New Digital Economy Jens Frøslev Christensen, Peter Maskell, 2003-01-01 this is a stimulating collection that advances thinking on the post bust digital economy in a measured and scholarly approach The book should be read by those interested in ICT industry dynamics and how a remarkable historical snapshot is starting to be understood Jonathan Sapsed Technovation I commend this book in the spirit of Keith Pavitt to all those who wish to understand to appreciate and to criticize the New Economy which now engulfs all our lives From the foreword by Christopher Freeman Science and Technology Policy Research SPRU University of Sussex UK and Maastricht University The Netherlands This book investigates the implications of digital technologies on the industrial and business dynamics of modern economies In depth studies analyse how deep rooted work practices of the Old Economy have been dramatically challenged when confronted with the entrepreneurial wave of the New Economy *The Viking Road to Byzantium* H.R. Ellis Davidson, 2023-08-10 The Viking Road to Byzantium 1976 is a major study of the Vikings who travelled east based on the evidence of written sources and archaeology Clues to the movements of the eastern Vikings may be found not only in Icelandic skaldic verse and runic inscriptions on memorial stones but in such unexpected places as a Romanian chalk quarry near the Black Sea among the carved stones of ancient Thrace and in Constantinople itself the Miklagard of northern literature **Networks of Power** Thomas Parke Hughes, 1993-03 Awarded the Dexter Prize by the Society for the History of Technology this book offers a comparative history of the evolution of modern electric power systems It described large scale technological change and demonstrates that technology cannot be understood unless placed in a cultural context **The Typographic Medium** Kate Brideau, 2021-10-12 An innovative examination of typography as a medium of communication rather than part of print or digital media Typography is everywhere and yet widely unnoticed When we read type we fail to see type In this book Kate Brideau considers typography not as part of print media or digital media but as a medium of communication itself able to transcend the life and death of particular technologies Examining the contradiction between typographic form often overlooked and function often overpowering Brideau argues that typography is made up not of letters but of shapes and that shape is existentially and technologically central to the typographic medium After considering what constitutes typographic form Brideau turns to typographic function and how it relates to form Examining typography s role in

both the neurological and psychological aspects of reading she argues that typography's functions exceed reading typographic forms communicate but that communication is not limited to the content they carry To understand to what extent the design and operations of the typographic medium affect the way we perceive information Brideau warns we must understand the medium's own operational logic embodied in the full diversity of typographic forms Brideau discusses a range of topics from intellectual property protection for typefaces to Renaissance and Enlightenment ideal letterforms and draws on a wide variety of theoretical work including phenomenological ideas about comprehension German media archaeology and the media and communication theories of Vilém Flusser and others Hand drawn illustrations of typographic forms accompany the text

Medieval Theatre Performance Philip Butterworth, Katie Normington, 2017 The nature conditions and place of medieval theatre performance remain somewhat mysterious with scholarship in the field tending to be devoted to its context and to the texts themselves The essays in this volume seek to address this omission They consider such matters as the nature of performance in theatre dance puppetry automata the performed qualities of such events the conventions of performed work what took place in the act of performing and the relationships between performers and witnesses and what conditioned these relationships

Québec Studies in the Philosophy of Science Mathieu Marion, Robert S. Cohen, 2012-12-06 By North American standards philosophy is not new in Quebec the first mention of philosophy lectures given by a Jesuit in the College de Quebec founded 1635 dates from 1665 and the oldest logic manuscript dates from 1679 In English speaking universities such as McGill founded 1829 philosophy began to be taught later during the second half of the 19th century The major influence on English speaking philosophers was at least initially that of Scottish Empiricism On the other hand the strong influence of the Catholic Church on French Canadian society meant that the staff of the faculties of the French speaking universities consisted until recently almost entirely of Thomist philosophers There was accordingly little or no work in modern Formal Logic and Philosophy of Science and precious few contacts between the philosophical communities In the late forties Hugues Leblanc was a young student wanting to learn Formal Logic He could not find anyone in Quebec to teach him and he went to study at Harvard University under the supervision of W V Quine His best friend Maurice L Abbe had left a year earlier for Princeton to study with Alonzo Church After receiving his Ph D from Harvard in 1948 Leblanc started his professional career at Bryn Mawr College where he stayed until 1967 He then went to Temple University where he taught until his retirement in 1992 serving as Chair of the Department of Philosophy from 1973 until 1979
