**Early History of Singing** William James Henderson, 1921 Vocal Authority John Potter, 2006-11-02 Why do singers sing in the way they do Why for example is western classical singing so different from pop singing How is it that Freddie Mercury and Montserrat Caballé could sing together These are the kinds of questions which John Potter a singer with the Hilliard Ensemble and Red Byrd and himself the master of many styles poses in this fascinating book which is effectively a history of singing style He finds the reasons to be primarily ideological rather than specifically musical His book identifies particular historical moments of change in singing technique and style and relates these to a three stage theory of style based on the relationship of singing to text There is a substantial section on meaning in singing and a discussion of how the transmission of meaning is enabled or inhibited by different varieties of style or technique
