

A Just and Lasting Peace After War

Lonneke Peperkamp*

I. Introduction

Wars are waged for the sake of peace. It is generally assumed that war has a teleological character; it not valued in itself but seen as an instrument to achieve a certain end.¹ This instrumental conception of war is not only firmly entrenched in history, but is also one of the pillars of just war theory. Just war theory is premised upon the idea that war, given the scale of overall destruction and death it causes, is a great evil. In an ideal world, there would never be war. However, just war theory is pre-eminently a non-ideal theory which recognizes that in the real world, war might be necessary and justified in exceptional circumstances. And although some essential moral principles are set aside in times of war, morality *does* apply. This way, just war theory occupies the middle ground between political realism and moral idealism, and is a balance between the desiderata of feasibility and desirability. It sets a moral standard for war, in order to limit its negative consequences as much as possible. More specifically, *jus ad bellum* restricts the number of wars; *jus in bello* restricts the sort and scale of the violence, and *jus post bellum* is the relatively new branch that regulates the transition from war back to peace. The axiomatic goal of just war theory is a 'just and lasting peace'.

Strangely enough, however, it is far from clear what a 'just and lasting peace' actually is. Peace is a complex and multifaceted concept, which cannot be defined in a straightforward way.² Even so, just war theorists rarely explore the goal of peace and its implications.³ Consequently, as Mark Evans points out, they might readily 'disagree once they begin to spell the specifics of what they understand by it'.⁴ This is a fundamental problem: peace is central to just war theory, but is not explored in depth and remains therefore implicit

¹ Exceptions who justify war for values such as honour, courage, and chivalry set aside.

² And contrary to the issue of war, relatively little conceptual thinking has gone into the issue of peace: Pierre Alan and Alexis Keller (eds), *What is a Just Peace* (Oxford University Press 2008) 1. Richmond states: 'Peace is rarely conceptualized, even by those who often allude to it'; Oliver Richmond, *The Transformation of Peace* (Palgrave MacMillan 2007) 2. Charles Weber and Johan Galtung similarly argue that 'a philosophy of peace is still in its infancy', Nigel Dowse that 'the ethics of peace takes second place', and Alex Bellamy 'we lack a shared understanding of peace'. Charles Weber and Johan Galtung (eds), *Handbook of Peace and Conflict Studies* (Routledge 2007). Nigel Dowse, *The Ethics of War and Peace: Cosmopolitan and Other Perspectives* (Polity Press 2009) 3. Alex Bellamy, *World Peace and How We can Achieve It* (Oxford University Press 2019) 13. Securing the Peace Monica Duffy Toft,2009-10-26 Timely and pathbreaking *Securing the Peace* is the first book to explore the complete spectrum of civil war terminations including negotiated settlements military victories by governments and rebels and stalemates and ceasefires Examining the outcomes of all civil war terminations since 1940 Monica Toft develops a general theory of postwar stability showing how third party guarantees may not be the best option She demonstrates that thorough security sector reform plays a critical role in establishing peace over the long term Much of the thinking in this area has centered on third parties presiding over the maintenance of negotiated settlements but the problem with this focus is that fewer than a quarter of recent civil wars have ended this way Furthermore these settlements have been precarious often resulting in a recurrence of war Toft finds that military victory especially victory by rebels lends itself to a more durable peace She argues for the importance of the security sector the police and military and explains that victories are more stable when governments can maintain order Toft presents statistical evaluations and in depth case studies that include El Salvador Sudan and Uganda to reveal that where the security sector remains robust stability and democracy are likely to follow An original and thoughtful reassessment of civil war terminations *Securing the Peace* will interest all those concerned about resolving our world s most pressing conflicts

Crafting Peace Caroline A. Hartzell,Matthew Hoddie,2015-10-29 The recent efforts to reach a settlement of the enduring and tragic conflict in Darfur demonstrate how important it is to understand what factors contribute most to the success of such efforts In this book Caroline Hartzell and Matthew Hoddie review data from all negotiated civil war settlements between 1945 and 1999 in order to identify these factors What they find is that settlements are more likely to produce an enduring peace if they involve construction of a diversity of power sharing and power dividing arrangements between former adversaries The strongest negotiated settlements prove to be those in which former rivals agree to share or divide state power across its economic military political and territorial dimensions This finding is a significant addition to the existing literature which tends to focus more on the role that third parties play in mediating and enforcing agreements Beyond the quantitative analyses the authors include a chapter comparing contrasting cases of successful and unsuccessful settlements in the Philippines and Angola respectively
