The Child Who Hates Her Father and the Mother Who Caused It! Cleland James, 2016-12-14 The law only perceives 7 states in the United States that Parental Alienation Syndrome is still an issue which leaves the other 43 states with no law on the books to battle this terrible issue There is nothing on planet Earth that is more damaging to a parent than losing a child whom they have a favorable opinion of because of an attachment based coalition with a child and the alienating parent which drives later to Adult Child Estrangement from family Due to the control of the court framework and clear mishandling of process with these issues these painstakingly executed cases have permitted the many alienating parents legitimized kidnapping of the children Cleland composed this book to impart to the greater part of the parents who have confronted Parental Alienation Syndrome and Adult Child Estrangement to inform you that you are not alone that there are others out there who have confronted similar difficulties and yet others who are now going through Parental Alienation for the first time Where are the government policies regarding children to manage these issues Where are the privileges of the estranged parent Where are the equal rights of the Alienated Parent Regulations need to change and legislators need to understand this major issue still exists and is not simply going to leave There are just 7 states that perceive this issue and are taking

action on the issue so shouldn't something be said about the rest. Do the lawmakers believe that Parental Alienation is simply going to settle itself? Why then are there parents out there in today's society as yet battling the issue with Parental Alienation Syndrome and Estrangement and creating long-term harm to the children?
