A L'ecole De La Phenomenologie:

A l'école de la phénoménologie Paul Ricœur, 2004 Le lecteur trouvera ici rassembles quelques textes qui appartiennent aux années d'apprentissage de leur auteur La plupart sont consacrés exclusivement à celui qui fut un de ses plus nombreux éducateurs à la pensée Edmund Husserl Ils justifient pleinement le titre donné à la collection d'articles A l'école de la phénoménologie étant entendu que le titre de phénoménologie s'identifie ici au nom de son second fondateur après Hegel Si l'introduction aux Idées directrices tome I ainsi que le commentaire accompagnant la traduction de 1950 ne figurent pas dans ce recueil les Idées directrices tome II et surtout les Méditations Cartésiennes sans oublier la Krisis sont largement commentées On a joint deux ou trois essais dans lesquels l'auteur se livre à quelques exercices de caractère plus personnel Mais ils ont tous été composés à l'école de la phénoménologie husserlienne **Heidegger et la phénoménologie**

Jean-François Courtine, 1990 Les quinze essais qui composent ce volume distribués en trois sections Phénoménologie et histoire de l'être Husserl et Heidegger l'être et l'autre s'attachent tous directement ou par quelque biais à l'étude du débat que Heidegger engage dès la première élaboration d'Etre et Temps dans les années de Marbourg avec la phénoménologie transcendante de Husserl Ce débat continu avec Husserl sert ici de fil conducteur privilégié à la fois pour tenter d'éclairer les lois les enjeux mais aussi sans doute les impasses de l'herméneutique heideggerienne de la grande tradition classique expliciter le sens du retour à l'instauration platonico-aristotélicienne de la métaphysique et situer thématiquement quelques-unes des analyses les plus discutées l'intersubjectivité la voix l'appel le dialogue La phénoménologie en questions

Françoise Dastur, 2004 On sait que depuis la parution des Recherches logiques de Husserl le terme de phénoménologie ne désigne plus comme c'était encore le cas chez Hegel une discipline particulière mais une nouvelle conception de ce que doit être la philosophie Ce qui a en effet donné à l'entreprise husserlienne sa fécondité c'est l'idée reprise aux anciens que le travail philosophique doit être mené en commun et exige par conséquent le concours de plusieurs penseurs Mais ce qui rassemble ceux-ci c'est moins l'unité d'une doctrine et l'appartenance à une école de pensée que la pratique d'une méthode De ce mouvement phénoménologique auquel appartiennent tant de philosophes du siècle dernier il n'est certes pas question de dresser un inventaire exhaustif Ce que l'on se propose simplement ici c'est d'en donner un aperçu qui mette d'ailleurs moins l'accent sur les noms propres des penseurs que sur les problèmes qu'ils ont partagés Les essais réunis dans ce volume sont en effet tous consacrés à un petit nombre de questions fondamentales celles du langage et de la logique du moi et de l'autre de la temporalité et de l'histoire de la finitude et de la mortalité au sujet desquelles un dialogue a paru se nouer entre certaines des figures les plus éminentes de la nébuleuse phénoménologique Husserl et Heidegger surtout mais aussi Fink Patocka Merleau-Ponty et plus près encore de nous Gadamer Levinas Ricœur *Husserl's Legacy in Phenomenological Philosophies*

Anna-Teresa Tymieniecka, 2012-12-06 **The Oxford Handbook of Modern French Philosophy**, 2024-06-25

French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a

comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century **De la**

phénoménologie à la psychanalyse Marc-André Bouchard,1990 Phenomenology of Life and the Human Creative Condition Anna-Teresa Tymieniecka,2013-04-17 Self individualization has been interpreted as the process in which the all embracing Self unfolds into an infinite variety of different individuals plants animals and men A comparison of the different ways in which the Self manifests itself in the biological and psychological developmental processes or in a visionary image of the undivided Self reveals the same basic structure of expression The Self the one is represented by a circular domain and comprises a basic inner duality the two creating a paradox of conflicting opposites In the undivided Self the two give rise to a trinity in which however a quaternity is hidden The latter expresses itself in this world as the four basic forces the four Elements or the four main archetypes specifying the possibilities or development in space and time Self individualization starts with the first appearance of a primary structure of an individual sub Self This is the fifth basic force the fifth Element Further development is characterized by four generative principles 1st the principle of wholeness connection and integration being oriented to remaining whole or restoring wholeness 2nd the principle of complementarity and compensation a periodic shift between opposing influences 3rd the structuring principle causing the relative stability of the spatial appearance of the manifest structure and 4th the principle of gesture resulting in a gradual stepwise development of that structure into a full grown individual **Esquisse de la phénoménologie constitutive** Aron Gurwitsch,2002 Aron Gurwitsch 1901 1973 est surtout connu du public francophone par son ouvrage de 1957 *Théorie du champ de la conscience* C est la période parisienne de l'automne 1933 au printemps 1940 de Gurwitsch que le présent volume documente très précisément il présente d'abord pour la première fois les résultats substantiels d'un ouvrage en gestation qui n'aura pas vu le jour du vivant de l'auteur et qui rassemble sous le titre *Esquisse de la phénoménologie constitutive* les matériaux des cours et conférences sur la Gestaltpsychologie la psychologie intentionaliste la phénoménologie de l'idéation l'introduction à la phénoménologie Le présent volume rassemble aussi à titre d'Appendice quelques uns des articles publiés par Aron Gurwitsch lors de cette

période parisienne L'ensemble de ces travaux constitue un témoignage inédit sur une des toutes premières introductions à la phénoménologie husserlienne dans son véritable contexte de problème *Aux origines de la phénoménologie* Denis Fiset, Sandra Lapointe, 2003 **La Phénoménologie de Marbourg ou la résurgence métaphysique chez Heidegger à l'époque de Sein und Zeit** Robert Brisart, 1991 Qu'est-ce que la phénoménologie pour Heidegger Quel concept en a-t-il On le sait l'époque où enseignant Marbourg il labore le projet qui débouchera sur la publication de Sein und Zeit ce concept se prouve d'une lutte sans merci contre le privilège métaphysique de la présence Libérer l'ontologie du carcan où la retient captive une tradition fort ancienne qui jamais ne s'est départie du préjugé selon lequel elle veut dire elle présente tel est en peu de mots le leitmotiv qui termine tout le trac de la phénoménologie de Marbourg dans son souci de faire enfin droit au phénomène de l'être Ce trac lui-même que voici se propose d'en parcourir les tapes essentielles jusqu'au terme que Heidegger lui-même définit clairement non métaphysique le temps Mais ce travail se double d'une autre préoccupation Car en analysant de plus près les articulations fondamentales dont procède ainsi la mise en évidence du temps comme horizon de compréhension de la négativité et de l'absence ontologiques toute la question reste de savoir si l'abrogation heideggerienne de la présence ne concourt pas raviver une tendance consistant à provoquer entre l'être et la présence une déchirure telle que le sens paraît désormais irrécupérable au monde naturel et familier On le devine tout au long de cet examen critique planent l'ombre de Husserl en même temps qu'une question existe-t-il au juste une phénoménologie de Marbourg **Le Moment marxiste de la phénoménologie française** Alexandre Feron, 2021-11-25 Entre la fin de la Seconde Guerre mondiale et le début des années 1960 certaines des figures majeures du courant phénoménologique en France Jean Paul Sartre Maurice Merleau-Ponty et Tran Duc Thao considèrent que le projet d'articuler marxisme et phénoménologie constitue l'un des principaux enjeux de la philosophie dans le monde contemporain L'objet de cet ouvrage est de comprendre la spécificité du travail philosophique effectué par chacun de ces penseurs sur ces deux courants de pensée apparemment incompatibles afin de rendre possible leur synthèse L'auteur retrace la manière dont le projet initial de 1944 a été progressivement mis en question et reconfiguré au contact des mutations politiques et historiques des débats philosophiques et du développement des sciences humaines Ce volume qui s'adresse aux étudiants et chercheurs met ainsi en lumière les enjeux et les innovations conceptuelles de ce qui reste l'un des moments les plus féconds et originaux de la philosophie française contemporaine This text covers the period between the end of the Second World War and the beginning of the 1960s when the phenomenological school in France was represented by Jean Paul Sartre Maurice Merleau-Ponty and Tran Duc Thao who endeavored to combine Marxism with phenomenology as the major task of philosophy in the modern world The object of this text is to understand the specificity of the philosophical work each performed on these two apparently incompatible schools of thought in order to make their synthesis possible The author traces the way in which the initial project of 1944 was progressively questioned and reworked in the wake of political and historical change philosophical debates and the development of human sciences This volume appeals to students and researchers while

Le donné en question dans la phénoménologie et le néokantisme Virginie Palette, 2018-04-26 Cet ouvrage explore les critiques du donné dans le néokantisme et la phénoménologie allemands Il revient le la portée considérable de ces critiques qui impliquent en même temps une controverse avec le positivisme de la fin du XIX^e siècle et un dialogue substantiel avec l'Esthétique transcendantale de Kant En posant les questions de la sensation et de la perception la présente monographie permet de mieux saisir un accès privilégié aux enjeux fondamentaux de la philosophie austro-allemande au tournant du XX^e siècle Lorsqu'il est question du donné ou des critiques du donné dans le discours philosophique contemporain et cela arrive souvent dans les débats sur la perception en philosophie de l'esprit c'est toujours la controverse analytique autour du mythe du donné que l'on fait référence controverse qui a vu le jour en 1956 lorsque le philosophe américain Wilfrid Sellars publie Empirisme et philosophie de l'esprit Or il est intéressant d'observer que la critique sellarsienne du mythe du donné a tout d'abord figuré en un sens partiel mais important par les objections que les néokantiens et les phénoménologues ont adressées la notion de donné au tournant du XX^e siècle La présente monographie comble cette lacune bâtarde de l'historiographie classique qui a jusqu'ici accordé peu d'attention la constance de cette critique dans toutes les philosophies marquées par l'héritage de Kant
