A State Of Blood The Inside Story Of Idi Amin:

A State of Blood Henry Kyemba,1977 **State of Blood** Henry Kyemba,1977 *A State of Blood* Henry Kyemba,1977

Idi Amin Mark Leopold,2020-11-10 The first serious full length biography of modern Africa s most famous dictator Idi Amin began his career in the British army in colonial Uganda and worked his way up the ranks before seizing power in a British backed coup in 1971 He built a violent and unstable dictatorship ruthlessly eliminating perceived enemies and expelling Uganda s Asian population as the country plunged into social and economic chaos In this powerful and provocative new account Mark Leopold places Amin s military background and close relationship with the British state at the heart of the story He traces the interwoven development of Amin s career and his popular image as an almost supernaturally evil monster demonstrating the impossibility of fully distinguishing the truth from the many myths surrounding the dictator Using an innovative biographical approach Leopold reveals how Amin was from birth deeply rooted in the history of British colonial rule how his rise was a legacy of imperialism and how his monstrous image was created **Encyclopedia of Conflicts**

Since World War II James Ciment,2015-03-27 Thoroughly revised to include 25 conflicts not covered in the previous edition as well as expanded and updated information on previous coverage this illustrated reference presents descriptions and analyses of more than 170 significant post World War II conflicts around the globe Organized by region for ease of access Encyclopedia of Conflicts Since World War II Second Edition provides clear in depth explanations of events not covered in such detail in any other reference source Including more than 180 detailed maps and 150 photos the set highlights the conflicts that dominate today s headlines and the events that changed the course of late twentieth century history **Ethnic**

Groups in Conflict, Updated Edition With a New Preface Donald L. Horowitz,2001-04-09 Drawing material from dozens of divided societies Donald L Horowitz constructs his theory of ethnic conflict relating ethnic affiliations to kinship and intergroup relations to the fear of domination A groundbreaking work when it was published in 1985 the book remains an original and powerfully argued comparative analysis of one of the most important forces in the contemporary world **East**

African Doctors John Iliffe,1998-08-27 John Iliffe s 1998 book is a history of the African medical profession in Uganda Kenya and Tanzania from the earliest training of modern medical staff in the 1870s to the present day Based on extensive research and dealing exclusively with African doctors it offers an understanding of professionalisation in the Third World It describes the recruitment and education of doctors their understanding and practice of modern medicine the struggle for international recognition of their qualifications and efforts to develop East African medical systems after independence and their experiences during a period of political and economic difficulty The book ends with an account of the significant work of East African doctors in the study and control of AIDS This is a major contribution to the social history of Africa and to the social history of medicine more broadly *A Future for Africa* Emmanuel M. Katongole,2017-05-09 Civil war famine genocide AIDS the peoples of Africa have endured horrific human tragedies Those crises plus widespread economic political and social

instability have combined to produce what some consider a dire and nearly hopeless situation Even as this book was going to press the leaders of the G 8 nations were meeting to talk about what could be done to aid Africa in these critical times A careful look at history would indicate that the answer must come from within Africa and from the African people themselves not from other nations or the economic programs and solutions they propose The rapid rise of a Christian social ethics movement as an alternative perspective focused precisely on addressing Africa s challenges using the spiritual resources of its own people is providing a hopeful solution and a timely and powerful coping mechanism for African peoples One of the leaders of this movement is Emmanuel Katongole a Catholic priest from Uganda In *A Future for Africa* Katongole wrestles with concrete problems like the AIDS epidemic and widespread military conflicts as well as fundamental systemic ones like poverty corruption and tribalism He then offers faith filled solutions based on the power and example of Christian community and Christian moral imagination Katongole s radical message is that a political ethic based on Christian principles as taught in the Scriptures is the necessary foundation for healing reconciliation and rebuilding the continent

The Gospel Sounds Like the Witch's Spell Kiyoshi Umeza, 2022-02-10 *The Gospel Sounds Like the Witch's Spell* is a highly detailed ethnography about how the Jopadhola in eastern Uganda talk about interpret and cope with death illness and other misfortunes The book presents a provocative discussion that critiques the idea of the revival of witchcraft in the neo liberalised contemporary world as represented by the modernity model of witchcraft and attempts to formulate a spiderweb model that connects witchcraft to contemporary society in a more complex manner The book is a unique ethnography of the collective memory of indigenous knowledge and local historicity The author moves the reader from curse to misfortune to fortune as he plots the notion of curse as deeply embedded in the Adhola way of life He weaves between culture religion state and modernity with lived experience Did the concept of witchcraft unwittingly endear the Adhola to the Christian way of life because of the presence of the notion of curse in the Bible or make them less susceptible to the vagaries of modernity compared to their neighbours These are some of the questions that the author puts on the table in a deeply reflective manner The phenomenon of witchcraft is given an intriguing angle that invites the reader to reexamine earlier anthropological writings on the subject among African peoples

Crisis of Legitimacy and Political Violence in Uganda, 1890 to 1979 Ogenga Otunnu, 2016-12-26 This book demonstrates that societies experiencing prolonged and severe crises of legitimacy are prone to intense and persistent political violence The most significant factor accounting for the persistence of intense political violence in Uganda is the severe crisis of legitimacy of the state its institutions political incumbents and their challengers This crisis of legitimacy which is shaped by both internal and external forces past and present accounts for the remarkable continuity in the history of political violence since the construction of the state

King of the Mountain Arnold M. Ludwig, 2002-01-01 People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired socially purposeful or even self serving all of which they attribute to being human but they masticate fornicate and

procreate much as chimps and apes do so they should have little cause to get upset if they learn that they act like other primates when they politically agitate debate abdicate placate and administrate too from the book King of the Mountain presents the startling findings of Arnold M Ludwig s eighteen year investigation into why people want to rule The answer may seem obvious power privilege and perks but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable trust nobody feel besieged and face almost certain death Ludwig s results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power govern and rule Profiling every ruler of a recognized country in the twentieth century over 1 900 people in all Ludwig establishes how rulers came to power how they lost power the dangers they faced and the odds of their being assassinated committing suicide or dying a natural death Then concentrating on a smaller sub set of 377 rulers for whom more extensive personal information was available he compares six different kinds of leaders examining their characteristics their childhoods and their mental stability or instability to identify the main predictors of later political success Ludwig s penetrating observations though presented in a lighthearted and entertaining way offer important insight into why humans have engaged in war throughout recorded history as well as suggesting how they might live together in peace **Snapshots of Great Leadership** Jon P. Howell,2013

This is a great book describing leaders both good and bad who either have accomplished amazing feats or who brought destruction or death to scores of people Although the goals of these individuals were often quite different the leadership processes they used were frequently similar The book also includes an introductory chapter explaining the latest theories of leadership Each snapshot will add an important reality check to the theories and models described in most introductory leadership textbooks making this an important supplement for students taking leadership courses Leaders from various disciplines historical religious political sports and business are included as well as leaders from around the world Each chapter ends with a discussion of theories of leadership pertaining to that leader and questions for discussion *Uganda: A Modern History* Jan Jelmert Jørgensen,2023-10-09 Uganda A Modern History 1981 provides a comprehensive political social and economic history of Uganda from the beginnings of colonial rule in 1888 It focuses particularly on the development of the Ugandan economy and demonstrates how the economy became structurally dependent on world capitalism during the colonial period and how this has affected its subsequent development The book also deals with the political and social tendencies which shaped Ugandan society in both the colonial and postcolonial period The first four chapters examine the initial colonial occupation and the colonial state s role in the rural nexus of chiefs peasants and migrant workers They also look at the colonial state and the context of the wider national regional and international economy and analyse the African nationalist response and the formation of political parties to take control of the postcolonial state The second part of the book considers the political alliances and economic strategies of the Obote regime and the events of Amin s military regime The epilogue looks at events since the fall of the Amin regime and suggests ways in which Uganda may be able to tackle its

underlying economic problems Restructuring the African State and Quest for Regional Integration Godfrey Mwakikagile, 2014-07-21 The author looks at different approaches towards regional and continental unity and the need to restructure the African state He contends that reconfiguration of the African state is necessary after the institutions inherited at independence especially centralisation of power have failed to serve the people He calls for decentralisation of power in order to enable the people different groups to set their own agenda for sustainable development Power should be in the hands of the people at the grassroots level using local institutions to formulate development plans control and allocate resources in their own areas Reconfiguration of the African state will also help to accommodate different ethnic groups on equal basis and enable marginalised groups especially smaller and weaker groups to fully participate in the political process and get a fair share of the nation s resources without being dominated and exploited by others especially dominant groups Restructuring the state will also enable all groups to play an equal role in achieving unity stability and development The work is also an examination of the transition African countries have gone through since independence and the problems they have faced and continue to face in terms of nation building and trying to achieve and maintain peace and stability without which prosperity is impossible It is a call for rebuilding Africa through a combination of innovative approaches Decolonising State and Society in Uganda Katherine Bruce-Lockhart, Jonathon L. Earle, Nakanyike Musisi, Edgar C. Taylor, 2022 Key book on the debates surrounding the knowledge economy and decolonization of African Studies that brings the subject up to date for the 21st century Decolonization of knowledge has become a major issue in African Studies in recent years brought to the fore by social movements such as RhodesMustFall and BlackLivesMatter This timely book explores the politics and disputed character of knowledge production in colonial and postcolonial Uganda where efforts to generate forms of knowledge and solidarity that transcend colonial epistemologies draw on long histories of resistance and refusal Bringing together scholars from Africa Europe and North America the contributors in this volume analyse how knowledge has been created mobilized and contested across a wide range of Ugandan contexts In so doing they reveal how Ugandans have built disputed and reimagined institutions of authority and knowledge production in ways that disrupt the colonial frames that continue to shape scholarly analyses and state structures From the politics of language and gender in Bakiga naming practices to ways of knowing among the Acholi the hampering of critical scholarship by militarism and authoritarianism and debates over the names of streets lakes mountains and other public spaces this book shows how scholars and a wide range of Ugandan activists are reimagining the politics of knowledge in Ugandan public life *The Deadly Ethnic Riot* Donald L. Horowitz, 2023-11-15 Donald L Horowitz s comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethnic group on civilian members of another ethnic group Serious frequent and destabilizing these events result in large numbers of casualties Horowitz examines approximately 150 such riots in about fifty countries mainly

in Asia Africa and the former Soviet Union as well as fifty control cases With its deep and thorough scholarship incisive analysis and profound insights The Deadly Ethnic Riot will become the definitive work on its subject Furious and sadistic the riot is nevertheless directed against a precisely specified class of targets and conducted with considerable circumspection Horowitz scrutinizes target choices participants and organization the timing and supporting conditions for the violence the nature of the events that precede the riot the prevalence of atrocities during the violence the location and diffusion of riots and the aims and effects of riot behavior He finds that the deadly ethnic riot is a highly patterned but emotional event that tends to occur during times of political uncertainty He also discusses the crucial role of rumor in triggering riots the surprisingly limited role of deliberate organization and the striking lack of remorse exhibited by participants Horowitz writes clearly and eloquently without compromising the complexity of his subject With impressive analytical skill he takes up the important challenge of explaining phenomena that are at once passionate and calculative Donald L Horowitz s

Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era James Ciment, 2015-03-10 First Published in 2015 This collection holds three volumes Terrorism is a term that defies easy definition and its meaning has also changed over the course of history Because this encyclopedia aims at comprehensiveness across time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat of violence to effect political change through fear in which the victims of the violence The encyclopedia is divided into six parts **Social**

Origins of Violence in Uganda, 1964-1985 A. Kasozi, 1994-12-21 Using a convincing causal model of violence Kasozi attributes the major causes of violence in Uganda to social inequality the failure to develop legitimate conflict resolution mechanisms and factors that have influenced the domain and patterns of conflict in that society such as lack of a common language religious sectarianism vigilante justice and gender inequality He concludes the study by drawing comparisons with neighbouring countries and offering some prescriptions for alleviating the violence Kasozi was assisted by Nakanyike Musisi and James Mukooza Sejjengo who participated in the research on this book The Social Origins of Violence in Uganda is one of the most thorough and comprehensive analyses of the causes levels and incidence of more than two decades of violence in Uganda **Acholi Intellectuals** Patrick William Otim, 2024-02-13 Acholi Intellectuals draws on the writings of homespun

historians interviews with elderly men and women who remember the last days of colonial rule and government and missionary archives to illuminate the intellectual and political history of the colonial transition in northern Uganda The book focuses on Acholiland a place that has been chronically understudied in comparison to Uganda s rich fertile and well documented south Southerners there following the depictions of colonial officials and missionaries have often regarded northerners as uncultured people lacking ideas Acholi Intellectuals challenges this prejudice bringing into view a whole

category of men and a few women who mediated between indigenous and colonial knowledge systems and inaugurated a new kind of politics Patrick William Otim studies a category of people known as healers messengers war leaders poet musicians and diplomats who possessed prestige and power in an older Acholi political logic and who in the dawning days of colonial government came to occupy positions of power in the British administration Otim argues that these Acholi intellectuals were not simply creatures of British colonial self interest neither was their power invented by the coercive logic of indirect rule He asserts instead that people who held moral and social power in the older system were able to transform that strength under colonial administration into a new form of political legitimacy *The Critical Imagination in African Literature* Maik Nwosu, Obiwu, 2015-06-09 In African studies the Echeruoan ideal is understood as an intervention or intellectual engagement characterized by a broadness of vision as well as a depth of analysis The essays gathered in this volume celebrate that ideal and honor Echeruo s contribution to the African intellectual tradition Editors Nwosu and Obiwu explore the driving forces in the literature of Africa and the African diaspora Contributors examine such themes as migration and exile trauma and repression violence and rebellion and gender and human rights Showcasing a rich diversity of cultural and academic backgrounds this volume inaugurates a new paradigm for further examination of African literature as world literature and for analysis of African literature through the lens of psychoanalytic semiotics While varied in modes of inquiry the essays are unified in their ambition to explore new theoretical directions reinvigorating the conversation around how African literature is read and studied
