A World Through Black Eyes:

A WORLD THROUGH BLACK EYES Julius A. Lebron,2023 A condensed and accessible intellectual history that traces the genesis of the ideas that have built into the BlackLivesMatter movement in a bid to help us make sense of the emotions demands and arguments of present day activists and public thinkers Started in the wake of George Zimmerman s 2013 acquittal in the death of Trayvon Martin the BlackLivesMatter movement has become a powerful and incendiary campaign demanding redress for the brutal and unjustified treatment of black bodies by law enforcement in the United States The movement is only a few years old but as Christopher J Lebron argues in this book the sentiment behind it is not the plea and demand that Black Lives Matter comes out of a much older and richer tradition arguing for the equal dignity and not just equal rights of black people In this updated edition The Making of Black Lives Matter presents a condensed and accessible intellectual history of the BlackLivesMatter movement and expands on the movement s relevancy This edition includes a new introduction that explores how the movement s core ideas have been challenged re affirmed and re imagined during the white nationalism of the Trump years as well as a new chapter that examines the ideas and importance of Angela Davis and Amiri Baraka as significant participants in the Black Power Movement and Black Arts Movement respectively Drawing on the work of these revolutionary black public intellectuals as well as Frederick Douglass Ida B Wells Langston Hughes Zora Neal Hurston Anna Julia Cooper Audre Lorde James Baldwin and Martin Luther King Jr Lebron clarifies what it means to assert

that Black Lives Matter when faced with contemporary instances of anti black law enforcement He also illuminates the crucial difference between the problem signaled by the social media hashtag and how we think that we ought to address the problem As Lebron states police body cameras or even the exhortation for civil rights mean nothing in the absence of equality and dignity To upset dominant practices of abuse oppression and disregard we must reach instead for radical sensibility Radical sensibility requires that we become cognizant of the history of black thought and activism in order to make sense of the emotions demands and argument of present day activists and public thinkers Only in this way can we truly embrace and pursue the idea of racial progress in America

Deep in Our Hearts Joan C. Browning, Dorothy Dawson Burlage, 2002-03-01 *Deep in Our Hearts* is an eloquent and powerful book that takes us into the lives of nine young women who came of age in the 1960s while committing themselves actively and passionately to the struggle for racial equality and justice These compelling first person accounts take us back to one of the most tumultuous periods in our nation's history to the early days of the Student Nonviolent Coordinating Committee SNCC and Students for a Democratic Society SDS the Albany Freedom Ride voter registration drives and lunch counter sit ins Freedom Summer the 1964 Democratic Convention and the rise of Black Power and the women's movement The book delves into the hearts of the women to ask searching questions Why did they of all the white women growing up in their hometowns cross the color line in the days of segregation and join the Southern Freedom Movement What did they see do think and feel in those uncertain but hopeful days And how did their experiences shape the rest of their lives

Spirit and Sport Sean Samuel O'Neil, 2023-08-18 In *Spirit and Sport* Religion and the Fragile Athletic Body in Popular Culture Sean O'Neil studies the intersectionality of religion and disability as it exists within contemporary sports To do so he calls to the forefront various contemporary stories about trauma and disability some fictional others biographical and examines how we tell and interpret these stories within the frameworks of athletic activity competition failure and success O'Neil studies a wide range of perspectives from John Irving's *A Prayer for Owen Meany* and the big screen's *Signs* to the experiences of real life athletes like Tim Tebow Muhammad Ali and Bethany Hamilton Woven throughout his examination of each is a consideration of religious belief and practice especially within Christianity as it relates to athletic ability the lighthearted stories of victory and overcoming the inspiring triumph over fragility and limitation so often couched in religious terms O'Neil's study draws upon his experiences as a hospital chaplain and his own battle with skin cancer By blending personal experience with sociological observation O'Neil argues that the intersection of religion sports and disability in popular culture is a revealing site of cultural struggle over competing myths identities and values related to the body both the physical bodies we inhabit as well as the broader social bodies to which we subscribe *Spirit and Sport* is a study with broad appeal from O'Neil's autoethnographic storytelling to the wide range of narrative media he examines religious scholars sports historians and general audiences alike are sure to find it a thought provoking and engaging read
