Palmer, Joel Colton, 1965 *A History of the Modern World* Robert Roswell Palmer, Joel Colton, 1971 Originally published in 1950 this textbook for a course in western civilization focuses on the major events and social transformations that took place in Europe during the 18th and 19th centuries The ninth edition adds sections on the role of women and descriptions of cultural and intellectual movements Annotation copyrighted by Book News Inc Portland OR **War in the Modern World, 1990-2014** Jeremy Black, 2014-09-15 In War in the Modern World 1990 2014 Jeremy Black looks at the most modern of conflicts from the perspective that war is a central feature of the modern world Arguing that understanding non Western developments is crucial if the potential of Western war making is to be assessed accurately the book also asserts that knowing the history of conflict can only help future generations Black argues for the need to emphasise the variety of military circumstances as well as the extent to which the understanding of force and the definitions of victory and defeat are guided by cultural assumptions War has a multi faceted impact in the modern world and this book shows its significance As the latest volume in the Warfare and History series this title takes a global and historical perspective on modern warfare enabling the reader to approach familiar conflicts through a new analytical framework This book is an invaluable resource for all students of the history of modern warfare Marian Apparitions, the Bible, and the Modern World Donal Anthony Foley, 2002 This groundbreaking book looks at the major approved Marian apparitions of the last five centuries and relates them to important historical moments the Reformation the French and Russian Revolutions the rise of Nazism These Marian apparitions and particularly Fatima are not historically unimportant events but rather follow a preordained plan they have a crucial role in helping us to see how the modern world with all its problems has developed Donal Foley makes clear the fascinating and intriguing connections between Marian apparitions and the Scriptural types of Mary found in the Bible a crucial element in the theology and exegesis of the early Church Fathers By understanding these biblical types and their symbolism we see that each of the apparitions has a much greater significance for both the Church and the modern world than has generally been recognised Here is a convincing demonstration that the future of the Church and the papacy is intimately bound up with a proper understanding of the role of Mary there will only be true peace in the world when her message is accepted and lived If you thought you really understood how the modern world developed and the role and meaning of Marian apparitions then this

book will make you think again Donal Foley has written a book with an extraordinary message Aidan Nichols O P *The Routledge History of Emotions in the Modern World* Katie Barclay, Peter N. McMaster, 2017-10-20 This original edited volume is the only book on naval advising Drawing upon the work of scholars and practitioners from all over the world it takes a comparative and global approach to examining the history theory and evolution of naval advising and assistance Starting with a brief history of the evolution of naval advising the book then moves to late 19th century naval advising efforts These generally involved individuals such as the American adventurer in China Philo McGiffin but also included State sponsored formal missions such as the first such US effort Colonel

John Lay's 1870s mission to Egypt A comparative multi national examination of the ability of non European States such as China Turkey and Japan to adopt Western naval methods and doctrine and an examination of the French naval advising mission to Peru round out the book's pre First World War offerings The trends in naval advising between the World Wars particularly their use as tools of economic and political penetration are revealed through chapters on the British naval aviation mission to Japan the British and French naval missions to Poland the US mission to Peru and a comparative study of Italian naval missions in Persia China and Spain The latter also reveals early ideological motivations for dispatching advising missions The Cold War saw an intensification of military advising including naval advising as both the Communist and the Western Powers used advising as ideological tools The US naval missions to Nationalist China and South Vietnam are assessed as are the Soviet naval advising efforts in East Germany and China Together through a wealth of original research the studies in this book provide numerous lessons for future naval advising efforts and constitute a unique contribution to the field

The African Revolution Richard Reid, 2025-01-28 A panoramic global history of Africa in the age of imperialism Africa's long nineteenth century was a time of revolutionary ferment and cultural innovation for the continent's states societies and economies Yet the period preceding what became known as the Scramble for Africa by European powers in the decades leading up to World War I has long been neglected in favor of a Western narrative of colonial rule The African Revolution demonstrates that the Scramble and the resulting imperial order were as much the culmination of African revolutionary dynamics as they were of European expansionism In this monumental work of history Richard Reid paints a multifaceted portrait of a continent on the global stage He describes how Africa witnessed the emergence of new economic and political dynamics that were underpinned by forms of violence and volatility not unlike those emanating from Europe Reid uses a stretch of road in what is now Tanzania one of the nineteenth century's most vibrant commercial highways as an entry point into this revolutionary epoch weaving a broader story around characters and events on the road He integrates the African experience with new insights into the deeper currents in European societies before and after conquest and he shows how the Africans themselves created opportunities for European expansion Challenging the portrayal of Africa's transformative nineteenth century as a mere prelude to European colonialism The African Revolution

reveals how this turbulent yet hugely creative era for Africans intersected with global intrusions to shape the modern age

Warfare, State and Society on the Black Sea Steppe, 1500-1700 Brian Davies, 2014-04-04 This crucial period in Russia's history has up until now been neglected by historians but here Brian L Davies study provides an essential insight into the emergence of Russia as a great power For nearly three centuries Russia vied with the Crimean Khanate the Polish Lithuanian Commonwealth and the Ottoman Empire for mastery of the Ukraine and the fertile steppes above the Black Sea a region of great strategic and economic importance arguably the pivot of Eurasia at the time The long campaign took a great toll upon Russia's population economy and institutions and repeatedly frustrated or redefined Russian military and diplomatic projects in the West The struggle was every bit as important as Russia's wars in northern and central Europe for driving the Russian state building process forcing military reform and shaping Russia's visions of Empire
