Jana Marguerite Bennett, 2012-06-14 **Be Still!** Gordon C. Stewart, 2017-01-06 *Be Still* Departure from Collective Madness echoes the call of the Navajo sage and the psalmist who invited their hearers to stop If we keep going this way we're going to get where we're going and be still Be still and know Like pictures in a photo album taken from a unique lens these essays zoom in on singular moments of time where the world is making headlines drawing attention to the sin of exceptionalism in its national racial religious cultural and species manifestations Informed by Japanese Christian theologian Kosuke Koyama Elie Wiesel Wendell Berry and others the author invites the reader to slow down be still and depart from collective madness before the Navajo sage is right Told in the voice familiar to listeners of All Things Considered and Minnesota Public Radio these poetic essays sometimes feel as familiar as an old family photo album but the pictures themselves are taken from a thought provoking angle *Swords Into Plowshares, Volume Two* Arthur J. Laffin, 2010-05-01 On September 9 1980 the Plowshares Eight entered a General Electric plant in King of Prussia Pennsylvania and enacted the biblical command to beat swords into plowshares by hammering on the nose cones of two nuclear warheads and pouring blood on documents Since that time other small groups and individuals have entered manufacturing plants and military bases throughout the U S as well as in Australia Germany England Ireland Sweden and Holland to disarm components of nuclear and conventional weapons systems As of Spring 2003 there have been over 150 people who using hammers and other symbols have carried out over 75 plowshares and related disarmament actions This book recounts each of the actions that have occurred over the last twenty three years and includes information about the trials and sentences plowshares activists have received Photos of some of the actions and participants are also included in this chronology as well as other resources for peace and justice

No Ordinary Angel Susan R. Garrett, 2008-01-01 In this provocative intelligent and highly original addition to the Anchor Yale Bible Reference Library Susan R Garrett argues that angel talk has never been merely about angels Rather from ancient times until the present talk about angels has served as a vehicle for reflection on other fundamental life questions including the nature of God's presence and intervention in the world the existence and meaning of evil and the fate of humans after death In *No Ordinary Angel* Garrett examines how biblical and other ancient authors addressed such questions through their portrayals of angels She compares the ancient angel talk to popular depictions of angels today and considers how the ancient and modern portraits of angels relate to Christian claims about Jesus *No Ordinary Angel* offers important insights into the development of angelology the origins of Christology and popular Western spirituality ranging from fundamentalist to New Age In doing so it provokes stimulating theological reflection on key existential questions Seeds of the Spirit Richard H.

To Live in Peace Mark R. Gornik, 2002-09-17 Building on both the perspective of God's new creation and the view from the neighborhood, *To Live in Peace* shows how the life of the church, the strategies of community development, and the practices of peacemaking can make a transformational difference.

Dying Is Not Death Lee Hoinacki, 2007-01-01 *Dying Is Not Death* examines from a traditional humanistic position the act of dying. The author views death as a universal experience that can and perhaps should force us to explore various technological intrusions upon it. Each chapter is an independent narrative, and some chapters tell stories of those struggling to die when confronted with the medical system's technological artifacts. Recounting different persons' experiences of death, Lee Hoinacki suggests that the medical system's conventional approaches to dying and death can distort our preparation for this most important experience. Borrowing from Jacques Ellul and Ivan Illich, Hoinacki acknowledges technology as an all-embracing system with powerful symbolic effects on the human condition and argues to a conflict between faith and technology. Indeed, with Ellul, he holds that in order to criticize technology, one must find some place outside the technological milieu that would act as a kind of Archimedean lever. One must somehow get to the Beyond to judge where one stands in the world.

Free Churches and the Body of Christ Jeffrey W. Cary, 2012-11-05 Those within the free church tradition have often appealed to the notion of the invisible church to account for the unity of the Body of Christ. A growing number of free church theologians, however, are giving increased attention to the importance of visible ecclesial unity, which immediately raises the perennial problem of the authorities by which unity is maintained. There is also a growing recognition among free church theologians of the need to recognize the authority of tradition in tandem with the authority of Scripture. In this book, Cary affirms these recent developments but then inquires whether a turn toward visible unity, together with an embrace of the authority of tradition, can eventually be coherent without also embracing the authority of an extra-congregational

teaching office To guide his study Cary engages the work of two theologians from outside the free church tradition Robert Jenson and Rowan Williams He then brings them into contact with the prominent free church theologian James McClendon in order to supplement some of the deficiencies Cary perceives in McClendon s groundbreaking work Once these deficiencies are addressed however the question intensifies whether the free church tradition as such can remain a coherent ecclesial option over time
