A Living Nightmare:

A Living Nightmare Mary L. Burch, 2013-09-25 Looking up towards the sky and seeing all the chemtrails makes a dedicated nurse wonder if this is the cause for all the changes that she has seen in special children For over 30 years she has worked with the developmentally disabled and noticed major changes in their behaviors She researched the availability of studies conducted as to these changes that had become more alarming globally and searched out reports about all of the diseases that are more prevalent today than at any other time in society She wonders if the trails have anything to do with these conditions She began to wonder if it really was seeding the clouds or is it a way to weed out humanity This could be a form of population control with chemicals raining down on the earth altering lives forever

vomiting and also extends to a general fear of feeling nauseous Generally the effect on the life of an emetophobe is that he or she lives a life dictated by a constant programme of trying to avoid becoming nauseous or being exposed to people who are For me and probably for countless other women sufferers the most profoundly traumatic effect was the impact my phobia had on me during motherhood which in its early stages is a period which is almost defined by nausea and vomiting And that was only the beginning Then comes the fear that my children might get bugs that would cause them to vomit And of course they did leading to crises of anxiety and compulsive preventative and curative behaviour This has made me to feel that I didnt adequately perform my duties as a mother despite being so evidently devoted to that role Aside from my children there were many other strands of life that this phobia affected For instance I am still troubled by guilt that I didnt adequately support friends who were ill including two who ultimately died from cancer because of a fear of them vomiting in my presence More trivially there was fear of travel sickness which was so bad I avoided travelling by aeroplane for 30 years I am now a Grandmother to three beautiful children I live in Southern Spain and my dearest wish is to be able to have them come and visit me for holidays I want to be able to love them properly and not at arms length as I did with my own children My story is a compelling account of life with a near debilitating fear and how I managed to keep it a secret for 46 years but through my own shame and not without the understanding and love of my 3rd husband have almost managed to overcome it
