Babel of the Atlantic Bethany Wiggin,2019-04-24 Despite shifting trends in the study of Oceanic Atlantic history the colonial Atlantic world as it is described by historians today continues to be a largely English only space even when other language communities are examined they too are considered to be monolingual and discrete Babel of the Atlantic pushes back against this monolingual fallacy by documenting multilingualism translation and fluid movement across linguistic borders Focusing on Philadelphia and surrounding areas that include Germantown Bethlehem

and the so called Indian country to the west this volume demonstrates the importance of viewing inhabitants not as members of isolated language communities whether English German Lenape Mohican or others but as creators of a vibrant zone of mixed languages and shifting politics Organized around four themes religion education race and abolitionism and material culture and architecture and drawing from archives such as almanacs newspapers and the material world the chapters in this volume show how polyglot tolerant and multilingual spaces encouraged diverse peoples to coexist Contributors examine subjects such as the multicultural Moravian communities in colonial Pennsylvania the Charity School movement of the 1750s and the activities of Quaker abolitionists showing how educational and religious movements addressed and embraced cultural and linguistic variety Drawing early American scholarship beyond the normative narrative of monolingualism this volume will be invaluable to historians and sociolinguists whose work focuses on Pennsylvania and colonial revolutionary and antebellum America In addition to the editor the contributors include Craig Atwood Patrick M Erben Cynthia G Falk Katherine Faull Wolfgang Fligel Katharine Gerbner Maruice Jackson Lisa Minardi Jürgen Overhoff and Birte Pfleger
