**Peace in the Mountains** Tom Weyant, 2023-08-18 *Peace in the Mountains* analyzes student activism at the University of Pittsburgh Ohio University and West Virginia University during the Vietnam War era Drawing from a wide variety of sources including memoirs periodicals archival manuscript collections and college newspapers such as *The Pitt News* author Thomas Weyant tracks the dynamics of a student led campus response to the war in real time and outside the purview of the national media Along the way he musters evidence for an emerging social and political conscience among the student bodies of northern Appalachia citing politics on campus visions of patriotism and dissent campus citizenship antiwar activism and draft resistance campus issues and civil rights as major sites of contention and exploration Through this regional chronicle of student activism during the Vietnam War era Weyant holds to one reoccurring and unifying theme citizenship His account shows that political activism and civic engagement were by no means reserved to students at elite colleges on the contrary Appalachian youth were giving voice to the most vexing questions of local and national responsibility student and citizen identity and the role of the university in civil society Rich in primary source material from student op eds to administrative documents *Peace in the Mountains* draws a new map of student activism in the 1960s and early 1970s Weyant's study is a thoughtful and engaging addition to both Appalachian studies and the historiography of the Vietnam War era and is sure to appeal not only to specialists Appalachian scholars political historians political scientists and sociologists but to college students and general readers as well

**Betty Friedan** Rachel Shteir, 2023-09-12 A new portrait of Betty Friedan the author and activist acclaimed as the mother of second wave feminism A lucid portrait of Friedan as a bold yet flawed advocate for women's equality Publishers Weekly The feminist writer and activist Betty Friedan 1921 2006 pathbreaking author of *The Feminine Mystique* was powerful and polarizing In this biography the first in more than twenty years Rachel Shteir draws on Friedan's papers and on interviews with family colleagues and friends to create a nuanced portrait Friedan born Bettye Naomi Goldstein chafed at society's restrictions from a young age As a journalist she covered racism sexism labor class inequality and anti-Semitism As a wife and mother she struggled to balance her work and homemaking Her malaise as a housewife and her research into the feelings of other women resulted in *The Feminine Mystique* 1963 which made her a celebrity Using her influence Friedan cofounded the National Organization for Women the National Women's Political Caucus and the National Association to Repeal Abortion Laws She fought for the Equal Rights Amendment universal childcare and workplace protections for mothers but she disagreed with the women's liberation movement over sexual politics Her volatility and public conflicts fractured key relationships Shteir considers how Friedan's Judaism was essential to her feminism presenting a new Friedan for a new era

**The Richer Sex** Liza Mundy, 2013-03-19 A revolution is under way Within a generation more households will be supported by women than by men In this book the author takes us to the frontier of this new economic order She shows us why this flip is inevitable what painful adjustments will have to be made

along the way and how both men and women will feel surprisingly liberated in the end Couples today are debating who must assume the responsibility of primary earner and who gets the freedom of being the slow track partner With more men choosing to stay home she shows how that lifestyle has achieved a higher status and the ways males have found to recover their masculinity And the revolution is global she takes us from Japan to Denmark to show how both sexes are adapting as the marriage market has turned into a giant free for all with men and women at different stages of this transformation finding partners who match their expectations This book is an analysis of the most important cultural shift since the rise of feminism the coming era in which women will earn more than men and how this will change work love and sex *Uniquely Human: the Basis of Human Rights* Gabriel Moran,2013-08-21 The basis of human rights remains in need of exploration The effectiveness of the language of human rights is threatened by its widespread but uncritical use This book is neither a sermon to believers nor an attack by a skeptic It is a critical look at the basis of those few rights that are genuinely universal for example a right not to be tortured or a right to basic subsistence A human right is a claim that every human being can make on the whole human race The rights that are specifically human arise from a human respect for all living beings There is still a widespread assumption that human rights is just another name for the confused idea of natural rights from the eighteenth century rights that were promulgated by and for adult white males The authors of the UNs Universal Declaration of Human Rights in 1948 assumed that they were reformulating an old idea Instead they were beginning a new idea Human rights can be realized only through conversations across differences within gender age culture and religion This book traces those continuing conversations that fill out the diversity within the unity of the human race The convergence of many particular traditions creates a human tradition that can sustain human rights as a standard of moral conduct for all nations

**The Prime of Life** Steven Mintz,2015-04-07 By drawing on 400 years of social and economic history the book presents a thoughtful and thorough guide through the life stages Library Journal Adulthood today is undergoing profound transformations Men and women wait until their thirties to marry have children and establish full time careers occupying a prolonged period in which they are no longer adolescents but still lack the traditional emblems of adult identity People at midlife struggle to sustain relationships with friends and partners to achieve fulfilling careers to raise their children successfully and to age gracefully The Prime of Life puts today s challenges into new perspective by exploring how past generations navigated the passage to maturity Whereas adulthood once meant culturally prescribed roles and relationships the social and economic convulsions of the last sixty years have transformed it fundamentally tearing up these shared scripts and leaving adults to fashion meaning and coherence in an increasingly individualistic culture Emphasizing adulthood s joys and fulfillments as well as its frustrations and regrets Mintz shows how cultural and historical circumstances have consistently reshaped what it means to be a grown up in contemporary society A triumph of historical writing The Spectator Mintz s message that there are many ways to wear the mantle of responsible adulthood and that the 1950s model is a mere

blip on history's radar is deeply necessary and long overdue New York Times Book Review Describing the cultural economic and social changes from the Colonial era to today's world Mintz argues that neither religious nor secular middle class values are adequate responses to the new generation's problems Choice A thoughtful and strangely encouraging tour of an often difficult life stage Kirkus Reviews      **Rethinking American Women's Activism** Annelise Orleck, 2014-10-17 In this enthralling narrative Annelise Orleck chronicles the history of the American women's movement from the nineteenth century to the present Starting with an incisive introduction that calls for a reconceptualization of American feminist history to encompass multiple streams of women's activism she weaves the personal with the political vividly evoking the events and people who participated in our era's most far reaching social revolutions In short thematic chapters Orleck enables readers to understand the impact of women's activism and highlights how feminism has flourished through much of the past century within social movements that have too often been treated as completely separate Showing that women's activism has taken many forms has intersected with issues of class and race and has continued during periods of backlash Rethinking American Women's Activism is a perfect introduction to the subject for anyone interested in women's history and social movements

**Handbook of the Sociology of Gender** Barbara J. Risman, Carissa M. Froyum, William J. Scarborough, 2018-06-05 This handbook provides a comprehensive view of the field of the sociology of gender It presents the most important theories about gender and methods used to study gender as well as extensive coverage of the latest research on gender in the most important areas of social life including gendered bodies sexuality carework paid labor social movements incarceration migration gendered violence and others Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework gender structure theory in order to position the specific contributions of each author chapter as part of a complex and multidimensional gender structure Through this organization of the handbook readers do not only gain tremendous insight from each chapter but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive While the specific focus of the handbook is on gender the chapters included in the volume also give significant attention to the interrelation of race class and other systems of stratification as they intersect and implicate gendered processes      Popularizing the Past Nick Witham, 2023-07-26 Popularizing the Past tells the stories of five postwar historians who changed the way ordinary Americans thought about their nation's history What's the matter with history For decades critics of the discipline have argued that the historical profession is dominated by scholars unable or perhaps even unwilling to write for the public In Popularizing the Past Nick Witham challenges this interpretation by telling the stories of five historians Richard Hofstadter Daniel Boorstin John Hope Franklin Howard Zinn and Gerda Lerner who in the decades after World War II published widely read books of national history Witham compellingly argues that we should understand historians' efforts to engage with the reading public as a vital part of their

postwar identity and mission He shows how the lives and writings of these five authors were fundamentally shaped by their desire to write histories that captivated both scholars and the elusive general reader He also reveals how these authors efforts could not have succeeded without a publishing industry and a reading public hungry to engage with the cutting edge ideas then emerging from American universities As Witham s book makes clear before we can properly understand the heated controversies about American history so prominent in today s political culture we must first understand the postwar effort to popularize the past

**The Measure of Success** Carolyn McCulley,Nora Shank,2014 Carolyn and Nora a single business owner and a stay at home mom tackle the stereotypes and one size fits all thinking that have left women struggling to understand how to balance roles in the home and work place for generations

**Runaway Wives and Rogue Feminists** Margo Goodhand,2017-09-18T00:00:00Z In the supposedly enlightened 60s and 70s violence against women was widespread It wasn t talked about and women had few if any options to escape their abusers Yet in 1973 with no statistics no money and little public support five disparate groups of Canadian women quietly opened Canada s first battered women s shelters Today there are well over 600 In Runaway Wives and Rogue Feminists journalist Margo Goodhand tracks down the rogue feminists whose work forged an underground railway for women and children weaving their stories into an unforgettable and until now untold history As they lobbied for funding scrounged for furniture and fended off outraged husbands these women marked a defining moment in Canadian history triggering monumental changes in government schools courts and law enforcement But was it enough to stop the cycle of violence Forty years later these pioneers describe how and why Canada has lost its ground in the battle for women s rights

*Women Who Invented the Sixties* Steve Golin,2022-09-20 While there were many protests in the 1950s against racial segregation economic inequality urban renewal McCarthyism and the nuclear buildup the movements that took off in the early 1960s were qualitatively different They were sustained not momentary they were national not just local they changed public opinion rather than being ignored Women Who Invented the Sixties tells the story of how four women helped define the 1960s and made a lasting impression for decades to follow In 1960 Ella Baker played the key role in the founding of the Student Nonviolent Coordinating Committee which became an essential organization for students during the civil rights movement and the model for the antiwar and women s movements In 1961 Jane Jacobs published *The Death and Life of Great American Cities* changing the shape of urban planning irrevocably In 1962 Rachel Carson published *Silent Spring* creating the modern environmental movement And in 1963 Betty Friedan wrote *The Feminine Mystique* which sparked second wave feminism and created lasting changes for women Their four separate interventions helped together to end the 1950s and invent the 1960s Women Who Invented the Sixties situates each of these four women in the 1950s Baker s early activism with the NAACP and the Southern Christian Leadership Conference Jacobs s work with Architectural Forum and her growing involvement in neighborhood protest Carson s conservation efforts and publications and Friedan s work as a labor journalist and the discrimination she faced before exploring their contributions to

the 1960s and the movements they each helped shape

### **Reflections on the World of Human Inspirations** Gabriel

Bekö, 2024-01-11 Inspiration is the initial spark that puts us on track towards our beliefs attitudes and actions It partly defines who we are and whom we will become But what are the sources of our inspirations what governs them how do they take shape in our lives and how are our lives shaped by them Can they be right and wrong and do we have the power to control them This book provides an analysis of the historical geographical and cultural aspects of those countless moments that ignite our passions guide our efforts or cause the lack of both Through the study of human inspirations the author elaborates a variety of issues including current societal political and global challenges spirituality human character individualism education as well as the contrast between what used to be the political East and West communism and capitalism The book offers an intriguing look at the inflation of inspirations in our rapidly changing societies and its global implications It fuses numerous fields to offer a refined view of the world and ourselves in it Do advanced societies consist of advanced individuals or is it time to reassess our values redefine our principles and seek inspirations that dare to question the status quo and introduce us to a category of dignity that moves us closer to a truly advanced world Mad Men,

Women, and Children Heather Marcovitch, Nancy Batty, 2012-07-13 As rich and complex as *The Sopranos* or *The Wire* *Mad Men* demands a critical look at its narrative and characters as representative of both the period it depicts and of our memories and assumptions of the period *Mad Men Women and Children Essays on Gender and Generation* edited by Heather Marcovitch and Nancy Batty focuses on women and children two groups that are not only identified together in this period women characters in this show are often treated as coddled children and the children look to their parents as models of adult behaviors but are also two groups who are beginning to gain political and social rights in this period The connections between the women of *Mad Men* early second wave feminism and contemporary third wave feminism and post feminism invite discussion in nearly every episode These characters are further contextualized in light of historical figures and events from the death of Marilyn Monroe and the assassination of Kennedy to the March on Washington and the bohemian counterculture Moreover the points of view of the children who are now adult viewers of *Mad Men* bridge the 1960s to the social and cultural concerns of today *Mad Men Women and Children* presents an examination of these characters and issues in light of 1960s feminist writers such as Betty Friedan and popular writers such as Helen Gurley Brown of historical events like the Civil Rights Movement and the Women's Liberation Movement and as lenses through which to view the sensibilities of the early 1960s *Family Matters* Hilde Løvdal Stephens, 2019-10-15 The first full length study of a pivotal figure in

American evangelical faith James Dobson child psychologist author radio personality and founder of the Christian conservative organization Focus on the Family published his first book *Dare to Discipline* in 1970 and quickly became the go to family expert for evangelical parents across the United States as American evangelicalism rose as a major political force The family expert became a leading voice in the Reagan Revolution and played a role in making American evangelicals even

more firmly associated with the Republican Party Dobson's principle beliefs are that the family is the center of Christian America and that the traditional family must be defended from perceived threats such as gay rights feminism abortion and the secularization of public schools Dobson and Focus on the Family dominated Christian media through print radio and online venues and their message reached millions of American evangelical households shaping the cultural sensibilities and political attitudes of evangelical families throughout the culture wars from the 1980s into the 2000s Family Matters James Dobson and Focus on the Family's Crusade for the Christian Home by Hilde L. V. Stephens is an insightful history and analysis of James Dobson's rise to fame effect on American evangelical culture and subsequent descent from relevance Extensively researched L. V. Stephens scoured through Dobson's books articles and other materials published by Focus on the Family in order to explore how evangelicals defined and defended the traditional family as an ideal and as a symbol in an ever-changing world By contextualizing the history of Dobson's reign L. V. Stephens's discerning analysis fills an important gap in our understandings of the politics and culture of late twentieth century conservative Christianity in the United States She explores complex topics ranging from Dobson's celebration of what he believes are timeless biblical values such as maintaining strict and defined gender roles to the ways Dobson and Focus on the Family balanced their basic ideals with real everyday lives of average American evangelical families facing the realities of divorce working mothers and other perceived threats to the traditional family

**Nightmare Factories** Troy Rondinone, 2019-09-24 How the insane asylum came to exert such a powerful hold on the American imagination Madhouse funny farm psychiatric hospital loony bin nuthouse mental institution no matter what you call it the asylum has a powerful hold on the American imagination Stark and foreboding they symbolize mistreatment fear and imprisonment standing as castles of despair and tyranny across the countryside In the asylum of American fiction and film treatments are torture attendants are thugs and psychiatrists are despots In Nightmare Factories Troy Rondinone offers the first history of mental hospitals in American popular culture Beginning with Edgar Allan Poe's 1845 short story The System of Dr Tarr and Prof Fether Rondinone surveys how American novelists poets memoirists reporters and filmmakers have portrayed the asylum and how those representations reflect larger social trends in the United States Asylums he argues darkly reflect cultural anxieties and the shortcomings of democracy as well as the ongoing mistreatment of people suffering from mental illness Nightmare Factories traces the story of the asylum as the masses have witnessed it Rondinone shows how works ranging from Moby Dick and Dracula to One Flew Over the Cuckoo's Nest Halloween and American Horror Story have all conversed with the asylum Drawing from fictional and real accounts movies personal interviews and tours of mental hospitals both active and defunct Rondinone uncovers a story at once familiar and bizarre where reality meets fantasy in the foggy landscape of celluloid and pulp

Grand Canyon to Hearst Ranch Elizabeth Austin, 2020-02-21 Finalist for the 2020 WILLA Literary Award Creative Nonfiction Inspired by her first breathtaking trip in the Grand Canyon Harriet Hunt Burgess dedicated her life to saving land for future generations Beginning in the 1970s she

persevered through four decades overcoming daunting obstacles and taking extraordinary risks to conserve hundreds of thousands of acres of land in the American West Without Burgess iconic and irreplaceable landscapes like the Lake Tahoe region and the California coast would be much different today As Harriet Burgess once explained The land we save is our legacy It s what we give to our children The Grand Canyon was the catalyst for Harriet s conservation mission and the spark for Grand Canyon to Hearst Ranch Author Elizabeth Austin has interwoven her own exhilarating and life changing dory trip through the depths of the Grand Canyon with the compelling story of Harriet s early life and five of her most significant conservation achievements as founder president of the American Land Conservancy
