A Struggle For Power The American Revolution:

A Struggle for Power Theodore Draper, 1996 Draper's startlingly original account of the causes and nature of the American Revolution is an acute dissection of the process that led to the final break with England and to the armed revolt in 1775. He lucidly examines the logic of dissolution and the manifold ways in which trade and commerce resulted in an inexorably unfolding revolutionary process.

The American Revolution in the Southern Colonies David Lee Russell, 2000-01-01 As the American Revolution in the North drew to a stalemate around New York, in the South the British finally came to terms with the reality of defeat. Southern sites like Kings Mountain, Cowpens, Charleston, the Chesapeake, and Yorktown were vital to American independence. The origin of the five Southern colonies, Maryland, Virginia, North Carolina, South Carolina, and Georgia, their development, the role of patriot and loyalist Southerners, and critical battles are examined. Included is a discussion of the leadership of the British forces and of the colonial patriots who inspired common citizens to fight for the sake of American independence.

The Struggle for Power in Colonial America, 1607-1776 William R. Nester, 2017-10-11 America's colonial era began and ended dramatically with the founding of the first enduring settlement at Jamestown on May 14, 1607, and the Declaration of Independence in Philadelphia on July 4, 1776. During those 169 years, conflicts were endemic and often overlapping among the colonists, between the colonists and the original inhabitants, between the colonists and other imperial European peoples, and between the colonists and the mother country. As conflicts were endemic, so too were struggles for power. This study reveals the reasons, stages, and results of these conflicts. The dynamic driving this history are two inseparable transformations: as English subjects morphed into American citizens, and the core American cultural values morphed from communitarianism and theocracy into individualism and humanism. These developments in turn were shaped by the changing ways that the colonists governed, made money, waged war, worshipped, thought, wrote, and loved. Extraordinary individuals led that metamorphosis: explorers like John Smith and Daniel Boone; visionaries like John Winthrop and Thomas Jefferson; entrepreneurs like William Phips and John Hancock; dissidents like Rogers Williams and Anne Hutchinson; warriors like Miles Standish and Benjamin Church; free spirits like Thomas Morton and William Byrd; and creative writers like Anne Bradstreet and Robert Rogers. Then there was that quintessential man of America's Enlightenment, Benjamin Franklin. And finally, George Washington, who more than anyone was responsible for winning American independence, when and how it happened.
