

The background of the book cover features a complex geometric diagram. It consists of two sets of concentric circles, one centered on the left and one on the right, representing the equipotential surfaces of two positive charges. Superimposed on these are a series of lines that curve from the left set of circles to the right set, representing the electric field lines. The lines are more densely packed in the region between the two charges, indicating a stronger electric field. The entire diagram is rendered in black lines on a yellow background.
