Contested Landscapes Barbara Bender,Margot Winer,2020-05-27 Landscapes are not just backdrops to human action people make them and are made by them How people understand and engage with their material world depends upon particularities of time and place These understandings are dynamic variable contradictory and open ended Landscapes are thus always evolving and are often volatile and contested They are also always on the move people may or may not be rooted but they have legs From prehistoric times onwards people have travelled but the process of people on the move as tourists or on global business as migrant workers or political or economic refugees has vastly accelerated How and why do people who share the same landscape have different and often violently opposed ways of understanding its significance How do people on the move make sense of the unfamiliar How do they create a sense of place How do they rework the memories of places left behind There is nothing easeful about the landscapes discussed in this book which are often harsh edged and troubled both socially and politically The contributors tackle contested notions of landscape to explain the key role it plays in creating identity and shaping human behaviour This landmark study offers an important contribution towards an understanding of the complexity of landscape **Eye on the World** Gavin Young,1998 The Cumulative Book Index ,1998 A world list of books in the English language *New Statesman* ,1998-04 The Rough Guide to Vietnam Jan Dodd,Mark Lewis,2000 A
