Wagner Ring Cycle 2015:

Theology of Wagner's Ring Cycle I Richard H. Bell, 2020-01-21 Wagner's Ring is one of the greatest of all artworks of Western civilization but what is it all about? The power and mystery of Wagner's creation was such that he himself felt he stood before his work as though before some puzzle. A clue to the Ring's greatness lies in its multiple avenues of self-disclosure and the corresponding plethora of interpretations that over the years has granted ample scope for directors and will no doubt do so well into the distant future. One possible interpretation which Richard Bell argues should be taken seriously is the Ring as Christian theology. In this first of two volumes Bell considers among other things how the composer's Christian interests may be detected in the forging of his Ring looking at how he appropriated his sources whether they be myths and sagas, writers, poets or philosophers and considering works composed around the same time especially his Jesus of Nazareth.

Theology of Wagner's Ring Cycle II Richard H. Bell, 2021-09-30 Wagner's Ring addresses fundamental concerns that have faced humanity down the centuries such as power and violence, love and death, freedom and fate. Further, the work seems particularly relevant today, addressing as it does the fresh debates around the created order, politics, gender and sexuality. In this second of two volumes on the theology of the Ring, Richard Bell argues that Wagner's approach to these issues may open up new ways forward and offer a fresh perspective on some of the traditional questions of theology such as sacrifice, redemption and fundamental questions about God. A linchpin for Bell's approach is viewing the Ring in the light of the Jesus of Nazareth sketches which he argues confirms that the artwork does indeed address questions of Christian theology both for those inside and those outside the church.

Music's Immanent Future Sally Macarthur, Judy Lochhead, Jennifer Shaw, 2016-05-12 The conversations generated by the chapters in *Music's Immanent Future* grapple with some of music's paradoxes: that music of the Western art canon is viewed as timeless and universal while other kinds of music are seen as transitory and ephemeral; that in order to make sense of music we need descriptive language that to open up the new in music we need to revisit the old; that to arrive at a figuration of music itself we need to posit its starting point in noise; that in order to justify our creative/compositional works as research we need to find critical languages and theoretical frameworks with which to discuss them; or that despite being an auditory system we are compelled to resort to the visual metaphor as a way of thinking about musical sounds. Drawn to musical sound as a powerful form of non-verbal communication, the authors include musicologists, philosophers, music theorists, ethnomusicologists and composers. The chapters in this volume investigate and ask fundamental questions about how we think, converse, write about, compose, listen to and analyse music. The work is informed by the philosophy primarily of Gilles Deleuze and Felix Guattari and secondarily of Michel Foucault, Julia Kristeva and Jean-Luc Nancy. The chapters cover a wide range of topics focused on twentieth and twenty-first century musics, covering popular musics, art music, acousmatic music and electro-acoustic musics and including music analysis, music's ontology, the noise/music dichotomy, intertextuality and music listening, ethnography and the current

state of music studies The authors discuss their philosophical perspectives and methodologies of practice led research including their own creative work as a form of research Music s Immanent Future brings together empirical cultural philosophical and creative approaches that will be of interest to musicologists composers music analysts and music philosophers

Penner,2020-10-06 Storytelling in Opera and Musical Theater is the first systematic exploration of how sung forms of drama tell stories Through examples from opera s origins to contemporary musicals Nina Penner examines the roles of character narrators and how they differ from those in literary and cinematic works how music can orient spectators to characters points of view how being privy to characters inner thoughts and feelings may evoke feelings of sympathy or empathy and how performers choices affect not only who is telling the story but what story is being told Unique about Penner s approach is her engagement with current work in analytic philosophy Her study reveals not only the resources this philosophical tradition can bring to musicology but those which musicology can bring to philosophy challenging and refining accounts of narrative point of view and the work performance relationship within both disciplines She also considers practical problems singers and directors confront on a daily basis such as what to do about Wagner s Jewish caricatures and the racism of Orientalist operas More generally Penner reflects on how centuries old works remain meaningful to contemporary audiences and have the power to attract new more diverse audiences to opera and musical theater By exploring how practitioners past and present have addressed these issues Storytelling in Opera and Musical Theater offers suggestions for how opera and musical theater can continue to entertain and enrich the lives of 21st century audiences *Musical Meaning and Interpretation*

The Epic World Pamela Lothspeich, 2024-01-30. Reconceptualizing the epic genre and opening it up to a world of storytelling. The Epic World makes a timely and bold intervention toward understanding the human propensity to aestheticize and normalize mass deployments of power and violence. The collection broadly considers three kinds of epic literature: conventional celebratory tales of conquest that glorify heroism, especially male heroism; anti-epics or stories of conquest from the perspectives of the dispossessed, the oppressed, the despised and the murdered; and heroic stories utilized for imperialist or nationalist purposes. The Epic World illustrates global patterns of epic storytelling such as the durability of stories tied to religious traditions and/or to peoples who have largely stayed put, the tendency to reimagine and retell stories in new ways over centuries and the imbrication of epic storytelling and forms of colonialism and imperialism, especially those perpetuated and glorified by Euro-Americans over the past 500 years, resulting in unspeakable and immeasurable harms to humans, other living beings and the planet Earth. The Epic World is a go-to volume for anyone interested in epic literature in a global framework. Engaging with powerful stories and ways of knowing beyond those of the predominantly white Global North, this field-shifting volume exposes the false premises of Western civilization and Classics and brings new questions and perspectives to epic studies.

The Marriage between Perfume and the Lyric Stage Mary May Robertson, 2023-09-22. But what is this scent of balmy air? What this ray of light in my tomb, I seem to see an angel amid a scent of roses, sings Florestan in *Fidelio*. Beethoven's only opera. The role of scents, smells, fragrances and odours in opera has long been neglected, just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day. In the first book-length study on the topic, Professor Mary May Robertson explores the relationship between opera, perfumes and their respective protagonists in order to map out the previously undiscussed connection.

between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas
