Hollywood or History? Scott L. Roberts, Charles J. Elfer, 2024-10-01 In response to the limitations associated with teaching through film we sought to develop practical lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms One of the more interesting sources of visual media many authors in the previous volumes elected to use as the focus of their lesson plans were cartoons These lesson plans have been some of the more popular in the series and are often easier to adapt for a variety of grade levels In conducting research for this volume we learned that cartoons are an often used media sources in the classroom They have similar strengths and weaknesses in not only the teaching of history but other social studies disciplines as well While in many cases their intended audience is younger children people of all ages enjoy cartoons This makes them useful for teaching students at all grade levels as well as adults as there will be immediate buy in if used as a source of analysis for inquiry based lessons As with live action film we believe cartoons can also serve as a powerful tool in the social studies classroom and if appropriately utilized can foster critical thinking and civic mindedness The College Career and Civic Life C3 framework adopted by the National Council for the Social Studies in 2013 represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing The C3 is

comprehensive and ambitious Moreover we believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that the present volume might play a small role in the larger Hollywood or History project of supporting practitioners specifically teachers of preK 12 social studies disciplines by offering a collection of 19 classroom ready lesson designed to foster social studies inquiry through the careful use of selected cartoons

Hollywood or History? Sarah J. Kaka,2022-01-01 The rationale for the present text Hollywood or History An Inquiry Based Strategy for Using Film to Teach About Inequality and Inequity Throughout History stems from two main things First and foremost is the fact that the reviews of the first two volumes in the Hollywood or History series have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioners Classroom utility and teacher practice have continued to be the primary objectives in developing the Hollywood or History strategy The second thing is that this most recent volume in the series takes it in a new direction rather than focusing on eras in history it focuses

on the themes of inequity and inequality throughout history and how teachers can utilize the Hollywood or History strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from There is a firm belief that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender race socioeconomic status and so much more The book provides 30 secondary lesson plans grades 6 12 that address nine different topics centered around inequity and inequality throughout history many of which connect students to the world we are living in today The intended audience for the book are teachers who teach social studies at the 6th 12th grade level both in the United States and other countries An additional audience will be college and university social studies history methods professors in the United States and worldwide
