Towards an Understanding of the Cognitive Mechanisms Involved in Threat Processing and Perception Andras

Norbert Zsido, Carlos M. Coelho, David S. March, Michael Craig Hout, Jakub Polák, 2024-06-05 Much remains unknown about the cognitive mechanisms and information processing biases involved in threat detection or the acquisition and maintenance of threat associations To complicate the picture these mechanisms and biases likely differ between various types of threats e g those originating from animals weapons social situations or groups There has been a recent push to highlight ways of improving methods used in research in this area which has likewise prompted theoretical revisions It is therefore important to continue clarifying the cognitive mechanism e g perception attention memory learning underlying threat processing to develop a better understanding of how they affect social outcomes For example very little is known about how social identity hierarchy group structure and other social cues affect our responses in threatening situations As the social environment impacts our daily psychological functioning one might suspect it has an important role in threat processing as well

Transforming Supply Chains John Gattorna,Deborah Ellis,2019-07-04 Reinvent your supply chain from the outside in cut costs growth revenue and increase customer satisfaction We are now seeing and experiencing increasing turbulence in practically all our major industries which is leading to costly mis alignments between suppliers and their customers end users The world is no longer as forgiving as it was a few decades ago Customers going online have become increasingly demanding and the operating environment has become exceedingly complex This combination means that companies wishing to survive and thrive in the coming decades must transform themselves to become more agile and market responsive The problem is where to start this transformation journey We all pay lip service to being customer centric but the reality is that most of the world s large corporations have built up their logistics networks and by extension their enterprise supply chains over many years of sunk investment pursuing the flawed philosophy of one size fits all The solution to this dilemma is the Dynamic Alignment™ framework which directly links the target market to the operational strategies internal cultural capability and leadership styles inside our enterprise It will help you to adopt an outside in perspective of our market by seeing the world through the lens of our customers and use the insights gained in this way to reverse engineer the capabilities inside our enterprises to more precisely align with customers expectations Transforming Supply Chains allows you to segment your customer s expectations into not one but several dominant buying behaviours By identifying how your market is structured you can develop matching value propositions and corresponding operational strategies for each behavioural segment identified and then use those findings to redefine the internal operating structure as well as the

external supply chains Companies already using this model have seen greater customer satisfaction an uplift in revenue and a reduction in costs In some cases companies have doubled their margins within a year The full text downloaded to your computer With eBooks you can search for key concepts words and phrases make highlights and notes as you study share your notes with friends eBooks are downloaded to your computer and accessible either offline through the Bookshelf available as a free download available online and also via the iPad and Android apps Upon purchase you ll gain instant access to this eBook Time limit The eBooks products do not have an expiry date You will continue to access your digital ebook products whilst you have your Bookshelf installed
