What Was Driven Behind Imperialism In Africa

R. F Holland, A. N Porter

What Was Driven Behind Imperialism In Africa:

An Economic History of Development in sub-Saharan Africa Ellen Hillbom, Erik Green, 2019-06-19 This is a desperately needed book It not only surveys the field of African economic history at the level of undergraduate students but provides several fresh perspectives drawing on insights from the latest research on the evolution of African societies and their economic prosperity This valuable source of teaching material will be the premier text on African economic history for at least the next decade Johan Fourie Stellenbosch University South Africa This upper level textbook offers a historical understanding of sub Saharan Africa By looking at the economic history of the African region from before the arrival of European territorial control all the way through to Africa s integration in the current era of globalisation readers can understand the development paths for African countries today Organisation of production social structures trade and governance are key factors in the discussion about African success stories and failures Suitable reading for upper level undergraduates MSc and postgraduate students in addition to policy makers and development practitioners looking for a comprehensive overview of Africa from an economic and social perspective Hillbom and Green also provide a starting point for the study of African economic history for those who would like to continue their own research in this area **European**

Imperialism and the Partition of Africa Ernest Francis Penrose, 2012-11-12 This volume seeks to explain the European partition of Africa between 1880 1900 Imperialism and Colonialism: Unmasking the Past Pasquale De Marco, 2025-07-15 This book delves into the complex and often controversial history of imperialism and colonialism examining the motivations methods and consequences of these practices that have shaped the political economic and social landscapes of nations across the globe From the Age of Exploration to the 21st century empires have risen and fallen leaving behind a tangled web of power dynamics cultural exchanges and economic dependencies We explore the factors that drove European powers to embark on a quest for colonies the impact of imperialism on indigenous populations and the struggles for independence that ultimately led to the decolonization of much of the world We also examine the legacy of imperialism and colonialism from the enduring inequalities between nations to the rise of neocolonialism and economic imperialism The book sheds light on the challenges of globalization global inequality and poverty and explores the ongoing debates about the future of imperialism and colonialism in a rapidly changing world This book is an essential read for anyone seeking a deeper understanding of the historical political and economic forces that have shaped our world It is a timely and thought provoking examination of a topic that continues to resonate in the present day Through a comprehensive analysis of historical events primary sources and scholarly perspectives this book provides readers with a nuanced understanding of imperialism and colonialism its impact on societies and its enduring legacy It is a valuable resource for students researchers and anyone interested in gaining a deeper understanding of this complex and multifaceted phenomenon If you like this book write a review **The**
Oxford Handbook of Economic Imperialism Zak Cope, Immanuel Ness, 2022 Including thirty four chapters written by

academics and experts in the field of international political economy The Oxford Handbook of Economic Imperialism examines the history of economic imperialism from the early modern age to the present The Handbook demonstrates the persistence of economic imperialism in today's postcolonial world and the enduring control wielded by great powers even after the end of formal empire Moreover the Handbook reveals how emerging powers are expanding economic control in new geographic and geopolitical contexts and highlights the significance of economic imperialism in the structures relations processes and ideas that sustain poverty and conflict worldwide

The Palgrave Handbook of Africa and the Changing Global Order Samuel Ojo Oloruntoba, Toyin Falola, 2021-11-22 This handbook fills a large gap in the current knowledge about the critical role of Africa in the changing global order By connecting the past present and future in a continuum that shows the paradox of existence for over one billion people the book underlines the centrality of the African continent to global knowledge production the global economy global security and global creativity Bringing together perspectives from top Africa scholars it actively dispels myths of the continent as just a passive recipient of external influences presenting instead an image of an active global agent that astutely projects soft power Unlike previous handbooks this book offers an eclectic mix of historical contemporary and interdisciplinary approaches that allow for a more holistic view of the many aspects of Africa's relations with the world

The Social Context of Adult Learning in Africa Sabo Amin Indabawa, Stanley Mpfu, 2006 This book examines how adult education is influenced by and has an influence on the society in which it takes place It presents a clear analysis of the development challenges and sociological realities of the adult education context and explores the potential of adult education to help African countries and communities achieve their developmental goals Issues discussed include adult education social change and development community education race ethnicity and religion social class and gender empowerment democracy health and HIV AIDS poverty and debt globalisation and the environment

Ecological Imperialism, Development, and the Capitalist World-System Mariko Lin Frame, 2022-10-13 Two major trends are currently challenging the sustainability of human civilization extreme inequality and the ecological crisis This book argues that these are intrinsically linked by further exploring the complex relationships between global ecological crises neoliberal globalization orthodox development policies and imperialism Drawn from extensive theoretical historical policy and empirical research as well as fieldwork in Africa and Asia this book examines the crucial characteristics of the capitalist world system and how it enables and drives ecological imperialism Neoliberal globalization has allowed for capital's unfettered access to and exploitation of Nature across the planet and neoliberal development policies have reinforced a contemporary form of ecological imperialism where the environments of the Global South are enclosed and exploited and local communities are dispossessed of their land and livelihoods Simultaneously resources from the Global South are funneled to the Global North in the form of consumer goods and ecologically unequal exchange while the profits from those resources are siphoned away to transnational corporations financiers and government elites This work traces the historical

development of free market policies while also paying special attention to the role of Northern international financial institutions emerging economies the semi periphery and the often hidden role of international finance in ecological imperialism This volume will be of keen interest to scholars and students of political economy critical development studies environmental sociology and political ecology *Discovering Imperialism* ,2011-11-25 The theory of imperialism is usually associated with some of the big names in the history of European Marxism such as Lenin Rosa Luxemburg Rudolf Hilferding and Nikolai Bukharin alongside whom the English Progressive John Hobson is usually mentioned However little is known about the development of Marxist theory on this subject besides the books of these figures This volume assembles for the first time the main documents of the international debate on imperialism that took place in the Second International during the period 1898-1916 It assesses the contributions of the individual participants to the developing theory of imperialism placing them in the context of contemporary political debates **Encyclopedia of Historians and Historical Writing**

Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Imperialism and the Developing World Atul Kohli,2020 How did Western imperialism shape the developing world Atul Kohli tackles that question by analyzing British and American influence on Asia Africa the Middle East and Latin America from the age of the British East India Company to the most recent U S war in Iraq How did Western imperialism shape the developing world In *Imperialism and the Developing World* Atul Kohli tackles this question by analyzing British and American influence on Asia Africa the Middle East and Latin America from the age of the British East India Company to the most recent U S war in Iraq He argues that both Britain and the U S expanded to enhance their national economic prosperity and shows how Anglo American expansionism hurt economic development in poor parts of the world To clarify the causes and consequences of modern imperialism Kohli first explains that there are two kinds of empires and analyzes the dynamics of both Imperialism can refer to a formal colonial empire such as Britain in the 19th century or an informal empire wielding significant influence but not territorial control such as the U S in the 20th century Kohli contends that both have repeatedly undermined the prospects of steady economic progress in the global periphery though to different degrees Time and again the pursuit of their own national economic prosperity led Britain and the U S to expand into peripheral areas of the world Limiting the sovereignty of other states and poor and weak states on the periphery in particular was the main method of

imperialism For the British and American empires this tactic ensured that peripheral economies would stay open and accessible to Anglo American economic interests Loss of sovereignty however greatly hurt the life chances of people living in Asia the Middle East Africa and Latin America As Kohli lays bare sovereignty is an economic asset it is a precondition for the emergence of states that can foster prosperous and inclusive industrial societies **The Political Economy of**

Imperialism Ronald M. Chilcote, 2012-12-06 This book brings together important essays by distinguished scholars who have devoted past attention to the study of imperialism and development It complements an anthology of previously published essays that brings together important theoretical perspectives around the issues and debates on these themes this volume will be published by Humanity Press forthcoming Both projects relate to a lengthy chapter Theories of Imperialism which will be published in my book Theories of Comparative Political Economy Forthcoming These projects represent a culmination of many years of teaching in both economics and political science During that time I taught two political science courses on development and under development but I was unable to convince my colleagues of the usefulness of a course on imperialism that linked historical issues and debates with the more recent developmental literature When in 1990 I was welcomed into economics my colleagues endorsed a graduate seminar on the political economy of imperialism Thus this volume evolved out of that experience in an effort to encourage new analysis that reflects retrospectively on past contributions as well as the prospects for imperialism and development in the contemporary world **Why Europe Intervenes in Africa** Catherine

Gegout, 2018-01-01 Why Europe Intervenes in Africa analyses the underlying causes of all European decisions for and against military interventions in conflicts in African states since the late 1980s It focuses on the main European actors who have deployed troops in Africa France the United Kingdom and the European Union When conflict occurs in Africa the response of European actors is generally inaction This can be explained in several ways the absence of strategic and economic interests the unwillingness of European leaders to become involved in conflicts in former colonies of other European states and sometimes the Eurocentric assumption that conflict in Africa is a normal event which does not require intervention When European actors do decide to intervene it is primarily for motives of security and prestige and not primarily for economic or humanitarian reasons The weight of past relations with Africa can also be a driver for European military intervention but the impact of that past is changing This book offers a theory of European intervention based mainly on realist and post colonial approaches It refutes the assumptions of liberals and constructivists who posit that states and organisations intervene primarily in order to respect the principle of the responsibility to protect *Money, Finance, and Empire, 1790-1960* R. F

Holland, A. N Porter, 2012-11-12 Scholars have recently begun to pay renewed attention to the economics of empire focusing in particular on the requirements of metropolitan Britain's economy and on the activities of imperial businesses Within this broad field financial questions not least the subject of investment overseas or the export of capital have long had a prominent place and have been equally affected by the development of new approaches The consensus as to the volume and direction of

Britain's overseas investments is being vigorously challenged. Technological advances have encouraged on a greatly enlarged scale the compilation and analysis of information about British investments and shareholdings abroad. The gradual easing of restrictions on business records has increased facilities for the study especially of imperial and colonial banking. Work on the financial policies of central governments is revealing much of interest to students of twentieth century colonial rule and decolonization. This collection of essays brings together a selection of the latest research on these and other themes and for comparative purposes includes examples of recent continental work.

Information and Communication Technologies for Development. Strengthening Southern-Driven Cooperation as a Catalyst for ICT4D Petter Nielsen, Honest Christopher Kimaro, 2019-04-26. The two volumes IFIP AICT 551 and 552 constitute the refereed proceedings of the 15th IFIP WG 9.4 International Conference on Social Implications of Computers in Developing Countries ICT4D 2019 held in Dar es Salaam Tanzania in May 2019. The 97 revised full papers and 2 short papers presented were carefully reviewed and selected from 185 submissions. The papers present a wide range of perspectives and disciplines including but not limited to public administration, entrepreneurship, business administration, information technology for development, information management, systems organization, studies, philosophy and management. They are organized in the following topical sections: communities, ICT enabled networks and development, digital platforms for development, ICT for displaced population and refugees, How it helps, How it hurts, ICT4D for the indigenous by the indigenous and of the indigenous, local technical papers, pushing the boundaries, new research methods, theory and philosophy in ICT4D, southern driven, human computer interaction, sustainable ICT, informatics, education and learning in a turbulent world, doing the safari way.

Colonialism in Africa 1870-1960: Volume 4 L. H. Gann, Peter Duignan, 1969. A comprehensive study of recent African history examining the political, social and economic effects of colonialism.

Race and Empire in British Politics Paul B. Rich, 1990-08-16. This book discusses British thought on race and racial differences in the latter phases of empire from the 1890s to the early 1960s. It focuses on the role of racial ideas in British society and politics and looks at the decline in Victorian ideas of white Anglo-Saxon racial solidarity. The impact of anthropology is shown to have had a major role in shifting the focus on race in British ruling class circles from a classical and humanistic imperialism towards a more objective study of ethnic and cultural groups by the 1930s and 1940s. As the empire turned into a commonwealth, liberal ideas on race relations helped shape the post-war rise of race relations sociology. Drawing on extensive government documents, private papers, newspapers, magazines and interviews, this book breaks new ground in the analysis of racial discourse in twentieth century British politics and the changing conception of race amongst anthropologists, sociologists and the professional intelligentsia.

Explaining Foreign Policy in Post-Colonial Africa Stephen M. Magu, 2021-01-02. This book explores foreign policy developments in post-colonial Africa. A continental foreign policy is a tenuous proposition yet new African states emerged out of armed resistance and advocacy from regional allies such as the Bandung Conference and the League of Arab States. Ghana was the first Sub-Saharan African

country to gain independence in 1957 Fourteen more countries gained independence in 1960 alone and by May 1963 when the Organisation of African Unity OAU was formed 30 countries were independent An early OAU committee was the African Liberation Committee ALC tasked to work in the Frontline States FLS to support independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa's challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa's use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the formation of the African Economic Community OAU's evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation *uti possidetis* maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively

Uncovering African Agency Lucy Corkin, 2016-02-17 China's engagement in Africa is generally portrayed simply as African countries being exploited for their mineral wealth by a wealthy political and economic superpower Is this always the case Certain African countries have been able to use China's involvement in the region to grow their economies and solicit renewed interest from previously disengaged foreign powers by using their relationship with China to bolster their political capital In this thought provoking and original work Lucy Corkin demonstrates how Angola has been amongst the most successful of African nations in this role The concept of African agency covers a wide range of different countries with very different capabilities and experiences of engaging with China In each individual country there are a myriad of actors all with increasingly discernible agencies

Uncovering African Agency Angola's Management of China's Credit Lines casts a fascinating new light on China's involvement with her largest African trading partner and through this shows how different African states and the governmental actors within them are able to exploit the relationship to their best advantage

The Global and Regional in China's Nation-Formation Prasenjit Duara, 2008-12 Covers the major historical problems of China in the twentieth century namely imperialism nationalism state building religion and the role of history from the perspective of global and regional circulations and interactions

Handbook of Research on Deconstructing Culture and Communication in the Global South Okocha, Desmond Onyemechi, Yousaf, Muhammad, Onobe, Melchizedec J., 2023-07-10 There are inequalities in global knowledge production in communication outlets cultural practices and governance problems Under this symbiotic relationship they reinforce the cultural ideas values and governance systems operating in the Western countries as an ideal and role model for the Global South countries Media is regarded as the agent of change for communication and cultural values Indigenous knowledge production and dissemination is an essential feature to get a better insight into Global South countries Likewise de-westernizing and demystifying societal culture and governance issues are pertinent in this age of information The Handbook of Research on Deconstructing Culture and Communication in the Global South focuses on local production practices keeping in view the local needs of communication outlets and societal

and cultural sensitivities This Indigenous knowledge would provide deeper and richer insights into the problems and sensitivities of Global South countries To achieve this end this book adopts a broader approach encompassing development issues democratic values digitalization practices gender equality issues and more Covering topics such as biocultural activism language ideology and religiocentrism this major reference work is a valuable resource for graduate students sociologists government officials students and educators of higher education librarians development organization leaders religious scholars policymakers researchers and academicians
