Polling Student Voices for School Improvement Paris S. Strom, Robert D. Strom, 2023-11-01 The purpose of this book is to help secondary school principals and

college faculty fulfill their key role for continuous improvement planning of educational practices and safety at their institution. Rapid social and technological advances have motivated the consideration of student voice in schools across the United States. By merging student voice and educator expertise, an intergenerational perspective can emerge that more accurately portrays the strengths and limitations of a school. Strom and Strom began their research on student voice by partnering with adolescents and principals from several schools to identify topics they saw as appropriate for polling to improve schools. This effort led to the development of ten polls on school stress, career exploration, time management, attention and distraction, tutoring, peer support, school cheating, frustration, cyberbullying, and Internet learning. Every poll contains 15 to 20 multiple choice items. The process model for polling includes a step by step procedure that educational leaders can use to plan and implement school improvement. Different methods of data analysis and ways to report overall evidence based school results are presented by age, gender, grade, and ethnicity. Student polling is distinctive from other assessment strategies because the target for data gathering is a single school without comparison to other schools. This narrow base to assess student voice ensures poll results are anonymous and have local relevance to guide stakeholder responses. The results of polling can provide data based evidence that can be used for continuous education improvement planning. An additional benefit is to separately assess students in special education, gifted and talented programs, and second language acquisition learners. Our web site at learningpolls.org is intended to further inform educational leaders and invite their collaboration.

We Can Do It Michael T. Gengler, 2018-08-21 This book tells of the challenges faced by white and black school administrators, teachers, parents, and students as Alachua County, Florida, moved from segregated schools to a single unitary school system. After *Brown v Board of Education*, the South's separate white and black schools continued under lower court opinions provided black students could choose to go to white schools. Not until 1968 did the NAACP Legal Defense Fund convince the Supreme Court to end dual school systems. Almost fifty years later, African Americans in Alachua County remain divided over that outcome. A unique study including extensive interviews, *We Can Do It* asks important questions among them: How did both races without precedent work together to create desegregated schools? What conflicts arose and how were they

resolved or not How was the community affected And at a time when resegregation and persistent white black achievement gaps continue to challenge public schools what lessons can we learn from the generation that desegregated our schools

The Homeschooling Father, How and Why I got started Salatiso,2023-11-18 A courageously and brilliantly written tell it like it is summation of the challenges endemic in education in Mzansi and elsewhere frankly and the knock on effect that permeates society and employment With its entrenched culture of entitlement patronage cadre deployment and good old fashioned construction mafia shakedowns the narrative is both gripping and enlightening More refreshing still is the hope offered by the author in the way of solutions and a can do spirit not just another list of only problems This author and writing is one of South Africa s best kept secrets as far as I am concerned Among other things it is inspiring me to seriously contemplate homeschooling my children though it covers so much more ground than that alone Do yourself a favour and read this work Share it widely and often Kudos Salatiso Thanks for the inspiration James Jimmy Duly MSc Adult Ed World s Most Reality based Operations Management at University of KwaZulu Natal American Education Wayne J. Common Sense Questions About Learners Gerard Giordano, 2017-05-24

Parents asked educators about their children's learning Frustrated when they were ignored they asked politicians to put pressure on the educators They were then surprised when the politicians provided personal advice about the optimal way to nurture learning They were even more surprised when the politicians prescribed changes to instruction curriculum textbooks technology school safety teacher retention student behavior school funding and even the menus for school cafeterias More frustrated than ever they intensified their barrage of common sense questions

School Choice Mercedes K.

Schneider, 2016-06-01 Proponents of market driven education reform view vouchers and charters as superior to local board run community based public schools However the author of this timely volume argues that there is no clear research supporting this view In fact she claims there is increasing evidence of charter mismanagement with public funding all too often being squandered while public schools are being closed or consolidated Tracing the origins of vouchers and charters in the United States this book examines the push to globally compete with education systems in countries such as China and Finland It documents issues important to the school choice debate including the impoverishment of public schools to support privatized schools the abandonment of long held principles of public education questionable disciplinary practices and community disruption *School Choice The End of Public Education* is essential reading for anyone seeking a deeper understanding of the past and future of public education in America Book Features Provides a comprehensive historical account of the origins of vouchers and charters Includes accounts of intriguing historical experiences Examines the defunding of neighborhood public schools in favor of often underregulated charters Reveals charter school churn that often follows the closing of a mismanaged charter Provides a cogent counternarrative to the claim that charters are necessary for America to compete globally How fortunate that we have another soon to be classic from Mercedes Schneider that informs and empowers us all for the fight back Joyce E King Georgia State University Schneider provides a must read for anyone especially educators interested in the future of public education Margaret Mary Sulentic Dowell Louisiana State University Outstanding Powerful This is the most interesting and best researched book on school choice I've ever read Julian Vasquez
