iCEER2014-McMaster Digest Mohamed Bakr,Ahmed Elsharabasy,2014-11-18 International Conference on Engineering Education and Research Annual Review of Comparative and International Education 2022 Alexander W. Wiseman,2023-12-14 Reflecting on ten prolific years of publication both volumes of the 2022 Annual Review together present discussions on education trends and directions conceptual and methodological developments research to practice area studies and regional developments and diversification of the field of education *Education and the UN Sustainable Development Goals* Kim Beasy,Caroline Smith,Jane Watson,2023-11-02 This book focuses on the complex relationship between education and the Sustainable Development Goals SDGs and highlights how important context is for both critiquing and achieving the Goals though education given the critical role teachers schools and curriculum play in young people s lives Readers will find examples of thinking and practice across the spectrum of education and training sectors both formal and informal The book adds to the increasing body of literature that recognises that education is and must be in its praxis at the heart of all the SDGs As we enter the third decade of the 21st century we have a clear understanding of the wicked and complex crises regarding the health of life on our planet and we cannot ignore the high levels of anxiety our young people are experiencing about their future Continuing in the direction of unsustainable exploitation of people and nature is no longer an option if life is to have a flourishing future The book illustrates how SDGs are supported in and by education and training showcasing the conditions necessary to ensure SDGs are fore fronted in policy reform It includes real world examples of SDGs in education and training contexts as well as novel critiques of the SDGs in regard to their privileging of anthropocentrism and neoliberalism This book is beneficial to academics researchers post graduate and tertiary students from all fields relating to education and training It is also of interest to policy developers from across disciplines and government agencies who are interested in how the SDGs relate to education *The Status of Student Involvement in University Governance in Kenya* Mulinge, Munyae M.,Arasa, Josephine N.,2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby

limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya

Kalipeni,Juliet Iwelunmor,Diana S. Grigsby-Toussaint,Imelda K. Moise,2018-06-14 The closure of the Millennium Development Goals MDGs in 2015 prompted the need for a book of this kind An interdisciplinary group of global health scholars contribute to the understanding of the emerging and fast growing problem of the dual burden of communicable and non communicable diseases NCDs in Africa This book is timely as the international community has moved from the MDGs to adopt the Sustainable Development Goals SDGs as the blueprint for a new human development agenda Contributions and case studies are situated in the revised Epidemiologic and Nutrition Transition Model to capture the current situation referencing communicable and NCDs on the African continent The case studies encapsulated aim to help minimize negative health outcomes and improve population health well being and equity in the future This book will be significant in policy circles to assist international organizations governments and United Nations agencies It aims to chart the future for health in Africa in light of recently adopted SDGs This book is also a useful complementary reader for global public health related courses

2017 Regional Overview of Food Security and Nutrition in Africa Food and Agriculture Organization of the United Nations,2018-04-17 This year s edition of the Africa Regional Overview of Food Security and Nutrition reports that after a prolonged decline hunger appears to be on the rise In sub Saharan Africa there were about 224 million undernourished people in sub Saharan Africa in 2016 up from 200 million in 2015 In many countries the worsening situation in 2015 and 2016 can be attributed to adverse climatic conditions often linked to the El Ni o phenomenon resulting in poor harvests and the loss of livestock Conflict sometimes in combination with drought or floods also contributed to severe food

insecurity in several countries Lower commodity prices and a difficult global economic environment have furthermore contributed to the worsening food security situation The worrying trend in undernourishment is not yet reflected in the series of indicators referring to nutritional outcomes in the region with the prevalence of stunting and wasting for children under the age of five continuing to decline gradually However progress towards the World Health Assembly global nutrition targets has been generally poor While a relatively large proportion of countries are on track to meeting the target for overweight in children the rates for adult obesity are soaring in all regions and are especially high in Southern Africa The report also finds that across the board countries have developed and are developing policy frameworks and investment plans that are aligned or efforts are being made to align them with the goals of the Malabo Declaration and SDG 2 Through CAADP policy processes are coherent and this initiative has raised the profile of agriculture and heavily influenced agricultural policy at regional and national levels However the worrying trends in undernourishment underline the need for even greater efforts to achieve the SDG 2 by 2030 The thematic part of the report focuses on the food security and nutrition conflict nexus Conflict is not only an increasingly important cause of food insecurity and malnutrition but food insecurity and malnutrition can also become conflict multipliers Addressing the causes of conflicts and supporting food security and livelihoods can help build resilience to conflict and contribute to sustaining peace

Global report on the state of dietary data Food and Agriculture Organization of the United Nations, Intake - Center for dietary assessment, 2022-03-09 Diet and nutrition are critical to health well being and longevity The economic and health burdens associated with poor quality diets are a worldwide concern but for low and middle income countries LMICs the long term impact of these burdens has the potential to be especially devastating Many of these LMICs are currently grappling with the deepening multiple burdens of malnutrition with undernutrition nutrient inadequacies and overweight and obesity often presenting simultaneously in communities households and even in single individuals Time relevant data is a necessary and critical component of any process or initiative that aims to ensure healthy diets Robust data on what people eat in a country enables an understanding of current food consumption practices and provides an evidence based foundation for the design and implementation of targeted and well informed actions policies and messaging to address the key issues related to healthy eating The purpose of this report is to take stock and celebrate the collection and use of dietary data in LMICs and generate further momentum for investment in government led dietary surveys in LMICs Section 1 provides a global overview of dietary surveys carried out in LMICs from 1980 through 2019 analysing key characteristics and trends over time Section 2 celebrates the increased investment in dietary surveys in LMICs by highlighting country stories related to dietary survey initiation implementation and data use Section 3 is aimed at generating further momentum for investment in government led dietary surveys in LMICs by illustrating through data visualizations the type of information dietary data can provide for policy makers
