 in mathematics is not new They exhibit a great deal of anxiety dislike and overall disinterest Quantitative data displaying
 abysmal student success rates are widely available and shared This book explores the complexity surrounding the issue of
 student difficulties in community college math Though much quantitative research focuses on the faculty experiences and
 perspectives regarding methods and practices the author puts the focus on students experiences The book presents the
 results of a study focused on students who struggled in mathematics Though their experiences varied they all entered
 community college with a great deal of disgust and anxiety toward mathematics courses and requirements These impressions
 and attitudes create barriers to success However all the students eventually succeeded in fulfilling their college level
 mathematics requirement The author presents these students experiences prior to entering community college what led to
 both success and failure in their math courses and the common themes leading to success and failure Through these student
 responses the author assists readers in gaining a better understanding of the community college student who struggles in
 math and how to break students community college math barriers to success **TABLE OF CONTENTS** Preface 1 Math is a Four
