Vw Transporter Type 2:

The Volkswagen Bus Book Malcolm Bobbitt, 2016-11-15 This is the story of VW's timeless classic the Type 2 Transporter universally known as the Bus. It is sixty years since the idea of VW's Transporter was conceived by Dutchman Ben Pon after seeing motorized trollies conveying components around the British managed Wolfsburg factory in the mid 1940s. With blueprints complete by November 1948 the Bulli as it was known in Germany went into production a year later. The 100 000th Transporter was built in October 1954 the millionth in 1961 and the 3 millionth in 1971 the total number of vehicles exceeding 6.5 million. The Transporter changed little in concept throughout decades of production and remained in production in Brazil until very recently nearly six decades after its postwar German debut. Researched in incredible detail this book explores the story of the VW bus from early origins through to the present day. This entirely new edition includes details of many of the different camper conversions and examines the social history and the T2's evolution. Including full specifications, production figures and buying advice, this totally reworked classic is an interesting, highly informative read and a must for any VW enthusiast. The Book of the Volkswagen Type 3 Simon Glen, This book tells the definitive international story of the Volkswagen Type 3. Simon Glen writes from first hand experience having owned seven Type 3s: five Variants, a 1500 Notchback and a 1500S Karmann Ghia which have been driven through Africa, Europe, Australia and New Zealand. Covering the Type 3's 20 year production span and detailing Type 3 Notchbacks, Fastbacks, Variants and the Karmann Ghia, this book provides a fascinating insight into the history and production of these classic cars. **VW Bus (Type 2 Transporter)** Malcolm Bobbitt, 1998 This text presents a heavily illustrated history of VW's charismatic and popular Type 2 Transporter from the early split screen era through the bay window models to the last generation. [VW Transporter and Microbus Specification Guide 1967-1979](#) Vincent Molenaar, Alexander Prinz, 2013-03-01 This comprehensive guide is the first one to tell the whole story of the Volkswagen Bay Window Transporter produced from 1967-1979. This new paperback edition deals with the Transporter's development, its technical evolution, the model codes, the specification details, changes, the factory fitted M codes and Transporter export. Using this book, Bus enthusiasts can crack the codes of their own specific vehicle to find out the factory fitted specifications like paint and trim colours, engine and transmission types and even the date of manufacture, model and destination code. The first guide to tell the whole story of the VW Bay Window Transporter. The photographs took over three years to collect from Volkswagen archives, resulting in an invaluable source of crucial information for restoration. Superbly illustrated with 470 colour photographs, Vincent Molenaar and Alexander Prinz are keen experts on Bay Window buses. *Twelve State-of-the-art Individual Electric and Hybrid Vehicle Test Reports* Lewis Research Center, 1978
