Sugar Control United States. Congress. Senate. Committee on Banking and Currency, 1947 War in Europe? Thibault Muzergues, 2022-04-19 In this highly provocative and documented book Thibault Muzergues describes how war in Europe is now more likely than it has been for at least the past 30 years how it might come back to Europe and what Europeans can do to avoid getting drawn again in fratricide conflicts Many consider Europe a continent of peace with NATO guaranteeing its security and the EU providing the political glue for a Europe Whole and Free But what if this was not the case anymore What if after a decade of crisis today's Europe was much more fragile than we thought The author challenges our assumptions about peace in Europe and forces us to face the realities of a world that has become much more dangerous Far from being apocalyptic this book serves as an advance warning to the dangers both internal and external that are now closing in on Europe and suggests solutions to avoid them This book will be key reading for those interested in European politics and history the European Union security and strategic studies and more broadly to current affairs and international relations

Nierstrasz, 2012-08-27 Is there any truth in the story that the morality of the servants of the Dutch East India Company in the eighteenth century was so rotten that one should believe the Dutch maxim Vergaan Onder Corruptie in translation something like Succumbed to Corruption and use this as an explanation for a very complex phenomenon Chris Nierstrasz introduces us in his In the Shadow of the Company to the realities of the decision makers and of the servants in the field Responding to the

changing realities in Asia the Company could only try to use the mercantile potential of its higher echelons to postpone its downfall In a situation in which the directors were not able to increase investment from Holland the servants in Asia were forced to take up the challenge Dollars and Dominion Mary Bridges,2024-09-24 A history of the globalization of US banking in the early twentieth century **Empires at War** Robert Gerwarth,Erez Manela,2014 Empires at War 1911 1923 offers a new perspective on the history of the Great War looking at the war beyond the generally accepted 1914 1918 timeline and as a global war between empires rather than a European war between nation states The volume expands the story of the war both in time and space to include the violent conflicts that preceded and followed World War I from the 1911 Italian invasion of Libya to the massive violence that followed the collapse of the Ottoman Russian and Austrian empires until 1923 It argues that the traditional focus on the period between August 1914 and November 1918 makes more sense for the victorious western front powers notably Britain and France than it does for much of central eastern and south eastern Europe or for those colonial troops whose demobilization did not begin in November 1918 The paroxysm of 1914 18 has to be seen in the wider context of armed imperial conflict that began in 1911 and did not end until 1923 If we take the Great War seriously as a world war we must a century after the event adopt a perspective that does justice more fully to the millions of imperial subjects called upon to defend their imperial governments interest to theatres of war that lay far beyond Europe including in Asia and Africa and more generally to the wartime roles and experiences of innumerable peoples from outside the European continent Empires at War also tells the story of the broad global mobilizations that saw African soldiers and Chinese labourers in the trenches of the Western front Indian troops in Jerusalem and the Japanese military occupying Chinese territory Finally the volume shows how the war set the stage for the collapse not only of specific empires but of the imperial world order **Tokens of Power** Ann Hironaka,2017-03-06 What motivates going to war This book reexamines how leaders make decisions based on appearances of power over military reality **Rights of man; being an answer to Mr. Burke's attack on the French revolution** Thomas Paine,1856 **With US Or Against US?** Craig Parsons,Nicolas Jabko,2005 This volume provides new insights on both the recent evolution of the EU and its future developmental trajectory and maps European trends against American policies and institutions **CSET** Barron's Educational Series,Robert D.
