

Los Angeles County Questions & Answers: Health Care Worker Vaccine Requirement Order

Related Materials:

[Los Angeles County Health Order 120001, Health Care Worker Vaccine Requirement](#)

Updates:

COVID-19: Updated to reflect changes to the Health Officer Order that now require workers in high-risk settings, including in hospitals, skilled nursing facilities, and other health care settings and who are eligible for a COVID-19 booster vaccination to receive their booster dose by no later than February 1, 2022. Workers that are not yet eligible for a booster dose must receive their dose within 15 days of becoming eligible. Workers in acute health care settings and long-term care settings that are booster-eligible and have not yet received their booster dose must be tested 2 times per week. All other workers in high-risk settings must be tested one time per week. Workers are strongly encouraged to immediately begin to wear a surgical mask or higher level respirator approved by NIOSH such as an N95 filtering facepiece respirator in all times while in the facility or in a residential care or other direct care setting. Also updated to note that federal vaccination regulations for workers in health care settings are still currently being enforced.

ABOUT THE LA COUNTY ORDER AND COMPARISON TO THE STATE ORDER AND FEDERAL REGULATIONS

1. Why is Los Angeles County (LA County) requiring all health care and home health care workers to be **fully vaccinated and boosted for COVID-19?**

COVID-19 poses one of the greatest threats to public health in recent memory. The three vaccines currently available have gone through rigorous testing and have also been given to hundreds of millions of people worldwide. Unvaccinated persons are more likely to get infected and spread the virus, which is transmitted through the air. Most current hospitalizations and deaths are among unvaccinated persons. Recent outbreaks in health care, skilled nursing facilities, and other congregate settings have often been traced to unvaccinated staff members. Current requirements for unvaccinated staff within health care settings appear to be insufficient to prevent transmission of the **Delta variant**, which is now the most common infection in the County and will soon become the most common variant causing COVID-19 infections in the County.

As being **"fully vaccinated and boosted"** against COVID-19, meaning all recommended doses of the primary vaccine series of COVID-19 vaccine and a booster booster when eligible, is the most effective means of preventing infection with the virus that causes COVID-19 (including the **Delta variant**) and subsequent hospitalization and mortality. This Order seeks to require staff and essential visitors in health care, long-term care, and home health care settings to be **"fully vaccinated and boosted"** against the SARS-CoV-2 virus to reduce the chance of transmission to vulnerable populations and to reduce the risk for staff in these settings. **In addition to being fully vaccinated and receiving a booster dose, the Order strongly**
