complexity of the story it tells doesn't follow a single continuous trajectory. Rather, it presents an overlapping sequence of interrelated narratives that together tell a full and nuanced yet wholly accessible history of visual art in the city. From the temptingly blank canvas left by the Fire, we loop back to the 1830s and on up through the 1860s, tracing the beginnings of the city's institutional and professional art world and community. From there, we travel in chronological order through the decades to the present. Familiar developments such as the founding of the Art Institute, the Armory Show, and the arrival of the Bauhaus are given a fresh look, while less well-known aspects of the story, like the contributions of African American artists dating back to the 1860s or the long history of activist art, finally get suitable recognition. The six chapters, each written by an expert in the period, brilliantly mix narrative and image, weaving in oral histories from artists and critics reflecting on their work in the city and setting new movements and key works in historical context. The final chapter, comprised of interviews and conversations with contemporary artists, brings the story up to the present, offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as or resist identifying as a Chicago artist today. The result is an unprecedentedly inclusive and rich tapestry, one that reveals Chicago art in all its variety and vigor and one that will surprise and enlighten even the most dedicated fan of the city's artistic heritage. Part of the Terra Foundation for American Art's year-long Art Design Chicago initiative, which will bring major arts events to venues throughout Chicago in 2018, *Art in Chicago* is a landmark publication, a book that will be the standard account of Chicago art for decades to come. No art fan, regardless of their city, will want to miss it.

Their shared biography draws from dozens of new interviews and hundreds of articles to document their intersecting musical journeys, from playing air guitar to KISS records to rocking gyms in high school cover bands to touring the world with some of pop music's biggest names.
