FINANCIAL AID FACTS | 14 Nov

- There is an upward trend in the number of students that register at more than one TVET Institution at the same time. These students you will find are at times also NSFAS bursary recipients.

If a student decides to drop out of an Institution and study at another Institution or just decide to drop out, it is best to cancel the programme the student registered for (in good time) at the institution you no longer an active student at. Students can cancel the programme they registered for at the Admissions Office (or at the divisional secretary assigned to the relevant programme).

Students that drop out without following proper cancellation procedure will have to settle the fees due to the college as they will still be reflected as active students on College system. This Can also delay the students' NSFAS bursary at the other institution of which the student is an active student at if student is registered at multiple TVETS at the same time-which could at times also lead to losing funding - NSFAS system will receive registration data from both TVETS – causing a delay or loss in student funding as NSFAS requires confirmation of which INSTITUTION To assign the student bursary to If student does not cancel at any TVET, College Financial Aid staff cannot advise NSFAS on a student cancellation.

• Even though students that received a NSFAS bursary in current registration block (NCV, Semester 2 and Trimester 2) does not have to submit a NSFAS bursary application again for the 1st registration block in year 2023 (these students are already part of NSFAS DATABASE) , their results that they received in current registration block will be a deciding factor if they continue to receive Funding through the NSFAS bursary scheme. The Department of Higher Education WILL send all academic results directly to NSFAS. NSFAS staff WILL ANALYSE all academic results received.

The Following number of subjects **MUST BE PASSED TO CONTINUE TO RECEIVE A BURSARY FOR YEAR 2023:**

- Report 191 Programme- student must pass 4 or 3 subjects from a total of 4 subjects.
- NCV student must pass 7 or 6 or 5 from a total of 7 subjects.

Current NSFAS beneficiaries must be mindful IF THEY DO NOT PERFORM ACADEMICALLY or decide to not attend final exams this could negatively impact on their funding approval. Even though a student can be currently funded by NSFAS the student is not guaranteed to be funded in the future, all dependant on the academic performance i.e. number of subjects passed.
(Reference NSFAS policy)

Final year students (Exit level – NCV Level 4 , N3 AND N6) who have registered for the first time in current period as a NCV LEVEL 4 ,N3 OR n6 student (Only applicable to these groups) must submit an appeal to NSFAS for Financial Aid year 2023, IF they did not pass the listed number of subjects above.

Unsuccessful students can only Appeal to NSFAS Not the College by logging onto their Mynsfas profile and appealing on this platform.
(Reference NSFAS policy N+1 RULE).

Student Financing of Higher Education Donald Heller,Claire Callender,2013-06-07 The financing of higher education is undergoing great change in many countries around the world In recent years many countries are moving from a system where the costs of funding higher education are shouldered primarily by taxpayers through government subsidies to one where students pay a larger share of the costs There are a number of factors driving these trends including A push for massification of higher education in the recognition that additional revenue streams are required above and beyond those funds available from governments in order to achieve higher participation rates Macroeconomic factors which lead to constraints on overall government revenues

Political factors which manifest in demands for funding of over services thus restricting the funding available for higher tertiary education A concern that the returns to higher education accrue primarily to the individual rather than to society and thus students should bear more of the burden of paying for it This volume will help to contribute to an understanding of how these trends occur in various countries and regions around the world and the impact they have on higher education institutions students and society as a whole With contributions for the UK USA South Africa and China this vital new book gives a truly global picture of the rapidly changing situation

Discrimination in an Unequal World Miguel Angel Centeno, Katherine S. Newman, 2010-09 Is globalization making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge **Discrimination in an Unequal World** explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories

Financing Higher Education Worldwide D. Bruce Johnstone, Pamela N. Marcucci, 2010-06-07 No issue in higher education is as salient or as controversial as finance As demand for higher education around the world grows so do the costs associated with it especially as governments shoulder less of the burden Tuition fees rise and student loan debt grows Who pays for these surging costs Who should pay D Bruce Johnstone and Pamela N Marcucci examine the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families They find that growing costs for education far outpace public revenue

streams that once supported it Even with financial aid and scholarships defraying some of these costs students are responsible for a greater share of the cost of higher education Featuring comprehensive economic and policy data the authors international comparative approach shows how economically diverse countries all face similar cost sharing challenges So who should pay for higher education While cost sharing is both politically and ideologically debated Johnstone and Marcucci contend that for almost all countries it is imperative for the financial health of colleges and universities bringing better efficiency equity and responsiveness Financing Higher Education Worldwide combines sophisticated economic explanations with sensitive political and cultural analyses of the financial pressures facing higher education throughout the world *Inclusive Education in South African Further and Higher Education* Tsediso Michael Makoelle, Cina P.
