A Theology Of The Laity:

Lay People in the Church Yves Congar, 1965 *Laity and Participation* Thomas Hoebel, 2006 Right across denominational boundaries lay theology is dominated by negatives the laity simply defined as the non ordained the alleged exclusion of the laity from full participation the sole focus on what they cannot or should not do and above all the total absence of an ecumenical lay theology In a unique approach this volume sets out to find ways of overcoming these negatives so predominant in current lay theology The author explores positions and perspectives put forward in Roman Catholic theology from Vatican II up to the present These are compared and contrasted with concepts and suggestions of present day Anglican Theology as well as with those of liberative theologies in Latin America and Asia Rethinking the content language and metaphors of lay theology in the final part of this volume the author proposes a new image for discussing the Church a model focusing on the interdependence and collaboration of all the people in the Church This is then used to sketch out the framework for a new type of lay theology Imbedded in ecclesiology in the concept of all believers together being the Church the author endeavours to suggest a lay theology that is indeed positive ecumenical and universal *All are Called* Church of England. Anameje, 2017-06-05 The church is made up of both the clergy and the laity And for it to properly fulfill the mission for which it was instituted by Christ all its members each according to his or her God given gift must contribute both to the upbuilding of the church and to its mission On the part of the laity their active participation in the general mission of the church ad intra and ad extra has been a great challenge in the life and practice of the church throughout its history The Second Vatican Council in its spirit of aggiornamento makes some positive difference This work critically examines the

conciliar documents some relevant postconciliar documents and theological reflection of some theologians And finally it proffers solutions that will enhance the active participation of the laity in the mission of the church in general and the church in Southeast Nigeria in particular **"All are Called** Church of England. Hagstrom, Presents the teaching of Vatican II as well as a few post conciliar documents regarding the laity in a simple way so that lay men and women might understand who they are in the church and what God has called them to do
