A Voyage to Arcturus David Lindsay, 2015-11-05 An Interstellar Voyage Classic Science Fiction *A Voyage to Arcturus* By David Lindsay *A Voyage to Arcturus* is a novel by Scottish writer David Lindsay first published in 1920 It combines fantasy philosophy and science fiction in an exploration of the nature of good and evil and their relationship with existence Critic and philosopher Colin Wilson described it as the greatest novel of the twentieth century and it was a central influence on C S Lewis Space Trilogy J R R Tolkien said he read the book with avidity Clive Barker has stated *A Voyage to Arcturus* is a masterpiece and called it an extraordinary work quite magnificent An interstellar voyage is the framework for a narrative of a journey through fantastic landscapes The story is set at Tormance an imaginary planet orbiting Arcturus which in the novel but not in reality is a double star system consisting of stars Branchspell and Alppain The lands through which the characters travel represent philosophical systems or states of mind through which the main character Maskull passes on his search for the meaning of life Maskull a man longing for adventures accepts an invitation from Krag an acquaintance of his friend Nightspore to travel to Tormance after a seance The three set off in a crystal ship from an abandoned observatory in Scotland but Maskull awakens to find himself alone on Tormance In every land he passes through he usually meets only one or two persons these meetings often though not always end in the death of those he meets either at his own hand or by that of another He learns of his own impending death meets Krag again and dies shortly after learning that he is in fact Nightspore himself The book concludes with a final revelation from Krag who claims to be known on Earth as Pain to Nightspore about the origin of the Universe The author turns out to support a variation of the doctrine of the Demiurge somewhat similar to that propounded by some Gnostics All of the characters and lands are types used to convey the author's critique of several philosophical systems On Tormance most such viewpoints or ways of life are accompanied by corresponding new bodily sense organs or modifications of the same thus each distinct Weltanschauung landscape has its corresponding sensorium

A Voyage to Arcturus
David Lindsay, 2021-03-31 The story takes place in Tormance This is an imaginary planet that orbits the star Arcturus In the novel but not actually it is a binary star system made up of Branchspell a large yellow solar star and Alppain a smaller star The novel says that it is 100 light years from Earth

The Book of Thought Dr. Thomas Stark, 2018-02-06 Thoughts can create worlds Every time you dream you make worlds out of your own thoughts You do not make dreamworlds out of atoms out of matter How many people grasp the significance of this fact A dream in and of itself proves that a mind can create what convincingly passes as a material world even though the dreamworld emphatically isn t material but is made of thoughts produced by the mind of the dreamer Why don t we indulge in the boldest of thoughts If one mind can build a dreamworld out of its own thoughts what would happen if all minds dreamt together What world might they create with their united effort with their thoughts pulled together and operating as one In fact they would build the very world we are living in right now This is a universe of thought and nothing but mind matters
