Understanding Muslim Family Life Joanne Britton, 2024-03-27 This book offers an innovative perspective on Muslim family life in British society It explores key issues

including diverse forms of family gender generation race ethnicity and class informing solutions for inequalities It demonstrates how a better understanding of Muslim family life can inform policies to address inequalities Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production **Family Life in Western Societies** Goldthorpe J. E., 1989 Book gives overview of family life in England and *Sociology of Family Life* David Cheal, 2020-06-03 This lucid and accessible introductory text from a highly regarded author provides students who are encountering the sociology of the family for the first time with a systematic and stimulating way of thinking about the subject based on a core set of analytical questions Coherent and persuasive it blends theory with empirical examples drawn from all over the world thus offering valuable insights into the differences and commonalities between families in quite diverse social and cultural contexts **Evangelical Identity and Gendered Family Life** Sally K. Gallagher, 2003 Evangelical Identity and Gendered Family Life provides a sociological and historical analysis of gender family and work among evangelical Protestants In this innovative study Sally Gallagher traces two lines of gender ideals one of husbands authority and leadership the other of mutuality and partnership in marriage from the Puritans to the Promise Keepers into the lives of ordinary evangelicals today Rather than simply reacting against or accommodating themselves to secular society Gallagher argues that both traditional and egalitarian evangelicals draw on longstanding beliefs about gender human nature and the person of God The author bases her arguments on an analysis of evangelical family advice literature data from a large national survey and personal interviews with over 300 evangelicals nationwide No other work in this area draws on such a range of data and methodological resources Evangelical Identity and Gendered Family Life establishes a standard for future research by locating the sources strategies and meaning of gender within evangelical Protestantism **Sociology of Families** Cheryl Albers, 1999-03-11 A comprehensive selection of readings provided to support David Newman s book of the same name **Family Life and School Achievement** Reginald M. Clark, 2015-07-31 Working mothers broken homes poverty racial or ethnic background poorly educated parents these are the usual reasons given for the academic problems of poor urban children Reginald M Clark contends however that such

structural characteristics of families neither predict nor explain the wide variation in academic achievement among children. He emphasizes instead the total family life stating that the most important indicators of academic potential are embedded in family culture. To support his contentions, Clark offers ten intimate portraits of Black families in Chicago. Visiting the homes of poor one and two parent families of high and low achievers, Clark made detailed observations on the quality of home life, noting how family habits and interactions affect school success and what characteristics of family life provide children with school survival skills: a complex of behaviors, attitudes, and knowledge that are the essential elements in academic success. Clark's conclusions lead to exciting implications for educational policy. If school achievement is not dependent on family structure or income, parents can learn to inculcate school survival skills in their children. Clark offers specific suggestions and strategies for use by teachers, parents, school administrators, and social service policy makers, but his work will also find an audience in urban anthropology, family studies, and Black studies.
