Freedom dreaming futures for Black youth: Exploring meanings of liberation in education and psychology research Seanna Leath, Lauren Mims, Misha Inniss-Thompson, 2023-07-21 Research elucidating the developmental processes in Black children and youths schooling and educative experiences is increasing e.g. Carter Andrews et al 2019 Daneshzadeh Jackson Neal Jackson 2018 Yet the notion of freedom dreaming in relation to Black children and youth has received less attention within the fields of education and psychology We draw from U.S. historian Professor Robin D. G. Kelley's concept of freedom dreaming to illuminate not only what we are fighting against in the

education of Black youth e.g. racial bias and discrimination, unfair disciplinary practices and criminalization and Black youths overrepresentation in special education and underrepresentation in gifted and talented programs but also what we are fighting for: liberatory educational praxis that build on Black youths' individual and cultural strengths. In the current call for freedom dreaming refers to 1. actively uplifting the complex lives and stories of Black children and youth in educational settings, 2. elevating Black children and youths' intersectional experiences related to ability, gender, identity, sexuality, age and socio-economic class and 3. highlighting the innovative work of scholars who understand and value community power in efforts to advance educational change. We draw on Dr. Bettina Love's 2019 call for educational freedom wherein she states: "The practice of abolitionist teaching is rooted in the internal desire we all have for freedom, joy, restorative justice, restoring humanity, not just rules and to matter to ourselves, our community, our family and our country with the profound understanding that we must demand the impossible by refusing injustice and the disposability of dark children." p. 7 *Poetic Environmental Activism and Education* Amanda Fulford, Victoria Jamieson, 2025-03-25. This book brings together the works of the nineteenth and twentieth century writers Henry David Thoreau and Anna Shepherd. Finding in their work a common approach of poetic forms of writing that enact kinds of environmental activism, the book repositions them in the context of current environmental crises by offering an original resource for supporting poetic environmental activism in educational contexts. Bringing together scholarship from North America and Europe, the book draws on Thoreau and Shepherd's literary and philosophical sources to support a conceptual understanding of education's role in how we think about, understand and tackle the climate crisis. Chapters trace the idea of poetic environmental activism in Thoreau and Shepherd, applying literary and environmental thought to educational practice and contexts. The book is timely in taking a scholarly approach that explores educational engagements with climate change and focuses on education for environmental sustainability. Advocating for engagement with the climate emergency through the lens of poetic environmental activism, this volume will appeal to postgraduate students, researchers and scholars involved with sustainability education, philosophy of education, poetic inquiry and literary theory for environmental action. *Mentalizing in Psychodynamic and Psychoanalytic Psychotherapy* Josef Brockmann, Holger Kirsch, Svenja Taubner, 2024-09-30. *Mentalizing in Psychodynamic and Psychoanalytic Psychotherapy* explains how mentalization-based therapy (MBT) can be used within the framework of psychodynamic and psychoanalytic psychotherapies. Josef Brockmann, Holger Kirsch and Svenja Taubner explain the outstanding importance of mentalizing for contemporary psychoanalysis and assess the essential conceptual innovations of mentalizing, focusing on outpatient individual therapies for patients with personality disorders. The book demonstrates the high connectivity of mentalizing to psychoanalysis and considers the further development of the concept of mentalizing. A practical and research-oriented work, the book documents numerous case studies and detailed transcripts of treatment dialogs supplemented by extensive commentary to illustrate the practical application of mentalizing. *Mentalizing in Psychodynamic and Psychoanalytic*

Psychotherapy will be of great interest to psychoanalysts and psychoanalytic psychotherapists in training and in practice who are looking to integrate mentalizing into their work
