Torin M. Finser

A Second Classroom Parent Teacher Relationships In A Waldorf School:

A Second Classroom Torin M. Finser, 2014-08-26 What does a healthy successful school look like Is it all about measurable outcomes test scores and pass fail grades set by the government Can learning be quantified in short term measurements or does real learning take years to manifest in a career or biography All seem to agree that a healthy school is also a community and that community depends on the quality of relationships chiefly the relationships among students teachers and parents This book features a comprehensive examination of the parent teacher relationship in all its dimensions from parent evenings and conferences to communication conflict and the life cycle of parent involvement in their school In between the chapters on practical advice are sections that consider the issues from a deeper spiritual dimension This book is intended to stimulate conversation self reflection and relational practices that awaken community life in and around our schools Guided Self-Study Torin Finser, 2015-08-01 First one might ask Why not just read the first three books After all

Rudolf Steiner wrote them in such a way that the very act of reading them can awaken new faculties Who could ever duplicate that It might even seem presumptuous to select passages from books that were constructed by an initiate To those who have these and other objections I have the following response My hope is that the pages in this book serve as an invitation so that those who work with this material will then be motivated to go to the original texts and work with them more intensively Torin Finser

Resources in Education ,1999-10 **Register of Educational Research in the United Kingdom, 1992-1995** National Foundation For Educational Research, 1995 This latest volume of the Register of Educational Research in the United Kingdom lists all the major research projects being undertaken in Britain during the latter months of 1992 the whole of 1993 and 1994 and the early months of 1995 Each entry provides names and addresses of the researchers a detailed abstract the source and amount of the grant where applicable the length of the project and details of published material about the research *Encyclopedia of Education: IEA-Lowenfeld* James W. Guthrie, 2003 **Current Index to Journals in Education** ,2001 **Register of Educational Research in the United Kingdom** ,1995 **Every**

Child a Learner Aldene Fredenburg, Society for Developmental Education, Peterborough, NH., 1996 The main objective of this sourcebook is to support K 6 educators in creating child centered classrooms where all children can learn and all children can succeed **Encyclopedia of Curriculum Studies** Craig Kridel, 2010-02-16 The Encyclopedia of Curriculum Studies provides a comprehensive introduction to the academic field of curriculum studies for the scholar student teacher and administrator The study of curriculum beginning in the early 20th century served primarily the areas of school administration and teaching and was seen as a method to design and develop programs of study The field subsequently expanded to draw upon disciplines from the arts humanities and social sciences and to examine larger educational forces and their effects upon the individual society and conceptions of knowledge Curriculum studies has now emerged to embrace an expansive and contested conception of academic scholarship while focusing upon a diverse and complex dynamic among

educational experiences practices settings actions and theories in relation to personal and institutional needs and interests The Encyclopedia of Curriculum Studies serves to inform and to introduce terms events documents biographies and concepts to assist the reader in understanding aspects of this rapidly changing field of study Representative topics include Origins definitions dimensions and variations on Curriculum Studies Curriculum development and design for schools Curricular purpose implementation and evaluation Contemporary issues e g standards tests and accountability Curricular dimensions of teaching and teacher education Interdisciplinary perspectives on institutionalized curriculum Informal curricula of homes mass media workplaces organizations and relationships Impact of race class gender health belief appearance place ethnicity language Relationships of curriculum and poverty wealth and related factors Modes of curriculum inquiry and research Curriculum as cultural studies exploring the formation of identities and possibilities Corporate state church and military influence as curriculum Global and international perspectives on curriculum Curriculum organizations journals and resources Summaries of books and articles on curriculum studies Biographic vignettes of key persons in curriculum studies Relevant photographs

Of Primary Interest ,1999 **Middle School Journal** ,2001 Nurturing the Souls of Our Children Robert Mitchell,2005 The Sin of Obedience is one of the few works of fiction or non fiction that looks profoundly and with deep personal reflection into the training of a Catholic priest The novel rich and accurate in detail is the story of a young prodigy torn with between the rigid religious traditions and convictions of his mother and the more humanity oriented respect for freedom of his father Building on his own experiences including being the subject of sexual abuse by a seminary teacher the author unfolds a picture of religious life in which the cornerstones of celibacy and a vow of obedience have forced seminarians and priests to make difficult and often impossible decisions in their own personal lives This well crafted story enables the reader to go along with a young boy seminarian and priest on his idealistic pursuit and mission and the consequences he has to face as a result British Education Index ,2004 *International Journal of Educational Reform* ,1999 Resources in Education ,1997 Press Summary - Illinois Information Service Illinois Information Service,1999-10-18 Waldorf Schools and the History of Steiner Education Thomas Stehlik,2019-10-31 This book marks the centenary of the first Waldorf School established by Rudolf Steiner in Stuttgart in 1919 With around 1 150 Waldorf Schools and over 1 800 Waldorf Kindergartens established in over 60 countries this book examines and analyses how the initial impulse of Steiner education has grown over the last century to become a worldwide alternative movement in education The author documents and compares the growth and development of Waldorf schools and Steiner inspired educational institutions around the world and determines the extent to which the original underpinning philosophy has been maintained against the contexts and challenges of contemporary global trends in education Within such diverse international contexts it is significant that the schools retain such a distinctive identity and clearly redefine how alternative education can be viewed This comprehensive volume will be of interest and value to scholars of Steiner education and Waldorf schools as

well as alternative education more widely
