typologically oriented overview of PVs It then gives quantitative data about multiple PV composites and carries out philological formal semantic and syntactic analyses on them The comparison among these languages suggests that a process of accumulation lies behind multiple PV composites Also PV ordering is explained by different factors semantic solidarity between PVs and verbs PVs tendency to be specified by event participants PVs etymologies influence from other languages The book also contributes to casting light on the reasons for PVs grammaticalization and lexicalization These are two distinct reanalyses triggered by the same factor i e the mentioned semantic solidarity which makes PVs be felt as redundant They are thus reassigned salient pieces of information as actional markers grammaticalization or reinterpreted as part of the verb lexicalization **The Monthly Literary Advertiser** ,1834
