A Terrible Revenge The Ethnic Cleansing Of The East European Germans:

A Terrible Revenge Alfred-Maurice de Zayas, 2006-05-28 The genocidal barbarism of the Nazi forces has been well documented What is little known is the fate of fifteen million German civilians who found themselves on the wrong side of new postwar borders All over Eastern Europe the inhabitants of communities that had been established for many centuries were either expelled or killed Over two million Germans did not survive Some of these people had supported Hitler but the great majority were guiltless In A Terrible Revenge de Zayas describes this horrible retribution This new edition includes an updated foreword epilogue and additional information from recent interviews with the children of the displaced **Terrible Revenge** Alfred Maurice De Zayas,1994 German Expellees Alfred M. Foote, Anett Árvay, 2025-02-21 Contested Places Contested Pasts focuses on how the First and Second World Wars Holocaust Cold War communist period and 1956 Uprising have been memorialized and marked in the Hungarian landscape The book explores the difficult debates surrounding the remembrance and commemoration of these events This is the first comprehensive book length study of Hungary's commemorative landscapes from the First World War to the present By stressing the spatiality and materiality of memory practice it offers new insights into why some events are celebrated widely while other controversial events are marked modestly or not at all Using a comparative case study methodology the book crisscrosses the country using archival sources and extensive fieldwork to document the stories behind dozens of major and minor memorials Examples from Budapest are important but key contributions of this book are the examples drawn from cities towns and villages outside the capital A wealth of photographs maps and diagrams are included to illustrate important ideas especially the range of responses that have emerged to commemorate major historical events In the end the book highlights the value of studies like this one that explore the varied ways in which the World Wars Holocaust and Cold War

Shattered Past Konrad H. Jarausch, Michael Geyer, 2009-03-24 Broken glass twisted beams piles of debris these are the early memories of the children who grew up amidst the ruins of the Third Reich More than five decades later German youth inhabit manicured suburbs and stroll along prosperous pedestrian malls Shattered Past is a bold reconsideration of the perplexing pattern of Germany s twentieth century history Konrad Jarausch and Michael Geyer explore the staggering gap between the country s role in the terrors of war and its subsequent success as a democracy They argue that the collapse of Communism national reunification and the postmodern shift call for a new reading of the country s turbulent development

one that no longer suggests continuity but rupture and conflict Comprising original essays the book begins by reexamining the nationalist socialist and liberal master narratives that have dominated the presentation of German history but are now losing their hold Treated next are major issues of recent debate that suggest how new kinds of German history might be written annihilationist warfare complicity with dictatorship the taming of power the impact of migration the struggle over national identity redefinitions of womanhood and the development of consumption as well as popular culture The concluding chapters reflect on the country's gradual transition from chaos to civility This penetrating study will spark a fresh debate about the meaning of the German past during the last century There is no single master narrative no Weltgeist to be discovered But there is a fascinating story to be told in many different ways **Psychological Undercurrents of History** Henry Lawton, Jerry S. Roth, 2012-11-22 Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies At the start of the twenty first century the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public

and intellectual discourse in such diverse fields as politics ethics and religion Forward looking and multi disciplinary this handbook draws on the work of an international team of forty seven outstanding scholars The handbook is thematically divided into five broad sections Part One Enablers concentrates on the broad and necessary contextual conditions for the Holocaust Part Two Protagonists concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator victim and bystander It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault Part Three Settings concentrates on the particular places sites and physical circumstances where the actions of the Holocaust's protagonists and the forms of persecution were literally grounded Part Four Representations engages complex questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust's impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights The Politics of Retribution in Europe István Deák, Jan T. Gross. Tony Judt, 2009-11-06 The presentation of Europe's immediate historical past has quite dramatically changed Conventional depictions of occupation and collaboration in World War II of wartime resistance and post war renewal provided the familiar backdrop against which the chronicle of post war Europe has mostly been told Within these often ritualistic presentations it was possible to conceal the fact that not only were the majority of people in Hitler's Europe not resistance fighters but millions actively co operated with and many millions more rather easily accommodated to Nazi rule Moreover after the war those who judged former collaborators were sometimes themselves former collaborators Many people became innocent victims of retribution while others among them notorious war criminals escaped punishment Nonetheless the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent In inspiring essays a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war s aftermath how to punish the guilty how to decide who was guilty of what how to convert often unspeakable and conflicted war experiences and memories into serviceable even uplifting accounts of national history In short these scholars explore how the drama of the immediate past was and was not successfully overcome Through their comparative and transnational emphasis they also illuminate the division between eastern and western Europe locating its origins both in the war and in post war domestic and international affairs Here as in their discussion of collaborators trials the authors lay bare the roots of the many unresolved and painful memories clouding present day Europe Contributors are Brad Abrams Martin Conway Sarah Farmer Luc Huyse L

szl Karsai Mark Mazower and Peter Romijn as well as the editors Taken separately their essays are significant contributions to the contemporary history of several European countries Taken together they represent an original and pathbreaking account of a formative moment in the shaping of Europe at the dawn of a new millennium Fools' Crusade Diana Johnstone, 2003 A discussion of the political illusion created by the humanitarian bombing of Yugoslavia in 1999 that tests popular beliefs Beyond the Conceivable Dan Diner, 2023-12-22 The major essays of Dan Diner who is widely read and quoted in Germany and Israel are finally collected in an English edition They reflect the author's belief that the Holocaust transcends traditional patterns of historical understanding and requires an epistemologically distinct approach One can no longer assume that actors as well as historians are operating in the same conceptual universe sharing the same criteria of rational discourse This is particularly true of victims and perpetrators whose memories shape the distortions of historical narrative in ways often diametrically opposed The essays are divided into three groups The first group talks about anti Semitism in the context of the 1930s and the ideologies that drove the Nazi regime The second group concentrates on the almost unbelievably different perceptions of the Final Solution with particularly illuminating discussions of the Judenrat or Jewish council The third group considers the Holocaust as the subject of narrative and historical memory Diner focuses above all on perspectives the very notions of rationality and irrationality are seen to be changeable depending on who is applying them And because neither rational nor irrational motives can be universally assigned to participants in the Holocaust Diner proposes from the perspective of the victims the idea of the counterrational His work is directed toward developing a theory of Holocaust historiography and offers clearly and coherently the highest level of reflection on these problems The major essays of Dan Diner who is widely read and quoted in Germany and Israel are finally collected in an English edition They reflect the author's belief that the Holocaust transcends traditional patterns of historical understanding and requires a

German Women's Life Writing and the Holocaust Elisabeth Krimmer, 2018-09-20 Examines women s life writing in order to shed light on female complicity in the Second World War and the Holocaust Gray Zones Jonathan Petropoulos, John Roth, 2006-10-01 Few essays about the Holocaust are better known or more important than Primo Levi s reflections on what he called the gray zone a reality in which moral ambiguity and compromise were pronounced In this volume accomplished Holocaust scholars among them Raul Hilberg Gerhard L Weinberg Christopher Browning Peter Hayes and Lynn Rapaport explore the terrain that Levi identified Together they bring a necessary interdisciplinary focus to bear on timely and often controversial topics in cutting edge Holocaust studies that range from historical analysis to popular culture While each essay utilizes a particular methodology and argues for its own thesis the volume as a whole advances the claim that the more we learn about the Holocaust the more complex that event turns out to be Only if ambiguities and compromises in the Holocaust and its aftermath are identified explored and at times allowed to remain lest resolution deceive us will our awareness of the Holocaust and its implications be as full as possible
