training today as a whole *Media Capture in Africa and Latin America* Hayes Mawindi Mabweazara, Bethia Pearson, 2024-11-20 How can current debates on media capture be understood within the contexts of Africa and Latin America This edited collection provides a nuanced exploration of media capture a critical yet contested concept that examines and illuminates how media can become skewed in favour of power while also highlighting spaces and strategies of resistance By adopting a South South perspective it brings together scholars focused on these issues in both regions featuring a dialogue between two leading scholars Herman Wasserman and Silvio Waisbord in the Foreword The book not only demonstrates how media practices in Africa and Latin America are influenced by the political economy of their media systems but also contributes significantly to advancing empirical theoretical and comparative research on media in non Western settings Political Culture, Social Movements and Democratic Transitions in South America in the XXth Century Fernando Devoto, Torcuato S. Di Tella, 1997 Questo volume intende fornire un contributo alla riflessione sulla storia politica e sociale dell'America Latina illustrando la grande varietà delle ideologie e delle storie politiche delle nazioni latino americane dall'inizio del nostro secolo sino al periodo più recente Annotation Supplied by Informazioni Editoriali *The Media In Latin America* Lugo, Jairo, 2008-04-01 Looks at important media systems in Central and Latin America This book includes media history organization structure the interrelationship of media and state and the relationship between media culture and society It focuses on an aspect of the media specific to each country eg soap opera in Brazil and violence against journalists in Chile **Transitions Environments Translations** Joan W. Scott, Cora Kaplan, Debra Keates, 2013-10-18 The essays in *Transitions Environments Translations* explore the varied meanings of feminism in different political cultural and historical contexts They respond to the claim that feminism is Western in origin and universalist in theory and to the assumption that feminist goals are self evident and the same in all contexts Rather than assume that there is a blueprint by which to measure the strength or success of feminism in different parts of the world these essays consider feminism to be a site of local national and international conflict They ask What is at stake in various political efforts by women in different parts of the world What meanings have women given to their efforts What has been their relationship to feminism as a concept and as an international movement What happens when feminist ideas are translated from one language one political context to another

Presidential Impeachment and the New Political Instability in Latin America Aníbal Pérez-Liñán, 2007-07-09 Documents the emergence of a pattern of political instability in Latin America Traditional military coups have receded in the region but elected presidents are still ousted from power as a result of recurrent crises Anibal Pérez Liñan shows that presidential impeachment has become the main constitutional instrument employed by civilian elites to depose unpopular rulers Based on detailed comparative research in five countries and extensive historical information the book explains why crises without breakdown have become the dominant form of instability in recent years and why some presidents are removed from office while others survive in power The analysis emphasizes the erosion of presidential approval resulting

from corruption and unpopular policies the formation of hostile coalitions in Congress and the role of investigative journalism This book challenges classic assumptions in studies of presidentialism and provides important insights for the fields of political communication democratization political behaviour and institutional analysis Social and Political Transitions During the Left Turn in Latin America Karen Silva-Torres, Carolina Rozo-Higuera, Daniel S. Leon, 2021-09-09 Social and Political Transitions During the Left Turn in Latin America provides fourteen contributions to understand from a multidisciplinary perspective processes of socio political reconfigurations in the region from the early 2000s to the mid 2010s The Left Turn was the regional shift to left of center governments and social movements that sought to replace the neoliberal policies of the 1990s This volume aims to answer the overarching research question how do state and societal national and transnational actors trigger and shape processes of political and socio economic transitions in Latin America from the rise to the decline of the Left Turn The book presents case studies in which transitions are moments of change and uncertainty which one cannot predict their definitive outcomes The various case studies presented in the book place actors and processes in specific historical and socio political contexts which are influenced directly or indirectly by the historical trajectory of Latin America s Left Turn This book is essential reading for students and scholars of Social and Political History Latin American History and those interested in the social and political developments in Latin America more broadly **The Right in Latin America** Barry Cannon, 2016-04-14 Most current analysis on Latin American politics has been directed at examining the shift to the left in the region Very little attention however has been paid to the reactions of the right to this phenomenon What kind of discursive policy and strategic responses have emerged among the right in Latin America as a result of this historic turn to the left Have there been any shifts in attitudes to inequality and poverty as a result of the successes of the left in those areas How has the right responded strategically to regain the political initiative from the left And what implications might such responses have for democracy in the region The Right in Latin America seeks to provide answers to these questions while helping to fill a gap in the literature on contemporary Latin American politics Unlike previous studies Barry Cannon s book does not simply concentrate on party political responses to the contemporary challenges for the right in the region Rather he uses a wider more comprehensive theoretical framework grounded in political sociology in recognition of the deep social roots of the right among Latin America s elites in a region known for its startling inequalities Using Michael Mann s pioneering work on power he shows how elite dominance in the key areas of the economy ideology the military and in transnational relations has had a profound influence on the political strategies of the Latin American right He shows how left governments especially the more radical ones have threatened elite power in these areas influencing right wing strategic responses as a result These responses he persuasively argues can vary from elections through street protests and media campaigns to military coups depending on the level of perceived threat felt by elites from the left In this way Cannon uncovers the dialectical nature of the left right relationship in contemporary Latin American politics while simultaneously

providing pointers as to how the left can respond to the challenge of the right's resurgence in the current context of left retrenchment Cannon's multi-faceted inter-disciplinary approach including original research among right-leaning actors in the region makes the book an essential reference not only for those interested in the contemporary Latin American right but for anyone interested in the region's politics at a critical juncture in its history

Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti-colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self-styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics

Political Regimes and the Media in Asia Krishna Sen, Terence Lee, 2008-02-25 This book analyzes the relationship between political power and the media in a range of nation states in East and Southeast Asia focusing in particular on the place of the media in authoritarian and post-authoritarian regimes It discusses the centrality of media in sustaining repressive regimes and the key role of the media in the transformation and collapse of such regimes It questions in particular the widely held beliefs that the state can have complete control over the media consumption of its citizens that commercialization of the media necessarily leads to democratization and that the transnational liberal dimensions of western media are crucial for democratic movements in Asia Countries covered include Burma China Indonesia Malaysia Singapore Thailand the Philippines and Vietnam
