heavily requested subject And for more than a decade a definitive index to handicraft books has not been published To fill
this gap the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the Index to Handicraft
Books listing more than 900 books and over 12 400 subject entries covering books published from 1974 to 1984 The Index to
Handicraft Books is an essential reference tool for librarians who want to help someone find instructions for a varied range
of do it yourself projects providing quick access to craft projects in books more recent than previous handicraft index books
have listed Each entry in the index consists of a subject heading the name of the project as listed in the book the author and
title of the book and the page numbers on which the project can be found The author and title correspond to those in the List
of Works Cited section which gives full bibliographic information in order to help librarians find the book on their shelves or
obtain the book through inter library loan Because this index developed from a card file index of craft books acquired by
Carnegie Library since 1974 the list concentrates mainly on medium priced books that most libraries buy American Book
