American Sniper Early Release:

Clint Eastwood's Cinema of Trauma Charles R. Hamilton, Allen H. Redmon, 2017-08-11 Throughout his directorial career Clint Eastwood's movies have presented sympathetic narratives of characters enduring personal trauma as they turn to violence to survive calamity or sustain social order a choice that leaves them marginalized rather than redeemed In this collection of new essays contributors examine his films from *The Outlaw Josey Wales* to *Sully* as studies on PTSD that expose the social conditions that tolerate or trigger traumatization and in his more recent work imagine a way through individual and collective trauma *The Hero and the Victim* Gregory Brazeal, 2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War **Studying The Hurt Locker** Terence McSweeney, 2019-07-02 In this vibrant and dynamic book length study drawing on a broad tapestry of research Terence McSweeney offers an exploration of *The Hurt Locker* 2009 its stylistic and narrative devices its cultural impact its reception and its relationship to the genre of the war film McSweeney places the film in a richly textured historical political and industrial context arguing that *The Hurt Locker* is part of a long tradition of films about American wars that play a considerable role in how audiences come to understand the conflicts that they depict Thus films about a nation's wars are never only a movie but rather should be considered a cultural battleground themselves on which a war of representation is waged *Psychiatric Criminology* John A. Liebert, MD, William J. Birnes, JD, PhD, 2016-10-03 Since the shutdown of our public psychiatry system the seriously mentally ill are now mostly managed by public safety officers school officials emergency first responders and social workers with little experience in recognizing symptoms triggers and issues This book addresses the need to recognize the psychiatric component of criminological issues and the methodology of dealing with it on a practical as well as academic basis It provides a roadmap for training in rapid assessment built on evidence based emergency psychiatry protocols *The Aesthetics of Violence* Robert Appelbaum, 2017-11-30 Violence at an aesthetic remove from the spectator or reader has been a key element of narrative and visual arts since Greek antiquity Here Robert Appelbaum explores the nature of mimesis aggression the effects of antagonism and victimization and the political uses of art throughout history He examines how violence in art is formed contextualised and used by its audiences and readers Bringing traditional German aesthetic and social theory to bear on the modern problem of violence in art Appelbaum engages theorists including Kant Schiller Hegel Adorno and Gadamer The book takes the reader from Homer and Shakespeare to slasher films and performance art showing how violence becomes at once a language a motive and an idea in the experience of art It addresses the controversies head on taking a nuanced view of the subject understanding that art can damage as well as redeem But it concludes by showing that violence in the real world is a necessary condition of art in the world of mimetic play **American Sniper by Chris Kyle - A 20-minute Summary** Instaread Summaries, PLEASE NOTE This is a summary of the book and NOT the original book *American Sniper* by Chris Kyle A 20 minute Summary Inside this Instaread Summary Overview of the entire book

The Films of Clint Eastwood Matt Wanat,Leonard Engel,2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper* a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

practices changing morals and changing expectations but also medical stereotypes medical activism and violations of patients integrity and autonomy Examining over 400 films with medical themes over a century of cinema this book establishes the cultural medical and historical importance of the art form **Through the Crosshairs** Roger

Stahl,2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper's gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon's eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence *Writing Wars* David F. Eisler,2022-12-14 Choice

Outstanding Academic Title 2024 Senators Bob and Elizabeth Dole Biennial Award for Distinguished Book in Veterans Studies winner Who writes novels about war For nearly a century after World War I the answer was simple soldiers who had been there The assumption that a person must have experienced war in the flesh in order to write about it in fiction was taken for granted by writers reviewers critics and even scholars Contemporary American fiction tells a different story Less than half of the authors of contemporary war novels are veterans And that's hardly the only change Today's war novelists focus on the psychological and moral challenges of soldiers coming home rather than the physical danger of combat overseas They also imagine the consequences of the wars from non American perspectives in a way that defies the genre's conventions To understand why these changes have occurred David Eisler argues that we must go back nearly fifty years to the political decision to abolish the draft The ramifications rippled into the field of cultural production transforming the foundational characteristics authorship content and form of the American war fiction genre *Film Censorship in America* Jeremy

The Hell of War Comes Home Owen W. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war

has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel The Yellow Birds and Phil Klay s short stories Redeployment along with the films The Hurt Locker American Sniper and Billy Lynn s Long Halftime Walk For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding **Focus On: 100**
